Proposed Action Title: Harcuvar to Little Harquahala Pump Transmission Line - Urgent Structure Repairs (9/4, 14/4, & 18/3)

Program or Field Office: Western Area Power Administration, Desert Southwest Regional Office

Location(s) (City/County/State): Salome, La Paz County, Arizona

Proposed Action Description:

Western Area Power Administration (WAPA), Desert Southwest Region (DSW), proposes conduct urgent repairs to three structures (9/4, 14/4, & 18/3) on the Harcuvar to Little Harquahala Pump 115-kv Transmission Line in order to improve the safety and operation of the bulk electric system. WAPA operates and maintain this line on behalf of the Central Arizona Project. Structure 9/4 occurs on private land, and Structures 14/4 and 18/3 are situated on Bureau of Land Management land.

The repair work consists of patching a broken cross arm on Structure 9/4 and reattaching or readjusting cross braces and associated bolts on Structures 14/4 and 18/3. Workers plan to climb the wood pole structures to accomplish the repairs. Workers plan to drive crew trucks on existing access roads to reach work areas. No road improvements are planned.

WAPA plans to conduct this work on 4/16/2018.

See Attached Continuation Sheet

Categorical Exclusion(s) Applied:

B4.6 - Additions and modifications to transmission facilities

For the complete DOE National Environmental Policy Act regulations regarding categorical exclusions, including the full text of each categorical exclusion, see Subpart D of 10 CFR Part 1021.

Regulatory Requirements in 10 CFR 1021.410(b): (See full text in regulation)

The proposal fits within a class of actions that is listed in Appendix A or B to 10 CFR Part 1021, Subpart D.

To fit within the classes of actions listed in 10 CFR Part 1021, Subpart D, Appendix B, a proposal must be one that would not: (1) threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, or similar requirements of DOE or Executive Orders; (2) require siting and construction or major expansion of waste storage, disposal, recovery, or treatment facilities (including incinerators), but the proposal may include categorically excluded waste storage, disposal, recovery, or treatment actions or facilities; (3) disturb hazardous substances, pollutants, contaminants, or CERCLA-excluded petroleum and natural gas products that preexist in the environment such that there would be uncontrolled or unpermitted releases; (4) have the potential to cause significant impacts on environmentally sensitive resources, including, but not limited to, those listed in paragraph B(4) of 10 CFR Part 1021, Subpart D, Appendix B; (5) involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or invasive species, unless the proposed activity would be contained or confined in a manner designed and operated to prevent unauthorized release into the environment and conducted in accordance with applicable requirements, such as those listed in paragraph B(5) of 10 CFR Part 1021, Subpart D, Appendix B.

There are no extraordinary circumstances related to the proposal that may affect the significance of the environmental effects of the proposal.

The proposal has not been segmented to meet the definition of a categorical exclusion. This proposal is not connected to other actions with potentially significant impacts (40 CFR 1508.25(a)(1)), is not related to other actions with individually insignificant but cumulatively significant impacts (40 CFR 1508.27(b)(7)), and is not precluded by 40 CFR 1506.1 or 10 CFR 1021.211 concerning limitations on actions during preparation of an environmental impact statement.

Based on my review of the proposed action, as NEPA Compliance Officer (as authorized under DOE Order 451.1B), I have determined that the proposed action fits within the specified class(es) of action, the other regulatory requirements set forth above are met, and the proposed action is hereby categorically excluded from further NEPA review.

NEPA Compliance Officer:

Date Determined:

4.15.18

**Harcuvar to Little Harquahala Pump Transmission Line
Urgent Structure Repairs (9/4, 14/4, & 18/3)
Continuation Sheet**

Special Conditions:

1. General
 - a. Blading, earthwork, or roadwork will not be performed as part of this action.
2. Cultural Resources
 - a. **GENERAL:** Do not remove or alter cultural artifacts or paleontological resources (fossils). Cultural artifacts are of potential scientific or cultural importance and include bones, tools, historic buildings, and features. Paleontological resources can be of scientific importance and include mineralized animals and plants or trace fossils such as footprints. Both cultural and paleontological resources are protected by Federal Regulations during Federal construction projects.
 - b. **UNKNOWN CULTURAL OR PALEONTOLOGICAL SITES:** On rare occasions cultural or paleontological sites may be discovered during excavation or other earth-moving activities.
 - i. **Reporting:** If evidence of a cultural or paleontological site is discovered, immediately notify the Regional Preservation Officer (602-605-2842) and give the location and nature of the findings. Stop all activities within a 50-foot radius of the discovery and do not proceed with work within that radius until directed to do so by the Regional Preservation Officer.
 - ii. **Care of Evidence:** Do not damage or remove artifacts or fossils uncovered during construction.
