Submitter Info

Comment:	I am a resident of Durham, North Carolina. I am very deeply concerned with the safety of American citizens as nuclear waste is transported by rail and barge to these temporary storage facilities--I feel this puts us all at risk of a nuclear explosion unnecessarily, or at least of exposure to radioactivity as the waste passes through towns, etc. There is strong potential for environmental destruction as well. It is also unclear where this radioactive waste will go from these storage facilities--where is the permanent facility to which the waste will be moved? Unless these questions are answered satisfactorily, I am opposed to these consolidated interim storage facilities. *
