Re: Jordan Cove Energy Project, L.P.
Semi-Annual Report
DOE/FE Order No. 3413, FE Docket No. 12-32-LNG
DOE/FE Order No. 3041, FE Docket No. 11-127-LNG

Dear Sirs and Madams:

In compliance with Ordering Paragraphs M. and I. of the above-referenced Orders 3413 and 3041, respectively, Jordan Cove Energy Project, L.P. (Jordan Cove) submits this semi-annual report on the progress of Jordan Cove's planned LNG terminal and liquefaction facility for the period from April 1, 2014 through September 2014.

In connection with Jordan Cove's Application for Authority to Site, Construct and Operate a Liquefied Natural Gas Export Terminal filed with the Federal Energy Regulatory Commission (FERC) in FERC Docket No. CP13-483-000, Jordan Cove during the April through September period has worked to advance its Application by: (1) obtaining a "letter of no objection" submitted to FERC by the U.S. Department of Transportation's Pipeline and Hazardous Materials Safety Administration; (2) filing with FERC Jordan Cove's responses to FERC's additional engineering data requests; and (3) filing with FERC various supplemental information related to the environmental resource reports. At this time Jordan Cove has responded fully to all requests from FERC. Jordan Cove anticipates that FERC Staff will issue a Draft Environmental Impact Statement in October 2014.

Page Two

Jordan Cove has entered into non-binding Heads of Agreement (HOAs) with a number of large-scale, prospective customers in the Asia Pacific region. These HOAs are for a total capacity exceeding the Jordan Cove terminal capacity. Although several of the HOAs have expired, Jordan Cove is continuing negotiations with some of these prospective customers, as well as with other prospective customers that did not enter into HOAs, and expects to enter into binding long-term liquefaction tolling service agreements (LTSAs) with a subset of them for all of the terminal's ratable liquefaction capacity by the end of the first quarter of 2015.

Should you have any questions, please do not hesitate to contact me at (541) 266-7510.

Sincerely,

/s/Robert L. Braddock
