Attention: Office of Natural Gas Regulatory Activities

**Re: Annova LNG Common Infrastructure, LLC
 DOE/FE Order Nos. 3394 and 3464
 FE Docket Nos. 13-140-LNG and 14-004-CIC
 Semi-Annual Report**

To the Office of Oil and Gas Global Security and Supply:

On February 20, 2014, in Order No. 3394, the U.S. Department of Energy, Office of Fossil Energy ("DOE/OFE"), granted to Annova LNG, LLC a long-term, multi-contract authorization to export liquefied natural gas ("LNG") to Free Trade Agreement ("FTA") nations. Subsequently, on July 17, 2014, in Order No. 3494, DOE/OFE approved the assignment of such authorization to Annova LNG Common Infrastructure, LLC ("ACI"). One of the conditions of the authorization in Order No. 3394 is that ACI file semi-annual written reports describing the progress of the planned liquefaction facility from which ACI would export LNG. Annova Common Infrastructure hereby submits such semi-annual report for the period that is ending on March 31, 2018.

ACI filed the pre-filing request with the Federal Energy Regulatory Commission ("FERC") on March 11, 2015 and received the Director's Order dated March 27, 2015 approving the pre-filing request. ACI completed the submittals of the draft resource reports and received FERC comments on the reports. On July 13, 2016, ACI filed an application with FERC pursuant to Section 3 of the Natural Gas Act for authorization to site, construct, and operate new natural gas liquefaction and export facilities. ACI has not yet executed any long-term contracts for the export of LNG or for the supply of natural gas.

Please contact me with any questions regarding this filing.

Respectfully submitted,

/s/ Jennifer Solomon
