Comment:	DOE has requested comments in response to this question: 12. Are there any alternative approaches to developing non-federally-owned facilities that might be proposed (e.g. how projects would be financed, anticipated regulatory and legal issues, etc.). If so, what are they, are there proposed solution [sic., solutions], and how would the above questions be answered with respect to such approaches? Here is our response/comment: PI centralized interim storage is illegal under the terms of the Nuclear Waste Policy Act, as Amended.
