Re: Jordan Cove LNG L.P.
Semi-Annual Report
DOE/FE Order No. 3412, FE Docket No. 13-141-NG

Dear Sirs and Madams:

In compliance with Ordering Paragraph H of the above-referenced Order No. 3412, Jordan Cove LNG L.P. (JCLNG) submits this semi-annual report for the period from April 1, 2016 through September 30, 2016 on the status of long-term contracts associated with the long term import of natural gas and any long term supply contracts for the LNG terminal and liquefaction facility planned by Jordan Cove Energy Project L.P. (Jordan Cove).

During the April through September period, Jordan Cove continued intensive negotiations with certain large-scale, prospective customers in the Asia Pacific region. On April 8, 2016, Jordan Cove announced that it had reached preliminary agreement with ITOCHU Corporation (ITOCHU) with respect to certain key commercial terms for the purchase by ITOCHU of 1.5 million tons per annum of natural gas liquefaction capacity for an initial term of 20 years. Jordan Cove previously informed the Office of Fossil Energy that it had finalized key commercial terms with JERA Co, Inc. for the sale of at least 1.5 million tons per annum of natural gas liquefaction capacity for an initial term of 20 years. Negotiations with a third major Asian customer are in advanced stages and are anticipated to be concluded in the near future.

On April 8, 2016, Jordan Cove submitted a Request for Rehearing to the Federal Energy Regulatory Commission (FERC) in FERC Docket Nos. CP13-483-001 and CP13-492-001. On May 9, 2016, FERC issued an Order Granting Rehearings for Further Consideration. We continue to await FERC's decision.
