**Subject:** Request for Intervener Status - NORTHERN PASS

Dear Mr. Lawrence,

I am writing to request intervenor status in your agency's consideration of the so-called Northern Pass (NP). My comments are as follows. I am adamantly opposed to the NP as currently proposed. I am a landowner in Deerfield, NH with an existing PSNH Right of Way across my property, and NP as proposed will be constructed in that Right of Way. Deerfield is a rural New England community with many beautiful vistas, farms, historic homes, and buildings. The impact of NP's construction of a corridor of massive steel towers through the town—including within a half-mile of Deerfield's historic town center—will be immense. This industrial construction project is incongruous with Deerfield's historic New England character. It will destroy our scenic vistas. It will negatively impact property values and tourism. It will destroy certain forest and wetland areas. It will threaten the economic vitality and the future of this community. Your review of NP must be more fair, transparent, and objective than it is now. You must conduct a rigorous review of all reasonable alternatives, including not building the project.

Sincerely yours,

Bruce A. Adami  
32 Mountain Road  
Deerfield, NH 03037
