Department of Energy's
Office of Environment, Health,
Safety and Security (AU)

Stephanie Martin, Director
Office of Resource Management (AU-70)
and
Marianne DiSomma, COR/CS, SBPM (AU-71)

New American Energy Era

18th Annual DOE Small Business Forum & Expo
APRIL 16 – 18, 2019 | PITTSBURGH, PA

The Office of Environment, Health, Safety and Security (AU) - Our Mission

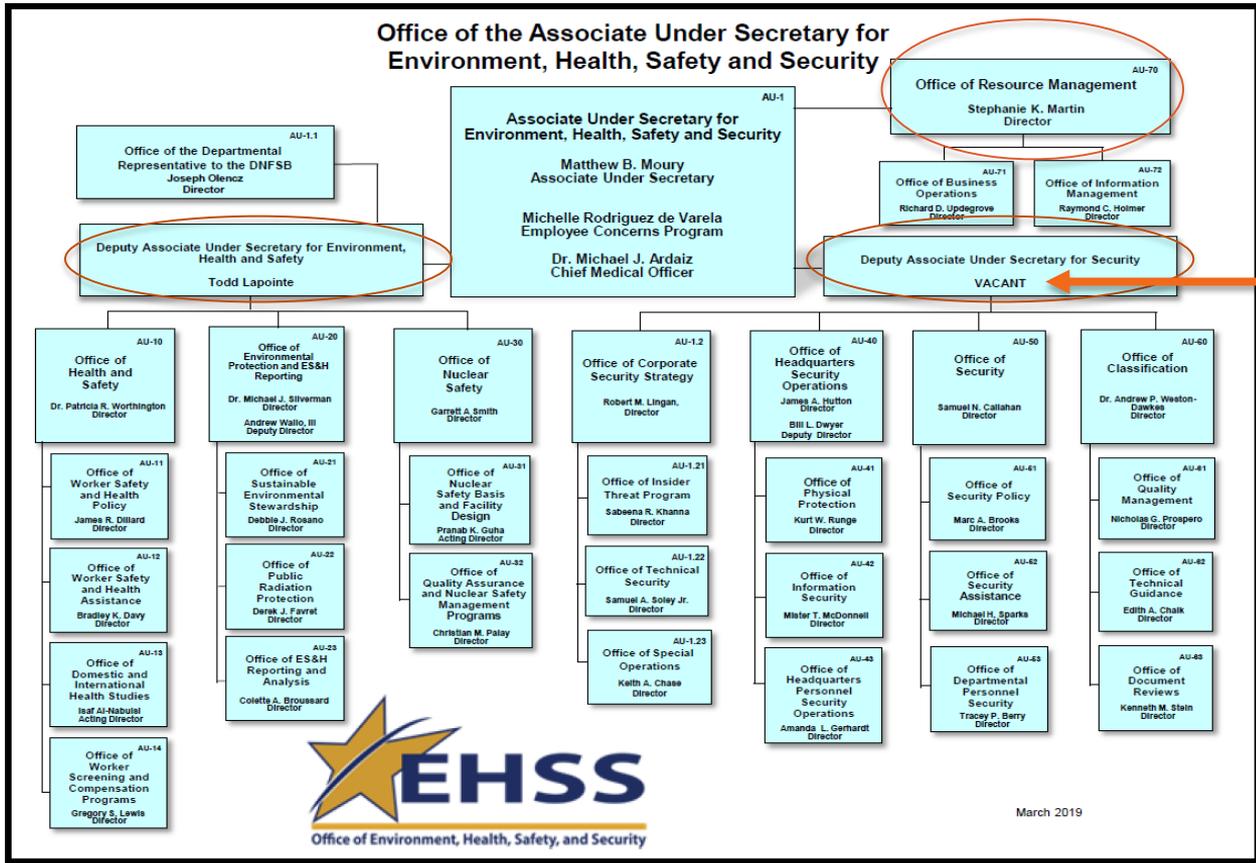

The Office of Environment, Health, Safety, and Security (EHSS) provides corporate leadership and strategic approaches for protecting DOE's workers, the public, the environment and national security assets by:

- Developing corporate policies and standards;
- Providing guidance on implementation of requirements;
- Sharing operating experience, lessons learned, and best practices, and
- Providing assistance and support services to line management.

As DOE's environment, health, safety and security advocate, we help identify the risks in the areas that could jeopardize DOE's mission. By working closely with DOE line management, we ensure that work is managed and performed in a manner that protects workers, the public, and the Department's material and information assets.

18th Annual DOE Small Business Forum & Expo
APRIL 16 – 18, 2019 | PITTSBURGH, PA

Office of Resource Management

Office of Resource Management (AU-70): AU-70 supports the infrastructure of the Office of Environment, Health, Safety and Security (EHSS) in the areas of financial, procurement and information management, human resources, administrative services and strategic and program planning.

<https://au-intranet.doe.gov/pages/office-resource-management-au-70>

Environment, Health and Safety

Office of Health and Safety (AU-10): AU-10 establishes worker safety and health requirements and expectations for the Department to ensure protection of workers from the hazards associated with Department operations.

<https://www.energy.gov/ehss/organizational-chart/office-health-and-safety>

Office of Environmental Protection and ES&H Reporting (AU-20): AU-20 works with line managers to minimize DOE's radiological and environmental footprint and reduce its occupational health and safety impacts.

<https://www.energy.gov/ehss/organizational-chart/office-environmental-protection-sustainability-support-corporate-safety>

Environment, Health and Safety (Cont.)

Office of Nuclear Safety (AU-30): AU-30 establishes nuclear safety requirements and expectations for the Department to ensure protection of workers, the public, and the environment from the hazards associated with nuclear operations. <https://au-intranet.doe.gov/pages/office-nuclear-safety-au-30>

Security

Office of Headquarters Security Operations (AU-40): AU-40 strengthens national security by protecting personnel, facilities, property, classified information, and sensitive unclassified information for DOE Headquarters facilities in the National Capital Area.

<https://au-intranet.doe.gov/pages/office-headquarters-security-operations-au-40>

Office of Security (AU-50): AU-50 is committed to improving the Department's safeguards and security posture by providing safeguards and security subject matter expertise upon request to assist field and Headquarters elements and by deploying safeguards and security technologies.

<https://au-intranet.doe.gov/pages/office-security-au-50>

Security (Cont.)

Office of Classification (AU-60): AU-60 develops and interprets Government-wide and Department-wide policies, procedures and guidance; performs document reviews; and conducts training to ensure the accurate identification of information and documents that must be classified or controlled under statute or Executive order to protect the National Security.

How can you do business with AU?

- **First and foremost:** Does your company have a SAM profile?
<https://www.sam.gov/SAM/>
- Understand the AU mission and the organization that may need your service or product.
 - Our acquisitions are typically services that support the AU and DOE headquarters mission.
 - Our labs may contract for different services and products and so they have independent procurement shops from headquarters procurement.

How can you do business with AU?

- Review the DOE acquisition forecast found here:
<https://www.energy.gov/osdbu/acquisition-forecast>
- Contact the AU Small Business Program Manager (preferably by e-mail):
 - Marianne DiSomma – Marianne.disomma@hq.doe.gov
 - Be sure to include your capabilities statement and your primary NAICS.

The Current AU Forecast
