

Energy-Water Nexus

Sandy Morgan
Facilities Energy Manager
USDA/ARS

Federal Mandates

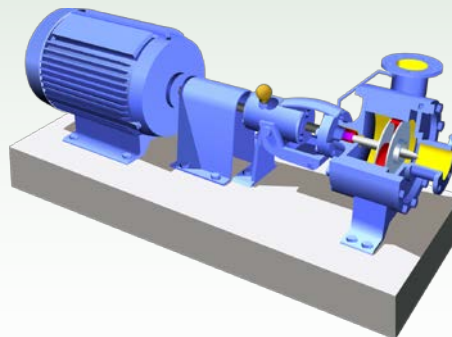

- EO 13834 – Reduce potable and non-potable water
- Potable is approved for human use
- Non-Potable not for human consumption
- Both may come from the same aquifer

The Usual Suspects

- Reducing water consumption in a building reduces energy consumption
 - Pumping energy
 - Heating energy
- Not so in agriculture

**In the East they drink water and
fight over whiskey.**

**In the West they drink whiskey
and fight over water.**
