Company Overview

- *VAIREX* manufactures blowers for the fuel cell industry
breakthrough, patented innovations in air moving technology
- Focused on the 1-30kW fuel cell applications
forklifts, EV range extenders, distributed generation
- Customers in 18 countries
- HQ in Boulder, CO, sales office in Tokyo
- Lean manufacturing facility – 50k units/year single shift

Full Range of Blowers for <1 to >30 kW Fuel Cells

- Simple, compact, robust, cost-effective

Motor Controller Development

- Designed in response to fuel cell needs
 - uses FC bus voltage
 - CAN communication
- Adds valuable fuel cell specific features
 - sensor incorporation
 - IP rated
- 10-100VDC model in field trials
 - SOP 2017
