

MCAS Miramar Microgrid

New Generation:

- 4 MW Diesel
- 3 MW Natural Gas

MCAS Miramar Microgrid Project

Keys to a Successful Interconnection

- Submitted interconnection application early
- SDG&E Customer Generation provides single point of contact while coordinating all aspects of the interconnection process
- Provided SDG&E with detailed and accurate operational requirements and plans
- Communicated any concerns or questions to Customer Generation right away
- Became familiar with SDG&E's Electric Rule 21 interconnection and metering requirements

SDG&E is Committed to Ensuring your Success
