### Submitter Info

<b>Comment:</b>	The lead proposals for centralized interim storage (de facto permanent parking lot dumps) are private initiatives (in fact, there are no proposed federal government owned/operated parking lot dumps). But whether PIs or government ISFs (Interim Storage Facilities, so called), they should be free, fully informed, and genuinely consent-based sitings, as the Blue Ribbon Commission on America's Nuclear Future recommended in its Final Report in January 2012. For this reason, all of the public comments submitted to DOE during its so-called "consent-based siting" public comment period in 2016 still apply. The lead private initiative is by Waste Control
-----------------	--

Specialists, LLC in Andrews County, West Texas, followed by the Eddy-Lea [Counties] Energy Alliance in Hobbs, New Mexico (less than 50 miles from WCS); AFCI in Loving County, TX; and Culberson County, TX. Note that not only WCS, but also AFCI, have close connections to President Donald J. Trump's pick for Energy Secretary, former TX governor Rick Perry, representing a blatant conflict of interest and ethical violation

<<http://www.beyondnuclear.org/radioactive-waste-whatsnew/2017/1/7/radioactive-waste-is-good-for-you-or-how-i-learned-to-stop-w.html>>.

As of the time of this comment submission, Rick Perry's nomination has not yet been confirmed. Comments submitted by environmental, public interest, and other NGOs can and should be reconsidered by DOE during this current comment period (especially considering the fact that DOE largely to entirely ignored these comments when it issued its draft and final reports on defining "consent-based siting").

Therefore, please see and reconsider those "consent-based siting" comments by the following groups: several sets of comprehensive Beyond Nuclear comments, covering various subject matter, including Environmental Justice
