

Docket Numbers: LA14–1–000.

Applicants: Tyr Energy, LLC, Commonwealth Chesapeake Company, LLC, Trademark Merchant Energy, LLC, Plains End, LLC, Plains End II, LLC, Rathdrum Power, LLC.

Description: Quarterly Land Acquisition Report of Tyr Energy, LLC, et al. under LA14–1.

Filed Date: 4/29/14.

Accession Number: 20140429–5131.

Comments Due: 5 p.m. ET 5/20/14.

The filings are accessible in the Commission's eLibrary system by clicking on the links or querying the docket number.

Any person desiring to intervene or protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Regulations (18 CFR 385.211 and 385.214) on or before 5:00 p.m. Eastern time on the specified comment date. Protests may be considered, but intervention is necessary to become a party to the proceeding.

eFiling is encouraged. More detailed information relating to filing requirements, interventions, protests, service, and qualifying facilities filings can be found at: <http://www.ferc.gov/docs-filing/efiling/filing-req.pdf>. For other information, call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Dated: April 29, 2014.

Kimberly D. Bose,
Secretary.

[Docket No. EL01–88–013]

Louisiana Public Service Commission v. Entergy Services, Inc.; Notice of Compliance Filing

Take notice that on April 29, 2014, Entergy Services, Inc., as agent on behalf of the Entergy Operating Companies¹ submitted a subsequent compliance filing, pursuant to the Commission's *Order Rejecting Compliance Filing*, 146 FERC ¶ 61,153 (2014).

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the

Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant and all the parties in this proceeding.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email FERCOnlineSupport@ferc.gov, or call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Comment Date: 5:00 p.m. Eastern Time on May 20, 2014.

Dated: April 30, 2014.

Grand River Dam Authority; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed a shoreline management plan submitted by Grand River Dam Authority (GRDA or licensee) pursuant to article 406 of the project license (FERC No. 2183). An environmental assessment (EA) has been prepared as part of staff's review of the proposal. The project is located

on the Grand River in Mayes County, Oklahoma.

The proposed shoreline management plan provides for consistent land management policies and permitting decisions on project lands in the short term and over the life of the project license. The document serves to guide GRDA in protecting and enhancing the project's environmental, recreational, and other values. It also provides the background to support permitting decisions and other activities undertaken by GRDA within the project boundary. The EA contains Commission staff's analysis of the probable environmental impacts of implementation of the proposed shoreline management plan, and concludes that approval of the proposed plan would not constitute a major federal action significantly affecting the quality of the human environment.

The EA is attached to a Commission order titled "Order Modifying and Approving Shoreline Management Plan Under Article 406," which was issued April 30, 2014, and is available for review and reproduction at the Commission's Public Reference Room, located at 888 First Street NE., Room 2A, Washington, DC 20426. The EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number (P–2183) in the docket number field to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at 1–866–208–3676, or for TTY, (202) 502–8659.

Dated: April 30, 2014.

Kimberly D. Bose,
Secretary.

[Docket No. CP13–25–000; Docket No. CP13–27–000]

Cameron LNG, LLC, Cameron Interstate Pipeline, LLC; Notice of Availability of the Final Environmental Impact Statement for the Proposed Cameron Liquefaction Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared a final environmental impact statement (EIS) for the Cameron Liquefaction Project (Project), proposed by Cameron LNG, LLC and Cameron Interstate Pipeline,

¹ The Entergy Operating Companies are Entergy Arkansas, Inc., Entergy Gulf States Louisiana, L.L.C., Entergy Louisiana, LLC, Entergy Mississippi, Inc., Entergy New Orleans, Inc., Entergy Texas, Inc.

LLC (collectively Cameron) in the above-referenced dockets. Cameron requests authorization to construct and operate facilities to export 12 million tons of liquefied natural gas (LNG) per year from its modified terminal in Cameron and Calcasieu Parishes, Louisiana.

The final EIS assesses the potential environmental effects of the construction and operation of the Cameron Liquefaction Project in accordance with the requirements of the National Environmental Policy Act (NEPA). The FERC staff concludes that approval of the proposed Project, with the mitigation measures proposed by Cameron and recommended in the EIS, would not result in significant impacts in the Project area. Construction and operation of the Project would result in mostly temporary and short-term environmental impacts; however, some long-term and permanent environmental impacts would occur.

The U.S. Army Corps of Engineers (COE), U.S. Coast Guard, U.S. Department of Energy (DOE), and U.S. Department of Transportation (DOT) participated as cooperating agencies in the preparation of the EIS. Cooperating agencies have jurisdiction by law or special expertise with respect to resources potentially affected by the proposal and participate in the NEPA analysis. The COE and DOE will adopt and use the EIS in issuing their respective permits. The U.S. Coast Guard and DOT cooperated in the preparation of this EIS because of their special expertise with respect to resources potentially affected by the proposal. Although the cooperating agencies provided input to the conclusions and recommendations presented in the EIS, the agencies will present their own conclusions and recommendations in their respective Records of Decision or determinations for the Project.

The Project would use the facilities at the existing Cameron LNG Terminal, including the existing berthing facilities and LNG storage tanks, as well as the existing Cameron Interstate Pipeline. Operation of the Project would not increase LNG marine carrier traffic beyond that previously authorized for the existing Cameron LNG Terminal. The final EIS addresses the potential environmental effects of the construction and operation of the following Project facilities:

- Three separate systems that liquefy natural gas, each capable of producing 4.99 million metric tons per year of LNG for export;
- a 160,000-cubic-meter, full containment LNG storage tank;

- refrigerant make-up and condensate product storage tanks;
- a truck loading/unloading area;
- a marine work dock for delivery of equipment and construction materials;
- minor modifications to existing terminal facilities;
- 21 miles of 42-inch-diameter pipeline;
- a 56,820-horsepower compressor station; and
- ancillary facilities.

The FERC staff mailed copies of the EIS to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes; potentially affected landowners and other interested individuals and groups; newspapers and libraries in the Project area; and parties to this proceeding. Everyone on our environmental mailing list will receive a CD version of the final EIS. In addition, the EIS is available for public viewing on the FERC's Web site (www.ferc.gov) using the eLibrary link. A limited number of copies are available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference Room, 888 First Street NE., Room 2A, Washington, DC 20426, (202) 502-8371.

Questions?

Additional information about the Project is available from the Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC Web site (www.ferc.gov) using the eLibrary link. Click on the eLibrary link, click on "General Search," and enter the docket number excluding the last three digits in the Docket Number field (i.e., CP13-25 or CP13-27). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at (866) 208-3676; for TTY, contact (202) 502-8659. The eLibrary link also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to <http://www.ferc.gov/docs-filing/esubscription.asp>.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. ER14-1792-000]

Pinnacle Power, LLC; Supplemental Notice That Initial Market-Based Rate Filing Includes Request for Blanket Section 204 Authorization

This is a supplemental notice in the above-referenced proceeding of Pinnacle Power, LLC's application for market-based rate authority, with an accompanying rate tariff, noting that such application includes a request for blanket authorization, under 18 CFR Part 34, of future issuances of securities and assumptions of liability.

Any person desiring to intervene or to protest should file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant.

Notice is hereby given that the deadline for filing protests with regard to the applicant's request for blanket authorization, under 18 CFR Part 34, of future issuances of securities and assumptions of liability, is May 20, 2014.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 5 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

The filings in the above-referenced proceeding are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public
