

memorandum

DATE: July 22, 2011

REPLY TO
ATTN OF: NA-30

SUBJECT: **NAVAL REACTORS DOE IMPLEMENTATION BULLETIN NUMBER 458.1-19,
REVISION 2**

TO: Manager, Naval Reactors Laboratory Field Office

DOE Order 458.1, Administrative Change 2, RADIATION PROTECTION OF THE PUBLIC AND THE ENVIRONMENT, establishes standards and requirements for operations of the DOE and DOE contractors with respect to protection of members of the public and environment against undue risk from radiation. This order supersedes DOE O 458.1, Administrative Change 1.

Paragraph 3.c(2) of DOE O 458.1 states:

"In accordance with the responsibilities and authorities assigned by Executive Order 12344, codified at 50 USC sections 2406 and 2511, and to ensure consistency through the joint Navy/DOE Naval Nuclear Propulsion Program, the Deputy Administrator for Naval Reactors (Director) will implement and oversee requirements and practices pertaining to this Directive for activities under the Director's cognizance, as deemed appropriate."

The existing environmental radiological controls requirements, procedures, policies, and practices of the Naval Reactors Program meet or exceed the intent of the requirements of this Order and have been shown to protect the health and safety of the general public and the environment. They also ensure compliance with applicable statutes and regulations.

Therefore, unless otherwise directed by Naval Reactors headquarters, the following documents and those derived from them shall continue to be used in lieu of DOE O 458.1, Administrative Change 2: LAB-RC-0288 (Radiological Controls Manual) at the Bettis and Knolls laboratories and Naval Reactors Facility, and NAVSEA 389-0288 (Radiological Manual) and NAVSEA S9213-33-MMA-000/(V) (Radiological Controls for Ships) at the Kesselring Site.

This DOE Directive Implementation Bulletin should be attached to the subject directive and transmitted to those contractors for which you are responsible. This DOE Directive Implementation Bulletin cancels Implementation Bulletin Number 458.1-19, Revision 1.
