[Docket Number EERE-2012-BT-STD-0047]

RIN: 1904-AC88

**Energy Conservation Program for Consumer Products: Energy Conservation
Standards for Residential Boilers**

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Extension of public comment period.

SUMMARY: On March 31, 2015, the U.S. Department of Energy (DOE) published in the Federal Register a notice of proposed rulemaking (NOPR) and technical support document (TSD) that analyze the potential economic impacts and energy savings that could result from potential energy conservation standards for residential boilers. DOE published this NOPR and analysis so stakeholders can review and provide input on the relevant outputs and the underlying assumptions and calculations. The comment period for the NOPR pertaining to residential boilers was scheduled to end June 1, 2015. After receiving requests for additional time to comment, DOE has decided to extend the

comment period for the NOPR pertaining to the energy conservation standards for residential boilers until July 1, 2015.

SUPPLEMENTARY INFORMATION:

DOE published a NOPR in the Federal Register to make available and invite public comments on its analysis regarding potential energy conservation standards for residential boilers. 80 FR 17222 (March 31, 2015). The document set a deadline for the submission of written comments by June 1, 2015. The Air-Conditioning, Heating, and

Refrigeration Institute (AHRI) and the Oil Heat Manufacturers Association each requested an extension of the public comment period, stating that additional time is necessary to review the published analysis in order to prepare and submit comments. After careful consideration of these requests, DOE has determined that extending the comment period to allow additional time for interested parties to submit comments is appropriate based on the foregoing reason. DOE believes that extending the comment period by 30 days will provide the public with sufficient time to submit comments responding to DOE's analysis. Accordingly, DOE is extending the comment period to midnight of July 1, 2015, and will deem any comments received (or postmarked) by that date to be timely submitted.

Issued in Washington, DC, on May 12, 2015.
