Federal Acquisition Circular 2019-02 Summary of Rules

FAC 2019-02

Item	**Subject**	**FAR Case**
I	Special Emergency Procurement Authority	2017-009
II	Governmentwide and Other Interagency Contracts	2018-015
III	Technical Amendments	

Item I — Special Emergency Procurement Authority (FAR Case 2017-009)

This final rule amends the FAR to implement sections 816 and 1641 of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2017 (Pub. L. 114–328). These sections of the NDAA allow for higher micro-purchase and simplified acquisition thresholds for acquisitions of supplies or services which support international disaster assistance, response to an emergency or major disaster, or defense against or recovery from a cyber attack. A proposed rule was published in the Federal Register on June 26, 2018. No comments were received, and no changes have been made in this final rule. The effective date of the rule is June 5, 2019. At that time, the DOE class deviation which was issued via Policy Flash 2017-37 will no longer be needed and will cease to be effective.

Item II — Governmentwide and Other Interagency Contracts (FAR Case 2018-015)

This final rule amends the FAR to implement section 875 of the NDAA for FY 2019. This section removes the requirement for agencies to make a determination that the use of an interagency acquisition represents the best procurement approach. The effective date of this final rule is June 5, 2019. At that time, the DOE class deviation which was issued via Policy Flash 2019-08 will no longer be needed and will cease to be effective.
