Progress of the Proposed Monkey Island LNG Terminal

1. The following Engineering has been completed since October 1, 2017:
 - a. Completed multiple shipping and logistics studies to determine the optimal capacity for the MILNG project site.
 - b. Updated and optimized MILNG plot plan based upon revised shipping and logistics study.
 - c. Completed additional project feasibility studies to support LNG contract negotiations and meetings with institutional investors.
2. SCT&E LNG continues to formally do business as Monkey Island LNG. On October 17, 2017, SCT&E LNG filed a Registered Trade Name for Monkey Island LNG with the State of Louisiana.
3. Monkey Island LNG continues to engage in advanced negotiations with investment grade offtakers.

Date the Project is Expected to be Operational

Monkey Island LNG anticipates that, following the completion of the FERC and DOE approval process, it will begin construction of the LNG export facility and full operations of the facility will begin in 2024.

Status of Long-term Offtake Agreements

Monkey Island LNG has signed 5.7 mtpa in offtake reservations. Contract negotiations for long-term offtake agreements continue to progress. Monkey Island LNG is in negotiations with potential counterparties for tolling capacity at its future liquefaction and export facility on Monkey Island.

Status of Long-term Supply Agreements

Monkey Island LNG has signed a 20-year fixed price natural gas supply agreement to support its future Liquefied Natural Gas (LNG) facility. Contract negotiations for additional long-term supply agreements continue to progress.
