Attachments: PSE Application for Long Term Authorization.pdf

Lisa,

I confirmed with Sarah that 10,000 MMBtu is the volume – not the 20,000 MMBtu in the application (attached). Please make this correction; the letter and supporting materials are correct.

Thank you for all your assistance and please let us know if you need anything else.

Sincerely,

Michele

Lisa,

Yes, 10,000 MMBtu is the volume. The letter is correct, by my account.

Here is text that might be helpful (I looked at our other applications/orders and the language is “import and export” natural gas even though we will mostly be importing):

“PSE proposes to import and export natural gas under a North American Energy Standards Board (NAESB) base contract dated August 1, 2004, with J. Aron & Company.”

I pulled the application and it seems 20,000 was listed as the volume but the deal is 10,000 (you can see it on the confirmation in the application).

Can you please hold off until Sarah and I can communicate and we can send you a final response? I apologize, but I want to make sure that I'm not missing something before we have to address the volume in the application verses the volume in the letter.

Again, I apologize for the confusion and Sarah and I will be getting back with you when she returns from the office.

We appreciate your patience and look forward to addressing this final (volume) item in a coordinated manner early next week.

Thank you!

Michele
