

ADMINISTRATIVE SUPPORT SERVICES PERFORMANCE WORK STATEMENT (PWS)

Administrative Assistant Support

BACKGROUND

The contract shall provide daily administrative support services to the Department of Energy Savannah River Operations Office and the DOE-SR National Nuclear Security Administration (NNSA) offices located at SRS.

WORK SCOPE

Under this contract, the contractor shall provide administrative support services to Savannah River Operations Office and NNSA office elements located at SRS. Duties may include, but are not be limited to:

1. Administrative Assistant

(Includes All Administrative Assistants (HR, IT, NNSA, DNFSB))

- A. Provide clerical and secretarial support to a large Federal organization with a formalized structure.
- B. Prepare and develop correspondence, reports, memorandums, presentations, and other forms of communication for distribution across various organizations on site and to offices off site (both Federal and non-Federal) as directed.
- C. Review correspondence for signatures from members of assigned staff, the supervisor, or other senior managers for proper format; Review conformance with procedural instructions, grammar, typographical errors, accuracy, and necessary attachments.
- D. Properly monitor and track correspondence as required in approved databases to ensure that all assigned suspense requirements are met.
- E. Distribute correspondence to all individuals in accordance with approved guidelines and processes.
- F. Plan, coordinate, and organize events (on site and off site) for assigned Federal staff. Audience may include senior Government staff from within DOE/NNSA and/or other Government agencies, various contract staff both on and off site, and the general public. Sub-tasks may include, but are not limited to:
 - (1) Secure facilities no later than 15 days prior to event by coordinating

- with the DOE Conference Room coordinator or applicable office / agency.
- (2) Submit all presentations in either paper format, electronic format, or both as required by supported staff within the prescribed time frame.
 - (3) Secure necessary equipment (projector, computer, etc.) to conduct briefing. Operate equipment (projector, computer, etc.) as required.
 - (4) Take attendance at meetings as necessary.
 - (5) Distribute meeting documents as necessary to participants.
- G. Monitor a broad range of communication in order to make scheduling determinations and recommendations to assigned Federal staff.
- H. Maintain daily schedule of assigned Federal staff.
- I. Have a thorough understanding of the mission, objectives, and organizational structure (on and off-site; Federal and contractor) of the office to which assigned, in order to better interface and facilitate communications with others.
- J. Communicate and interface with Government and contractor executives (to include their assigned staff) to facilitate activities as assigned.
- K. Participate in document meetings, conferences, etc.
- L. Maintain assigned files and record systems in accordance to the DOE approved guidelines.
- M. Schedule and maintain a calendar of assigned meeting space within the organization.
- N. Perform all actions required to schedule, coordinate, and setup/connect for Video Teleconferences (i.e. local resources, local and distant end participants, etc.) as required.
- O. Order and maintain approved inventory of standard office supplies for assigned staff utilizing approved process and procedures.
- P. Assist Federal staff with the completion of time and attendance submissions and maintain records as required.
- Q. Assist the assigned staff with official travel requirements.
- R. Receive telephone calls and visitors. Direct call or visitor to requested Federal staff; redirect caller or visitor to appropriate staff as may be required.
- S. Complete routine duplication of documents utilizing provided duplication equipment not to exceed 15,000 printed pages.
- T. Coordinate with DOE Reproduction Clerk to complete copy/print job order as required in excess of 15,000 printed pages or when finished copies requires binding.

- U. Prepare and obtain DOE authorization to relocate assigned staff using approved forms and processes.
- V. Utilizing approved requests, coordinate with DOE Office Services for the relocation of assigned staff.
- W. Prepare, obtain, and coordinate DOE authorization to install, relocate, or remove voice / fax telephone lines using approved forms and processes.
- X. Assist Federal staff and their direct support service contractors in obtaining access to the SRS data network (SRSNet).
- Y. Complete and/or assist Federal staff and their direct support service contractors to obtain any and all necessary training required to gain access to the site, or that is directly related to the supported staffs mission on site (i.e. General Employee Training (GET), Consolidated Annual Training (CAT), Radiological Worker (RADCON) training, etc.)
- Z. Coordinate with DOE Mail Room for the sending and receiving of mail items as required. Obtain authorizing signature for Overnight Services.
- AA. Search and retrieve documents from databases and files as requested and provide limited research to assigned staff as necessary. Prepare and coordinate documents for review by the Federal staff and distribute as necessary.

SKILL or RELEVANT EXPERIENCE REQUIREMENT

The contractor will provide personnel to conduct the necessary duties, having sufficient experience and skills, as follows:

1. Administrative Assistant

- a. Must have a minimum of one year of administrative support experience.
- b. A qualified typist (40 words or more per minute) is required.
- c. Must be proficient in the use of office equipment, including computers, scanners, fax, and copiers.
- d. Must be proficient in the use of Microsoft Office (Word/Excel/PowerPoint), Internet Explorer, Lotus Notes, and Adobe Reader.
- e. Must be an effective communicator (oral and written).
- f. Have an ability to work professionally with individuals, diverse groups, and the public.
- g. Have well-developed time management and schedule coordination skills.

- h. Employee is required to possess, or have the ability to attain, up to a “Q” security clearance. This requirement will be specified per individual contract.

DELIVERABLES

Deliverables will be identified by individual tasks.

GOVERNMENT-FURNISHED RESOURCES

The following will be provided during on-site activity of this contract:

- a. Computer system with access to the Site network.
- b. A work area consisting of a desk, telephone, temporary storage for equipment, office supplies applicable to the work assigned; Access to a copier, scanner, and fax machine.

PPE (as required): anti-contamination clothing, nonprescription safety glasses (clear and sunglasses), hard hats, disposable ear plugs, reflective vests. The contractor will be responsible for providing prescription safety glasses, safety shoes, and similar PPE if required.

TRAVEL REQUIREMENTS

The Government shall reimburse all travel related to the conduct of this contract. Point of origin for travel will be determined as the SRS. All travel will be in compliance with the Federal Travel Regulations (FTR). All travel must be approved or authorized by the COR. Requests for travel reimbursements must be submitted monthly along with vouchers and must include documentation of charges, if requested.

Citizen Advisory Board (CAB) Support

The contractor shall provide the necessary labor and technical expertise to support the full administration of the SRS CAB's operations and activities. Services shall include setting up, facilitating, and coordinating CAB meetings; providing information and technical assistance for coordinating recommendations and CAB and public requests, as follows:

A. Administration and Facilitation

(Citizen Advisory Board Administrator)

- Support the overall administration of the SRS CAB operations and activities and attend and facilitate six annual full CAB meetings per meeting agenda.
- Coordinate the development of all meeting agendas with CAB committee chairs, site technical experts, and specified DOE personnel.
- Coordinate and attend all approved CAB-related site tours.
- Prepare recommendations transmittal correspondence for approval by Board Chairs within two business days after each of the six annual full CAB meetings.
- Participate as CAB Administrator for EM Site Specific Advisory Board (SSAB) meetings and conference calls.
- Note actions and pertinent information from monthly chairs and coordinators conference calls.
- Assist in the coordination and facilitation of other CAB meetings, such as the Speakers Bureau and Retreat/Work Plan Meeting, as needed.
- Prepare handouts/resource books –electronically and/or hard copy–for each of the six annual full CAB meetings; 25 estimated annual committee meetings and up to three annual special meetings.
- Provide general mailing 14 business days prior to each of the six annual full CAB meetings.
- Prepare written notice to all CAB members at least 14 business days prior to an election.
- Coordinate request for information from CAB members and general public via email or post, as appropriate.
- Prepare all CAB outgoing correspondence and electronic messages.
- Prepare and maintain files and databases of CAB correspondence, members, meetings, and activities.
- Initiate request for equipment/relocations through approved procedures.
- Order copy supplies using approved procedures.
- Attend weekly CAB Support Team meetings with Task Manager and maintain group planning calendar.
- Prepare separate meeting presentation/information packets for Site Manager and DOE Very Important Personnel (VIP) as identified.
- Provide list of all Actions noted during meetings to Task Manager for discussion at Weekly Team Meetings, and coordinate to resolution.
- Coordinate and track written public comments; file with respective meeting minutes and in Public Comments folder on shared drive.
- Send thank you email to presenters and special attendees within 3 business days following meetings.
- Schedule, coordinate, and attend the Pre-CAB meeting at least 14 calendar days prior to Full CAB meetings.

- Schedule, coordinate, and attend the Post-CAB and Recommendations Response meetings **no later than 14 calendar days** following Full CAB meetings.
- Schedule, coordinate, and attend Dry Runs Meeting at least 14 calendar days prior to scheduled meeting.

B. Technical Coordination

(Citizen Advisory Board Technical Coordinator)

- Ensure DOE-SR security review of documents is completed 7 days prior to planned meetings.
- Submit all STI-approved presentations to DOE HQ for 72-Hour review 5 days prior to planned meetings.
- Publish six annual full CAB meeting notifications in Federal Register no later than 30 calendar days prior to meeting, unless otherwise requested.
- Attend and assist in preparing CAB chairpersons for Site Specific Advisory Board (SSAB) Chairs' meetings.
- Create and maintain contact matrix for presenters and managers.
- Assist in loading presentations, setting up, and operating online meeting equipment and computers, as needed.
- Attend Dry Run meetings before each committee meeting.
- Prepare committee chairs' 'Things to Remember' notes for meeting.
- Develop CAB Work Plan in coordination with CAB members and DOE input.
- Assist CAB members in securing information on technical issues from Site.
- Coordinates with DOE/Contractor points of contact staff for information assistance.
- Assist in the finalization of CAB Recommendations in coordination with committee chairs, as needed.

C. Meeting Coordination

(Citizen Advisory Board Meeting Coordinator)

- Secure facilities for, coordinate, and attend 6 full CAB bi-monthly meetings.
- Coordinate and attend an estimated 25 annual committee meetings.
- Secure facilities for, coordinate, and attend four estimated annual special meetings (Education and Process Session, orientation, work plan development, workshops).
- Set up meeting rooms prior to all meetings.
- Set up, load presentations, and operate online meeting equipment and computers at all committee meetings.
- Coordinate/print finalized PowerPoint presentations, as needed.
- Take attendance of CAB members at all meetings.
- Prepare name tags and order signs for each of the six annual meetings.
- Coordinate travel for CAB members, as appropriate, to all meetings and tours, in compliance with the Federal Travel Regulations (FTR).
- Processes all approved CAB travel and provide reimbursements to CAB members for all approved travel vouchers in compliance with the FTR **within five business days of conclusion of the meeting / travel.**
- Photograph or arrange for photographer, audio/visual equipment, and equipment Technician, for all meetings, as needed.

- Secure Government transportation for team travel to offsite meeting locations.

D. Mass Communications, Graphic Design and Outreach Coordination

(Mass Communications / Graphic Designer)

- Draft communication products, as requested, designed to enhance internal communications and cultural growth initiatives within DOE-SR organization for review/approval by senior PA Specialists. This includes, but not limited to: brochures, pamphlets, posters, banners/signs, newsletters (electronic/hard copy), logos, internal web content/blogs, and templates for presentations and bios.
- Assist in developing, designing, and reproducing multimedia materials in response to inquiries from DOE-HQ, stakeholders and the public on SRS programs and SRS CAB activities. This includes, but not limited to: SRS overview brochures, fact sheets, graphics, charts, display posters, recruitment brochures, handouts etc.
- Support DOE-SR interface/liaison role and responsibilities, as requested, to key stakeholder groups and programs, to include: SRS Citizens Advisory Board; SC Governor's Nuclear Advisory Council; SRS retirees; and the DOE Environmental Justice Program, among others. This includes, but not limited to: attendance and providing administrative/logistics support at routinely scheduled meetings and/or conferences.
- Provide logistical support for coordinating Site tours, special events, employee programs, and/or VIP visits. This includes, but not limited to: tours/visits or special events involving DOE-HQ officials, congressional members/staff, local/state elected officials, and community leaders, SRS stakeholder groups, along with support to employee events, such as Special Emphasis Programs, SRS Kids Day, and Employee Recognition Program.
 - Maintain and update existing presentations CAB letterhead, documents, presentations, website, bulletin board, etc., as needed.
 - Design CAB's "Board Beat Newsletter," research and coordinate articles, publish and coordinate the reproduction of a hard copy and submit electronic edition for website, and dissemination electronically, hand carried, or by post to CAB, database distribution, and Federal workforce. Submit newsletter for review/approval by senior PA Specialists before distribution.
 - Prepare and submit advertisements, news releases, and public service announcements of meetings for review/approval by senior PA Specialists at least 14 calendar days prior to each CAB meeting, as appropriate.
 - Assist with coordination/printing of finalized PowerPoint presentations.
 - Take written notes or electronically record all committee meeting proceedings to prepare meeting summaries within five calendar days following CAB committee meetings.
 - Transcribe meeting minutes from A/V recordings of Full CAB meetings within 30 calendar days following the meeting.

E. Technical Advice

(Citizen Advisory Board Technical Advisor)

- Track DOE letter commitments to CAB recommendations and advise CAB committee chairs and DOE at least 30 calendar days prior to commitment due date or next CAB meeting.
- Maintain electronic database and prepare Recommendations Report for weekly Team Meetings and full CAB Meetings.
Coordinate information exchange for draft recommendations between CAB members and DOE Points of Contact.

F. Place of Performance

The work to be performed under this contract will be performed at the Government facility unless otherwise notified.

G. Government Furnished Resources / Government Furnished Equipment (GFE) / Government Furnished Information (GFI)

The Government will furnish all facilities, materials, property, and equipment for on-site use in the performance of this contract as specified. Under limited circumstances, such as during meetings held in off-site locations, the Government will provide facilities, materials, property and equipment for tasks not requiring a continuous on-site presence. The following will be provided during on-site activity of this contract:

- a. Computer system with access to the site network.
- b. A work area consisting of a desk, telephone, temporary storage for equipment, and office supplies applicable to the job.
- c. Access to a copier, scanner, and FAX machine.
- d. All specialized computer and other equipment required to conduct CAB meetings.

H. Travel Requirements

The Government shall reimburse all travel related to the conduct of this contract. Point of origin for travel will be determined as the SRS. All travel will be in compliance with the Federal Travel Regulations (FTR). All travel must be approved or authorized by the Task Manager. Requests for travel reimbursements must be submitted monthly along with vouchers and must include documentation of charges, if requested.

I. Schedule of Deliverables

All deliverables required under this task shall be submitted in accordance with the following schedules.

PWS Task#	Deliverable Title	Format	Due Date	Distribution/Copies	Frequency and
I.1	Recommendations	CAB letterhead	2 days after CAB meeting.	DOE Mgr. and HQ /Electronically	6 times annually

SR SRIP 560.1 (Authorized Use of Government Telecommunications Systems)

Office of the Field Chief Financial Officer Support

The contractor shall provide the necessary labor and technical expertise to provide augmentation support to the full administration of the DOE-SR Office of the Field CFO, Budget and Finance Division's operations, and activities under the instruction of the Contracting Officer's Representative/Task Manager (Budget Director or Finance Director (as assigned)). The work scope and deliverables will include, but are not limited to, the following:

A. Budget Technician Level II (1 Position):

The contractor shall perform a wide variety of administrative and technical functions to assist the Budget Director and Budget Division in the execution of the Savannah River Operations Office appropriated multi-year budgets. The employee will be required to sign a Non-Disclosure Statement. This is a mid-level position with skills using Microsoft Office Excel and downloading data into Excel from various DOE financial systems. The work tasks will include assisting the Budget Director and members of the Budget Division in any of the following work task areas:

- Enter budget data into the Budget Execution and Reporting System (BEARS).
- Track, compile, and report data in BEARS.
- Follow guidance from and assist the BEARS Administrator in accordance with the BEARS Operations Manual as directed.
- Conduct the BEARS-to-STARs Reconciliation Review twice per month.
- Support Internal Controls and monitoring of the Funds Control Process.
- Facilitate the issuance of monthly financial obligation plans to contractors as needed.
- Upload and download data from the Department of Energy's Standard Accounting & Reporting System (STARs) as directed.
- Prepare the monthly project funds control sheets for projects as assigned, track spend plans, report forecasts and actual monthly costs, status cost variances and un-liquidated obligations, running cost and obligation reports.
- Create twice monthly reconciliation reports and include the BEARS-to-STARs, BEARS to Strategic Integrated Procurement Enterprise System (STRIPES), STRIPES to STARs, and other reconciliations as directed.
- Obtain various budget reports from STARs, DOE iPortal, and I-managed Data Warehouse (IDW).
- Download historical reports and other specialized financial reports from BEARS and IDW.
- Track the Work Authorization Documents (WADs) for the Budget Team Lead and Budget Director.
- Prepare the monthly project funds control worksheets for projects as assigned.
- Create and track budget data in annual spend plans.
- Prepare and present Monthly Funds Control Sheets and Annual Spend Plans for the Budget Director, Budget Team Lead, and the customers of the Budget Division.
- Compile, track, analyze, and report spend plan forecasts and actual costs

monthly, statusing cost variances and un-liquidated obligations, and running cost and obligation reports.

- Track and provide a monthly status and quarterly report on the Undelivered Orders (UDOs) of contracts for the Budget Division.
- Prepare charts and graphs as assigned on UDOs and other data as assigned.
- Track and report Inter-Entity Work Orders (IEWO).
- Track and status monthly and report quarterly the Undelivered Orders on contracts for the Budget Division.

B. Budget Analyst Level I (2 positions):

The contractor shall perform a wide variety of administrative and technical functions to assist the Budget Director and Budget Division in the execution of the Savannah River Operations Office appropriated multi-year budgets. The employee will be required to sign a Non-Disclosure Statement. This is an entry level budget analyst position with some experience in budgeting and intermediate skills when using Microsoft Office Excel, Word, and PowerPoint. The work tasks will include assisting the Budget Director and members of the Budget Division in any of the following work task areas:

- Employ computer data bases to sort, filter, and compile financial data.
- Support Internal Controls and monitoring of the Funds Control Process.
- Facilitate the Initiating and Reviewing Roles for Procurement Requisitions in the Strategic Integrated Procurement Enterprise System (STRIPES).
- Identify funds for obligation in the Budget Execution and Reporting System (BEARS).
- Prepare the budget execution of committed funds as assigned.
- Prepare the project monthly funds control sheets (MFCS) for projects as assigned.
- Create and track budget data to include obligations and cost variances analysis and supporting narratives in the annual spend plans for projects as assigned.
- Prepare and present Monthly Funds Control Sheets and Annual Spend Plans for the Budget Director, Budget Team Lead, and the customers of the Budget Division.
- Compile, track, analyze, and report spend plan forecasts and actual costs monthly, statusing cost variances and un-liquidated obligations, running cost and obligation reports, and making recommendations to the Budget Director and Budget Team Lead.
- Support the compilation and analysis of data with the Quarterly Budget Execution Reviews and the Quarterly Performance Report briefings to Headquarters.
- Obtain various reports from STARS, iPortal, and I-managed Data Warehouse (IDW).
- Download historical reports and other specialized financial reports from BEARS and IDW.
- Monitor the DOE-SR Site-wide Assessment Pool (SAP) of multi-sourced projects with its accompanying Annual Spend Plans and Monthly Funds Control Sheets.
- Assess the Technology Development Funds at the Site.
- Coordinate SAP multi-source funding allocations with other budget analysts for the initiating and reviewing of SAP Procurement Requests in STRIPES.
- Track and status monthly and report quarterly the Undelivered Orders on contracts for the Budget Division.

- Process and track the Work Authorization Documents (WADs) for the Budget Team Lead and Budget Director.

C. Budget Analyst Level II (1 position):

The contractor shall perform a wide variety of administrative and technical functions to assist the Budget Director and Budget Division in the execution of the Savannah River Operations Office appropriated multi-year budgets. The employee will be required to sign a Non-Disclosure Statement.

This is a mid-level budget analyst position with experience in budgeting, funds management, and intermediate to advanced skills using Microsoft Office Excel, Word, and PowerPoint. Strong written and verbal communications skills are required. This position will employ Oracle Business Intelligence reporting skills in iManaged Business Intelligence Answers and Dashboards found on DOE's iPortal. The ability to sort and filter data and create a customized financial report is an important skill in this job. This position must have the ability to learn and apply software systems quickly.

Experience with pulling data from an I-Managed Data Warehouse system is preferred to learn such systems. The analyst must possess solid reading, writing, presentation, and telephone communication skills. The finer details of most tasks can be learned on site in performing the work with the right employee attitude, energy level, education, knowledge, abilities, and skills potential.

The work tasks will include assisting the Budget Director and members of the Budget Division in any of the following work task areas:

- Employ computer data bases to sort, filter, and compile financial data.
- Use pivot tables in MS Excel, MS Access, and other databases.
- Perform regression analysis in MS Excel.
- Support Internal Controls and monitoring the Funds Control Process.
- Facilitate the Initiating and Reviewing Roles for Procurement Requisitions in the Strategic Integrated Procurement Enterprise System (STRIPES).
- Initiate funds for obligation in the Budget Execution and Reporting System (BEARS).
- Initiate the budget execution of committed funds as assigned.
- Prepare the project monthly funds control sheets (MFCS), as assigned.
- Perform budget analyst duties in the management of the PBS SR-0100 Community and Regulatory Support funding at the site.
- Create and track budget data to include obligations, cost variances analysis, and supporting narratives in the annual spend plans for projects as assigned.
- Prepare and present Monthly Funds Control Sheets and Annual Spend Plans for the Budget Director, Budget Team Leader, and the customers of the Budget Division.
- Compile, track, analyze, and report spend plan forecasts and actual costs monthly, stating cost variances and un-liquidated obligations, running cost and obligation reports, and making recommendations to the Budget Director and Budget Team Lead.

- Support the compilation and analysis of data and writing cost variance analysis narratives with the Quarterly Budget Execution Reviews and the Quarterly Performance Report briefings to Headquarters.
- Obtain various reports from STARS, iPortal, and I-managed Data Warehouse (IDW).
- Download historical reports and other specialized financial reports from BEARS and IDW.
- Initiate and/or back up the DOE-SR Site-wide Assessment Pool (SAP) of multi-sourced projects with its accompanying Annual Spend Plans and Monthly Funds Control Sheets.
- Coordinate SAP multi-source funding allocations with other budget analysts for the initiating and reviewing of SAP Procurement Requests in STRIPES.
- Track and provide the monthly status of the Undelivered Orders as assigned in the UDO data base.
- Communicate via telephone or Video Tele-Conference (VTC) the status of budget execution to stakeholders.
- Defend a project's budget verbally in meetings, on the phone, and in writing.
- Facilitate the Initiation and Review Roles for STRIPES Procurement Requisitions in support of Budget Execution.
- Commit funds for obligation in the Budget Execution and Reporting System (BEARS).
- Prepare project monthly funds control sheets and annual spend plans for projects as assigned for review with the Budget Director, Budget Team Leader, and budget customers.
- Create and track budget data of annual spend plans and monthly funds control sheets by populating Excel spreadsheets in a workbook summary of spend plans and monthly funds control sheets.
- Prepare and present Monthly Funds Control Sheets and Annual Spend Plans for the Budget Director, Budget Team Leader, and the customers of the Budget Division.
- Compile, track, analyze, and report spend plan forecasts and actual costs monthly, statusing cost variances and un-liquidated obligations, running cost and obligation reports, making cost projections, tracking estimated at completion and uncosted carry over, and making recommendations to the Budget Director and Budget Team Leader.
- Obtain historical reports and other specialized financial reports from BEARS and IDW.
- Initiate the budget execution of DOE-SR projects as assigned with its accompanying Annual Spend Plans and Monthly Funds Control Sheets and perform the appropriated level of analyses and recommendations for the Budget Director.

- Learn within one year the Standardize Accounting and Reporting System (STARS) financial accounting system for DOE at SRS.
- Create customized financial reports using iPortal's Oracle Business Intelligence (BI) Foundation Suite.
- Using Oracle Business Intelligence (BI), assist the Office of the CFO better analyze data from multiple sources, visualize data from multiple sources by using dashboards, perform what-if and predictive analysis, deliver personalized content to financial users, generate and distribute highly formatted reports, and analyze the site's corporate performance.
- Examine financial metadata layers, analyze and visualize business intelligence content, and create and generate financial reports as directed by the Office Director.
- Assist the Office of Financial Management in creating executive level financial reports

- Support Internal Controls and monitor the Funds Control Process.
- Employ DOE's iPortal in building, creating and pulling various iPortal budgets and other customized financial reports.
- Interface and respond to iPortal requirements from the DOE HQ iPortal manager.
- Assist the Budget Director with the financial software systems requirements related to iPortal to include BEARS, IDW, STARS, and STRIPES and others in support of budget execution of multi-year appropriated funds.
- Prepare budget execution charts, graphs, and presentation materials for the Budget Director's use in briefings to the Field CFO, Site Manager, and DOE Headquarters.
- Prepare Inter-Entity Work Orders (IEWOs), as assigned, for transfer of funding after review and approval of the Budget Director.
- Prepare Certification for Funds Available for Withdrawal for the Budget Director's and/or Budget Team Lead's review and approval.
- Assist the Budget Director and Budget Division in the preparations of Quarterly Budget Execution Review presentations to EM DOE Headquarters.

D. Accounting Technician (2 Positions)

The Accounting Technicians shall have knowledge and familiarity with federal employee travel, payroll and accounting matters, assists in analyzing and reconciling problems, and referring items to supervisor or higher level accountants when procedural or policy matters are involved. Duties are, but are not limited to, the following:

- Ensure that the payroll is processed and certified each pay period (every two weeks) by the established due dates. Is knowledgeable of payroll processing, codes, and timekeeper duties/responsibilities.
- Coordinate with HQ-Payroll, Defense Finance Accounting Service (DFAS), Office of Human Capital Management (OHCM), and employees to resolve payroll issues.
- Provide proactive and helpful assistance and customer service.
- Ensure that all payroll documentation is filed and verified each pay period, and that monthly and quarterly payment reports are prepared and submitted in a timely and accurate manner. This includes the quarterly South Carolina Withholding Tax Report.
- Ensure travel administration for Temporary Duty, Foreign Travel, and Permanent Change of Station Travel.
- Ensure that Travel Authorizations and Vouchers are reviewed and processed daily, accurately, and in a timely manner while remaining in accordance with the Federal Travel and SR policies, procedures and regulations. Is knowledgeable of travel policies and airline ticket/reservations and charges.
- Responsible for processing financial reservations, de-reservations, obligations, and de-obligations.
- Ensure that all conference attendance travel has been approved in advance by the responsible Manager.
- Verify that training has been properly authorized prior to approval of the corresponding travel (as applicable).
- Inform Accountants and Director apprised of issues/concerns, as it relates to travel, payroll, and accounting issues/problems.
- Is proficient in analyzing and reconciling data, and finding errors and problems in the

Standard Accounting & Reporting System (STARS).

- Is proficient with the federal electronic travel system and interface processing.
- Perform liaison functions with the Travel Management Contract (TMC) personnel and identifies any problems or discrepancies regarding the travel function.
- Assure that the necessary funding allocations are available and sufficient.
- Assist Senior Accountants in performing the day-to-day accounting operations and processing in STARS, Contractor Invoice Approval System (VIAS), and other financial systems. Assures that tasks are thoroughly completed, accurate, and timely.
- Track refunds, nonrefundable tickets, maintains electronic database and prepares reports.
- Assist with filing travel, payroll, and accounting documents.

E. Senior Accountant III (1 Position)

The Senior Accountant III is responsible for all accounting related activities and ensure that accurate and timely distribution of financial and management information (statements, metrics, analyses, etc.).

This position will serve as a subject matter expert and may provide technical counsel and guidance to a small group of individuals.

This is a senior-level position and Duties include, but are not limited to the following:

- Responsible for all aspects of general ledger accounting, including monthly journal entries, preparation of invoices, reconciliations, analysis and ad hoc reporting.
- Prepare metrics and financial analyses for reports and decision-making.
- Assist with establishing and maintaining systems and internal controls, which ensure the integrity of all systems, processes and data.
- Provides proactive and helpful assistance and customer service.
- Responsible for processing financial reservations, de-reservations, obligations, and deobligations.
- Analyzes and reconciles data, and finding errors and problems in the Standard Accounting & Reporting System (STARS).
- Perform the day-to-day accounting operations, close-out, and processing in STARS, Financial Accounting Support Tool (FAST) and other financial systems. Ensures the accurate and timely completion of these responsibilities.
- Informs the Team and Director of issues/concerns, as it relates to finance and accounting matters. Other duties as assigned by the Director and/or CFO.

F. Place of Performance

The work to be performed under this contract will be performed at the Government facility on the Savannah River Site B-Area unless otherwise notified.

G. Government Furnished Resources / Government Furnished Equipment (GFE) / Government Furnished Information (GFI)

The Government will furnish all appropriate facilities, materials, property, desk-top services, and equipment for on-site use in the performance of this contract as specified or as

needed. Under limited circumstances, such as during meetings held in off-site locations, the Government will provide facilities, materials, property and equipment for tasks not requiring

a continuous on-site presence. The following will be provided during an on-site activity under this contract:

- a. Computer system with access to the site network.
- b. A work area consisting of a desk, telephone, temporary storage for equipment, and office supplies applicable to the job.
- c. Access to a copier, scanner, and FAX machine.
- d. All specialized computer equipment required to conduct Budget Execution and Accounting Operations.

H. Travel Requirements

The Government shall reimburse travel related only to the conduct of this contract that is DOE specific. Travel and per diem expenses for all other training shall be provided by the contractor. Point of origin for travel will be determined as the SRS. All travel will be in compliance with the Federal Travel Regulations (FTR). All travel must be approved or authorized by the COR/Task Manager. Requests for travel reimbursements must be submitted monthly along with vouchers and must include detailed documentation of charges, if requested.

I. Schedule of Deliverables

All deliverables required under this task shall be submitted in accordance with the following schedules:

PWS Task#	Deliverable Title	Format	Due Date	Distribution/Copy e	Frequency and Remarks

DNFSB Administrative Support Services
(Defense Nuclear Facilities Safety Board Liaison)

The contractor shall provide the necessary labor and technical expertise to support the Defense Nuclear Facilities Safety Board (DNFSB) Administrative Support Services operations and activities. Services shall include the management of government property that will include, but is not limited to, the following:

A. DNFSB Administrative Support Services

1. PURPOSE

The purpose of this requirement is to procure the services of a contractor to provide administrative assistant and liaison support to assist the Office of Safety and Quality Assurance (OSQA) in the support and interface with the Defense Nuclear Facility Safety Board (DNFSB).

2. BACKGROUND

OSQA is located within the Department of Energy's Savannah River Site (SRS) Operations Office. OSQA provides support and interface between the DNFSB site representatives and staff and DOE-SR and Savannah River Site contractors.

3. SCOPE

This contract will support the Government in the interface and support of the DNFSB site representatives and provide direct interface between the DNFSB site representatives, Staff, and DOE-SR/SRS contractors.

This contract will also support the Government in the interface and support of the DNFSB members/staff in the coordination of DNFSB visits by distributing requested agendas, confirming facility availability, reserving conference rooms and equipment, scheduling planning meetings and dry runs, preparing and issuing the final agenda, obtaining classification reviews and preparing copies of presentation material, arranging escorts, providing transportation, and making security arrangements to allow staff access to facilities. This contract will also ensure DNFSB personnel have necessary site or facility specific training and dosimetry and will arrange for orientation briefings and tours. The contract may be required to arrange for food delivery during DNFSB member visits.

4. STATEMENT OF WORK SPECIFIC TO THE DNFSB ADMINISTRATIVE SUPPORT:

4.1. Serve as the Site's administrative point of contact for all interactions, both oral and written, with the DNFSB and members of their staff, in conjunction with all activities at SRS.

- 4.2. Provide relevant information to the operating contractors in all matters relating to the day-to-day activities of the DNFSB at SRS.
- 4.3. Coordinate DNFSB visits by distributing requested agendas, confirming facility availability, reserving conference rooms and equipment, scheduling planning meetings and dry runs, preparing and issuing the final agenda, obtaining classification reviews and preparing copies of presentation material, arranging escorts, providing transportation, and making security arrangements to allow staff access to facilities.
Thus, ensuring personnel have necessary site or facility specific training and dosimetry and arrange for orientation briefings and tours. During DNFSB member visits, arrange for food delivery as directed by the Task Manager.
- 4.4. Participate during DNFSB member and staff visits. Provide input to DOE-SR to ensure that information being provided by the contractors is fulfilling DNFSB agenda. Help coordinate any additional support needed to close gaps.
- 4.5. Prepare a meeting summary package as a historical record and enter it into Documentum. Provide this information package when requested.
- 4.6. Arrange for phone lines, rooms, and equipment for teleconference calls and videoconferences as requested.
- 4.7. Process all document/info requests. Contact relevant site personnel to get the requested documents and/or information. Maintain database of all document and information requests. Track status of open requests to ensure they are processed in a timely manner. Give facility personnel periodic updates on the status of their requests. Give periodic updates to the DNFSB Cognizant Engineer. Ensure documents are reviewed and have RO/disclaimer stamps prior to transmitting them offsite to the DNFSB.
- 4.8. Distribute DNFSB letters, technical reports, recommendations, and site representative weekly reports to DOE management and applicable staff as soon as they are available.
- 4.9. Set up computer accounts for DNFSB staff, as necessary.
- 4.10. Ensure that DOE-SR provided equipment (computers connected to SRS network, pagers, office equipment and space) are sufficient. Arrange for equipment to be replaced/repared as needed.
- 4.11. Arrange local and DNFSB Headquarters training for DNFSB staff as required.
- 4.12. Resolve issues that impact the ability of DNFSB staff to conduct their business at the site.
- 4.13. Position requires the handling of Official Use Only, Business Sensitive, and Unclassified Controlled Nuclear Information (UCNI). Candidate must be able to receive a Q clearance.
- 4.14. Maintain/update internal SRS webpage for DNFSB Topics. Information such as DNFSB letters, technical reports, recommendations, etc., is added as they become available. Notify site personnel of any new information added.
- 4.15. Provide historical information about DNFSB activities as requested.
- 4.16. Periodically provide reports on DNFSB activities to DOE-SR.
- 4.17. Participate in DOE/DNFSB interface workshops.
- 4.18. Arrange for viewing of public meetings as requested.
- 4.19. Collect and organize information relating to SRS DNFSB activities for inclusion in the Annual Report to Congress.
- 4.20. Participate in calls with DOE-HQ representatives and other DOE DNFSB liaisons

where decisions are made that affect the DNFSB program activities.

- 4.21. Participate in bi-weekly Senior Management meetings with Site Representatives. Conduct follow-up to issues identified during meeting.
- 4.22. Interact with DNFSB onsite representative (Site Rep) in order to communicate issues and ensure responsiveness. Keep Site Rep informed of DOE activities that may be of interest.
- 4.23. Interact frequently with Site Reps and DNFSB Cognizant Engineers in the Washington DC office to keep apprised of DNFSB activities involving SRS and DOE.
- 4.24. Maintain a level of knowledge of the Defense Nuclear Facilities Safety Board, the Board's mission and functions, and program objectives and recommendations applicable to DOE-SRS operations and activities.
- 4.25. While this position directly reports to DOE-SR, the position provides the support described above also for NNSA, as needed.

5. PLACE OF PERFORMANCE

The place of performance shall normally be at the Government's facility: Savannah River Operations Office, Building 703-41A, P.O. Box A, Aiken, SC 29802.

6. GOVERNMENT FURNISHED RESOURCES/GOVERNMENT FURNISHED EQUIPMENT (GFE)/ GOVERNMENT FURNISHED INFORMATION (GFI)

Work will take place in a Government office and on the Savannah River Site. Normal computer equipment (computer, monitor, scanner and printer) will be furnished to the contractor. Information pertinent to the DNFSB and OSQA will be provided as needed and agreed upon between the Task Manager and contractor.

7. TRAVEL REQUIREMENTS

The Government shall reimburse all travel related to the conduct of this contract. The point of origin for travel will be determined as the SRS. All travel will be in compliance with the Federal Travel Regulations (FTR). All travel must be approved or authorized by the COR. Requests for travel reimbursements must be submitted monthly along with vouchers and must include documentation of charges, if requested.

8. QUALIFICATIONS OF CONTRACTOR SUPPORT PERSONNEL

Contractor will provide qualified staffing familiar with information management/technology, and knowledgeable of DNFSB Administrative Support requirements.

- 1) **Information Management/Technology skills** – Knowledge of workstation hardware, software and network resources such as SafetyNet, STARS, ACCESS, TRAIN, EDWS, and various other Facility and Engineering Databases in order to accomplish work tasks. Experience with internet-based systems is required, i.e.,

Documentum, Lotus Notes, HTML, and Web Editing Software.

- 2) **Functional skills in the subject matter** – Knowledge of DNFSB interface requirements and processes for both DOE and contractors.
- 3) **Familiarity with the specific administration and reporting requirements** pertaining to DNFSB interface and support. Minimum requirements are as follows:
 - Knowledgeable of **DOE M 140.1-1B INTERFACE WITH THE DEFENSE NUCLEAR FACILITIES SAFETY BOARD**.
 - Must be proficient in MS Word, FileMaker Pro, Documentum, Power Point, Web Editing, and Excel.
 - Experience with SRS security requirements, badge and facility access requirements and processes, training requirements, and scheduling.
 - Self-Starter, ability to work independently.
 - Strong communication skills to interface with DOE, DNFSB, and Contractor personnel.

9. SECURITY

A General Site Access photo badge is required for access (entry and exit) to the Site. The contractor must be able to obtain a Q clearance.

10. DATA USE, DISCLOSURE OF INFORMATION AND HANDLING OF SENSITIVE INFORMATION

❖ **The contractor will be required to sign a non-disclosure form.**

All data received, processed, evaluated, loaded, and/or created as a result of this contract shall remain the sole property of the Government unless a specific exception is granted by the Contracting Officer.

11. SCHEDULE OF DELIVERABLES

Specific Deliverables are located in the table below. Deliverables must be submitted to the Task Manager (TM) for inspection, review, and acceptance. Formal acceptance occurs upon CO signature. The deliverables become the property of the U.S. Government. The government will provide timely comments on each deliverable as necessary. The contractor shall incorporate the government's comments within **two business days** of receipt. In the event of rejection of any deliverables, the contractor will be notified in writing by the Government of the specific reasons why deliverable is unsatisfactory. The contractor must return a revised document within **two business days** to the Task Manager. Deliverables are to be submitted electronically indicating delivery.

11.14.1	Maintain/update internal SRS webpage for DNFSB Topics. Information such as DNFSB letters, technical reports, recommendations, etc., is added as they become available. Notify site	HTML PDF	15 working days	Email / Chief Engineer, Task Manager, Others as assigned	As necessary

11.19.1	Send electronic request for input to Annual Report to Congress to all concerned.	Email , PDF	Annually in October	Email All Concerned	Annually in October
11.19.2	Organize input from DOE-SR and Contractor Sources into required format for transmission to DOE.	Word	Annually in November	Email, Chief Engineer, Task Manager	Annually in November
11.19.3	Transmit DOE-SR input for Annual Report to Congress when approved to HQ.	Word	Annually in November	Email, Chief Engineer, Task Manager, Others as assigned	Annually in November
11.21.1	Provide status of issues identified during bi-weekly DOE-SR Senior Management meetings with DNFSB Site Representatives until closure.	Word	Within 1 day of meeting	Email, Meeting attendees, Chief Engineer, Task Manager, Others as assigned.	Bi-weekly

12. PERFORMANCE STANDARDS

General quality measures, as set forth below, will be applied to each work product and deliverable received from the contractor under this contract.

Performance Standard	Acceptable Quality Level	Method of Surveillance
Accuracy- Work Products and deliverables shall be accurate in the presentation, technical content and adherence to accepted elements of style.	95% of the time	Routine inspection of deliverable
Clarity- Work products and deliverables shall be clear and concise. Any/All diagrams shall be easy to understand and be relevant to the supporting narrative.	95% of the time	Observance of performance and work
Consistence to Requirements- All work products and deliverables must satisfy the requirements stated herein.	100% of the time	Routine inspection of deliverable
Timeliness- Work products will be submitted on or before assigned deadlines as provided with each deliverable.	100% of the time	Routine inspection of deliverable
Format- Work products and deliverables shall be submitted as a hard copy (where applicable) and in media as long as there is a mutual agreement prior to submission. Hard copy formats shall follow any	95% of the time	Routine inspection of deliverable

File Editing- All Text and diagrammatic files shall be editable by the Government.	100% of the time	
---	------------------	--

13. STANDARDS OF CONDUCT

The Contractor will be responsible for maintaining satisfactory standards in employee competency, conduct, appearance, and integrity.

14. CONFIDENTIALITY

All information regarding the work done under this contract must be considered as sensitive information by the Contractor and not to be disclosed to anyone outside the Contractor’s organization without the written permission of the Contracting Officer.

15. DIRECTIVES, LAWS, REGULATIONS, MANUALS AND PROCEDURES

The following regulatory requirements are applicable to this performance of this task.

DOE M 140.1-1B INTERFACE WITH THE DEFENSE NUCLEAR FACILITIES SAFETY BOARD

ENTERPRISE INFORMATION SERVICES

BACKGROUND

The Department of Energy – Savannah River has a requirement for a contractor to provide support to the federal and DOE support contractors' workforce. The contractor will aid in the acceleration of the EM mission and promote technological advancements as the site transforms its mission. The contractor is responsible for the oversight and management of unclassified computer hardware and software resources for the Savannah River Site federal/support contractors, which includes the operation and maintenance physical servers, virtual servers, and storage area network (SAN) devices in the Data Center. The contractor will maintain the computing environment consisting of the Local Area Networks, file/print servers, and workstations located at multiple buildings and sites. The current computing environment is based on a continuously evolving platform as defined in Savannah River's (SR) computing architecture. The contractor will provide field support to approximately 750 users accessing various site systems through approximately 800 personal computers. The contractor will comply with all pertinent DOE directives and regulations in addition to the DOE O 205.1B, Program Cyber Security Plan (PCSP), the current Risk Management Approach Implementation Plan (RMAIP), and the Environmental Management Program Security Plan (PSP).

The service provider shall provide services and support the organization's standard approved desktop computing infrastructure environment which includes, but is not limited to, the following:

- Desktop computing hardware devices and associated system software and locally attached peripheral devices
- Mobile Computing hardware devices and associated system software
- Business productivity software and organization's applications that are part of the organization's standard approved desktop computing device images
- Network-attached printers, scanners, multifunctional devices (such as printer/scanner/fax) and copiers that are attached to the local-area network (LAN)
- These services will be completed at the organization's locations as identified in this SOW

The Contractor will be responsible for supporting, in accordance with DOE Order 200.1A, the following:

1. Acquisition, Use, and Management of Enterprise Information Services to include the following:
 - a) Formulation of Information Technology Strategic Plan. Support strategic planning activities, consistent with performance-based and results-based management and in accordance with the Clinger-Cohen Act sections 5113 and 5123.
 - b) Capital Planning and Investment Control. Assist in development, implementation, and maintenance of a Capital Planning and Investment Control process in compliance with DOE P 413.1, Office of Management and Budget (OMB) Circular A-11 Sections 53 and 300, OMB Circular A-130, Management of Federal Information Resources, Parts 8 and 9, and Clinger- Cohen Act Sections 5112 and 5122.
 - c) Enterprise Architecture. Support the maintenance of DOE-SR Enterprise Architecture

for the life- cycle management of information, information resources, and related IT investments in compliance with OMB Circular A-11 Sections 53 and 300 and OMB Circular A-130 Parts 8 and 9 , a n d t h e C l i n g e r - C o h e n A c t S e c t i o n s 5 1 1 2 a n d 5 1 2 2 .

- d) Hardware and Software Acquisition. Support DOE-SR's acquisition, use, and management of IT hardware and software to meet program and mission goals. In addition, promote sound resource management and a more cost-effective government, while remaining in accordance with Federal Acquisition Regulation Part 39, Acquisition of information Technology, DOE O 413.3A, and Program and Project Management for the Acquisition of Capital Assets.
- e) IT Operations and Use.
 - i) Access for People with Disabilities. Ensure that all Departmental technology is accessible to employees and members of the public with disabilities, in compliance with Section 508 of the Rehabilitation Act.
 - ii) Web Policy. Ensure that DOE websites comply with OMB Memorandum M-05-04, Policies for Federal Agency Public Websites, OMB Circular A-130, and established Departmental Web procedures.
 - iii) Personal Use. Promote requirements and assign responsibilities for employees' limited personal use of Government resources, consistent with DOE O 203.1, Limited Personal Use of Government Office Equipment Including Information Technology.
 - iv) Public Access. Promote public access to DOE information through the effective use of IT.
 - v) Software Piracy. Adopt procedures to prevent illegal or inappropriate use of software licenses.
2. Cyber Security Management. Ensure compliance with established security requirements for the protection and control of information, information systems, and matter required to be classified or controlled by statutes, regulations, and DOE Directives. This includes DOE O 205.1B, Cyber Security Management, DOE P 470.1, Integrated Safeguards, Security Management, and consistent with the Federal Information Security Management Act of 2002 (FISMA).
3. Spectrum Management. Ensure that all use of radio frequency spectrum is in compliance with Title 47 Code of Federal Regulations (CFR), Part 300, Manual of Regulations and Procedures for Federal Radio Frequency Management, and other key publications that provide requirements, standards, and procedures.
4. Records Management. Ensure that a records management program is maintained and consistent with DOE O 243.1, Records Management Program.

RESOURCES

The contractor must provide all of the personnel needed to accomplish the work under the task assignments. The work required by task assignments will be performed at the DOE's facilities.

SCOPE

The contractor will support work to include the information technology, information management, and information assurance areas. Services that will be supported are IT operations and maintenance, IT systems development and implementation, service center support, researching/reporting on topics of interest, forensic investigations, cyber security, and continual transformation of the Integrated Business Management System (IBMS).

In general the contractor will be responsible for support of SR mission-related IT systems and the implementation of a Federal Boundary related to the implementation, operation, and security of existing and future mission systems. The contractor will be involved in the entire System Development Life Cycle (SDLC) for these systems. Hardware and software provided for technical refresh and future systems will be provided as a product of a task and in many cases will be a turn-key solution. All commercial warranties for hardware and software purchases shall be passed on to the Government.

The contractor will be responsible for the continual transformation of the business systems. They will research and promote the best solutions for the federal staff as it relates to technology. They will eliminate any systems that will not support the ease of transfer to the best industry standard.

WORK ASSIGNMENT/PERFORMANCE REQUIREMENTS

Work assignments will be issued upon contract award. Additional task assessments may be issued after contract award, based on the requirements and scope. Deliverables and due dates will be documented in each new task assignment issued.

1. Service Center

The service center role connects the customer and Enterprise Information Services department. The service center is frequently the first point of access for IT queries by customers, providing answers and simple solutions to enable continued use of their IT systems. The service center provides centralized information and support management service to handle a company's queries and operational problems about IT-related processes, policies, systems, and use. Services include: hardware and software support, logging of problems, dispatch of service technicians or parts, training coordination, and other IT-related issues.

Provide the service and support required at the physical location of the desktop(s) or laptop(s), associated peripherals, and other(s) related to maintain the equipment in good working order with up- to-date hardware and software, as required. It includes the most common roles and responsibilities for desk-side support, hardware and software break or fix, installation, technology refresh, storage, and output management in the desktop client environment.

The service center shall provide services to include, but are not limited to, the following:

- Maintain and update all computer equipment associated with the DOE-SR Loaner Laptop Program.

- Facilitate the utilization of a knowledge base of common application/hardware problems and corrective actions.
 - Provide IT metrics as needed of ongoing service center operations.
 - Repair all computers, printers, and peripheral with government furnished parts when deemed cost effective and not covered by other warranties or contracts.
 - Coordinate with the M&O contractor to create/reset network and email accounts for end users.
 - Perform acceptance testing of all M&O software releases and updates.
 - Support the Datacenter in the diagnosis, analysis, and resolution of all site network related problems with M&O contractor.
 - Install, configure, and maintain all local and networked printers.
 - Install, configure, and maintain software on all new and existing computers to ensure optimal performance.
 - Install, configure, and maintain all new and existing peripherals in accordance with manufacturer recommendations.
 - Inspect all desktop/laptop computers to ensure only authorized “stand alone” and/or “site licensed” software is installed. Observation of unauthorized software shall be fully documented and referred to the COR and Cyber Security for corrective action.
 - Provide explanations, demonstrations, training, and orientation to end-users when necessary for problem resolution.
- Assist in performing remediation services related to computer viruses, malware, and other contamination incidents. All occurrences shall be reported to the COR and Cyber Security as soon as they are identified in accordance with site wide procedures.

NOTE: The DOE Service center shall support all software application purchased and/or developed by DOE-SR, and to a lesser extent, the M & O Contractor.

2. Operations Support

The contractor will support work to include the information technology, information management, and information assurance areas. The contractor will be responsible for providing the Contractor Officer Representative (COR) analysis of current state of business systems, system improvements, business processes, and marketing strategy for improving information technology image. The contractor should work with the other business process analyst to improve the business processes on site. The business analysts should develop repeatable processes that can be utilized to reduce redundancy, add value, and promote better efficiency.

This section includes the most common roles and responsibilities for physical inventory, asset procurement, asset receiving, stock management, asset tracking, software license management, contract management (assets), warranty, maintenance contracts, asset cascading, and disposal asset management services. The contractor will be responsible for asset management of computers, laptops, and printers which are covered under the

property contract.

The contractor should provide assistance in the enterprise service management team, service center, and software engineering group to identify opportunities for improvement within the organization. The contractor will provide support in the following areas:

1. Analysis and Solution Definition
 - Documents DOE-SR Enterprise Information Services' direction, structure, business processes and requirements.
 - Assists in the collection and consolidation of required information and data.
2. Technical Recommendation and Testing
 - Accurately and efficiently executes test plans.
 - Assembles and documents all test results.
 - Retests as necessary.
3. Project Execution
 - Understands project plans and is able to clearly articulate roles, project goals, and timelines.
 - Takes input from supervisor and appropriately and accurately applies comments/feedback.
 - Adheres to project standards defined by project management.
 - Accurately employs DOE-SR's methodology and documentation tools.
 - Proactively carries out project support /administrative functions.
 - Establishes responsible deadlines and personal work plans and manages time effectively.
4. Communication
 - Listens to others and accepts input from team members.
 - Clearly articulate ideas and thoughts verbally.
 - Accurately prepares written business correspondence that is coherent, grammatically correct, effective and professional.
5. Technical Understanding
 - Understands basic Internet and client/server architectures.
 - Possesses basic knowledge of HTML.
 - Proficient in Microsoft Office suite.
6. Problem Solving
 - Proposes solutions to problems and considers timeliness, effectiveness, and practicality in addressing customer needs.
 - Generates innovative solutions by approaching problems with curiosity and open mindedness, using existing information to its fullest potential.

7. Teamwork

- Establishes harmonious working relationships with team members.
- Appreciates each team member's contributions and values each individual member.
- Displays a positive attitude.
- Demonstrates flexibility in day-to-day work.
- Sets high standards of performance for oneself.

8. Customer Management

- Values internal and external customers and responds to their needs as they arise.
- Establishes effective working relationship with customers.
- Follows established communication guidelines.
- Uses good judgment in what and how to communicate with clients.

9. Innovative Development

- Understands the professional development process and becomes actively involved by setting challenging goals and meeting them through continuous learning.
- Seeks input from mentors and supervisors.
- Actively applies feedback received to day-to-day work and strives to improve performance.

3. Software Engineering

This section includes the most common roles and responsibilities for image management, patch management, auto discovery, and electronic software distribution processes. Services shall be provided to create scalable applications tailor made to suit client's requirements. As a result, the services should be suited to understand and analyze the application requirements, then architect, develop, test, and deploy to the clients with post-project delivery management and support services.

Application Services are the activities, as detailed in this SOW, required to provide the Organization with the following general Application Life Cycle services:

- Application Development Services — Activities associated with the development of new applications and major enhancements. Application services are classified as Application Development Services when the work effort is greater than five person-days.
- Application Warranty Services — Activities associated with repairing errors/defects for Provider developed application(s) or enhancement(s) that are discovered within 90 days of the application(s) or enhancement(s) being placed into the applicable production environment. The COR may deem the development work as a defect, which will require the work to be performed at the cost of the contractor and not the supplying organization.
- Application Maintenance and Support Services — Activities associated with responding to incidents, repairing defects, and analyzing, designing, developing, implementing, and maintaining minor functional and or technical enhancements to improve the performance

and/or stability of the application and/or add, change, or remove requested functionality to or from the application.

The contractor will provide support in the performance of management functions for the business platform including, but not limited to, the elicitation, description, analysis, validation, linkage, evolution, and testing through the course of development, deployment, implementation, operations, and subsequent maintenance of the platform. The contractor will provide insurance that proper documentation can be upheld in an audit by internal or external entity. The following list of templates delineates the core areas of consideration when employing the Waterfall or Agile Software Development Methodology:

- Business Requirements and their Acceptance Tests
- Functional Requirements and their Scenario Tests
- Technical Requirements and their non-functional and quality of service thresholds
- Design Specifications and their Application Architecture Component Tests
- Source Code and its Unit Tests
- User's Documentation

The contractor must provide qualified personnel and supporting resources to deliver efficient and cost effective support services for the requirements described below. Performance of these services requires the contractor to produce specific Work Products as identified below.

The contractor will serve as facilitator to track progress of initiatives, prepare, and submit reports per the requirements.

The contractor will coordinate activities between members of the support team, SR direct support contracted Development Group, System Administration Group, Service Center Group, and other IT/ Project Management support contractors in the implementation/operations of IBMS. Facilitate the collection, synthesis, organization, and management of DOE Business Process information in support of each DOE organization across the enterprise. The incumbent will aid in the development and adherence to a comprehensive Information Governance Policy at DOE-SR.

Coordinate and direct administrative support functions for the IBMS program. Implement policies and procedures for production of documents, work flow, filing, records maintenance, and other strategic business services.

Performs audits to verify accuracy of records, compliance with DOE O 243.1/ SRIP 200 Chapter 243.1, policies and procedures. Compiles audit findings and recommendations for modifications and improvements to systems and procedures.

Provide recommendations on how to improve ongoing IBMS work scope activities to make the work more efficient.

Performs all tasks associated with the lifecycle disposition of DOE-SR Records to include

scanning and digitizing legacy records and the development of interfaces with existing and future information systems.

The desktop application services that the contractor shall provide includes, but may not be limited to:

- Follow SDLC methodology in application development/deployment
- Minimize the development of customized applications, where appropriate, with Commercial off the Shelf (COTS) products. If COTS products are not available, the contractor shall develop customize applications adhering DOE G 200.1-1, Software Engineering Methodology, Software Engineering Institute's Capability Maturity Model Level 2, or the latest DOE software methodology directive.
- Provide training for all new and/or existing application to end-users.
- Troubleshoot software-related issues impacting information systems.
- Incorporate appropriate security measures at the application level to protect sensitive corporate information.

Continue with the implementation of the Identity Credential and Access Management (ICAM) support that includes, but may not be limited to:

- Continue the support, design, and implementation of the ICAM framework to specific initiatives such identity management and PKI.
- Evaluate ICAM plans, documents, and policies to determine how DOE-SR is affected.
- Review systems and system documentation for compliance with the DOE ICAM initiative.
- Provide support in selecting, acquiring, and implementing ICAM related hardware and software.
- Provide support in operating and monitoring ICAM related activities.
- Support audits, assessments, and reviews of the state of the ICAM implementation at DOE-SR.
- Perform product testing of new technology and provide written assessments (including recommendations) for possible implementation as it relates to ICAM.
- Perform testing of HSPD-12 authentication with applications and server hardware.
- User shall authenticate using HSPD-12 badge for applications.

4. Cyber Security

Information security requirements are growing in response to existing and new information security challenges, Federal policies, and statutes. Therefore, the contractor is required to keep abreast of Federal policy, threat, and risk changes to help keep IT security in a proactive mode. The contractor shall be required to support DOE in managing all aspects of its information security program. Cyber security support personnel will be required to obtain DOE Q clearances in order to understand and assess possible threats/risks to DOE IT systems. Security services provide protection for corporate data assets from external unauthorized use, modification, disclosure, or destruction; whether accidental or intentional,

while providing adequate audit trails and complying with applicable laws.

The contractor shall provide the following:

Cyber Security Specialist I

- a. Perform Vulnerability Management support including scanning assigned network space for vulnerabilities, notification to owner and personnel accountable, tracking remediation, reporting and validation.
- b. Perform Security Configuration Management support including research and development of applicable baselines, configuration scanning, and notification to owner and personnel accountable, tracking remediation, reporting and validation.
- c. Develop and perform Cyber Security Awareness training.
- d. Maintains awareness of current cyber security information and events.
- e. Supports security activities within SDLC in accordance with DOE CSP and Risk Management Framework
- f. Supports DOE Oversight function of site tenant systems and cyber security activities.
- g. Assist penetration testing, forensic analysis, and incident response activities.
- h. Assist development and review of security related policy, procedures, standard operating procedures and other program documentation.
- i. Assist policy, procedure, and program document development and review
- j. Performs other duties as assigned by Program Manager or DOE Counterpart.
- k. Attend meetings, trainings and conferences
- l. Strong written and verbal communications skills.
- m. Ability to develop and review security related policy, procedures or standard operating procedures and other program documentation.
- n. Experience required: 3+ years in IT security experience.
- o. Education requirement: Minimum High School diploma
- p. Highly desired certifications: CISSP, GIAC Certified Incident Handler (GCIH), GIAC Certified Penetration Tester (GPEN), GIAC Certified Forensic Examiner (GCFE).
- q. Clearance required: Able to obtain and maintain a Q-Clearance

Cyber Security Specialist II

- a. Perform computer forensic analysis of computer systems, components and peripherals, mobile devices, and media in support of incident response and investigations.
- b. Perform incident response activities in accordance with site Incident Response Plan.
- c. Maintains awareness of current cyber security information and events.
- d. Supports security activities within SDLC in accordance with DOE CSP and Risk Management Framework
- e. Supports DOE Oversight function of site tenant systems and cyber security activities.
- f. Assist penetration testing activities.
- g. Performs other duties as assigned by Program Manager or DOE Counterpart.
- h. Attends meetings, trainings and conferences

- i. Strong written and verbal communications skills.
- j. Familiarity with applicable regulations affecting Cyber Security and National Institute of Standards and Technology (NIST) 800 Series Standards
- k. Ability to develop and review security related policy, procedures or standard operating procedures and other program documentation.
- l. Experience required: 5+ years in IT security experience.
- m. Education requirement: A bachelor's degree in information technology systems, computer science, or related field and experience in information technology systems or related area. Relevant experience may be substituted for bachelor's degree on a year-for-year basis.
- n. Professional certification required: Forensic examiner within 6 months of hire.
- o. Highly desired certifications: CISSP, GIAC Certified Incident Handler (GCIH), GIAC Certified Penetration Tester (GPEN), GIAC Certified Forensic Examiner (GCFE)
- p. Clearance required: Able to obtain and maintain a Q-Clearance

Senior Cyber Security Analyst

- a. Perform penetration testing including system or application vulnerability discovery, research, exploitation, reporting and validation according to the established rules of engagement.
- b. Perform wireless detection to include unauthorized wi-fi access points or bluetooth devices.
- c. Support Assessment & Authorization activities as the “Certification Agent”
- d. Maintains awareness of current cyber security information and events.
- e. Supports security activities within SDLC in accordance with DOE CSP and Risk Management Framework
- f. Supports DOE Oversight function of site tenant systems and cyber security activities.
- g. Assist forensic analysis and incident response activities.
- h. Performs other duties as assigned by Program Manager or DOE Counterpart.
- i. Attend meetings, trainings and conferences
- j. Strong written and verbal communications skills.
- k. Ability to develop and review security related policy, procedures or standard operating procedures and other program documentation.
- l. Familiarity with applicable regulations affecting Cyber Security and National Institute of Standards and Technology (NIST) 800 Series Standards
- m. Experience required: 7+ years in IT security experience.
- n. Education required: A bachelor's degree in information technology systems, computer science, or related field and experience in information technology systems or related area. Relevant experience may be substituted for bachelor's degree on a year-for-year basis.
- o. Professional certification required: Penetration Testing\Ethical Hacking within 6 months of hire.
- p. Highly desired certifications: CISSP, GIAC Certified Incident Handler (GCIH), GIAC Certified Penetration Tester (GPEN), GIAC Certified Forensic Examiner (GCFE)
- q. Clearance required: Able to obtain and maintain a Q-Clearance

IT Systems Engineer II

The IT Systems Engineer III supports the Enterprise Information Services for the Department of Energy (DOE) Savannah River Operations Office (DOE-SR) at the Savannah River Site (SRS) in Aiken SC. This position performs IT functions such as design, analysis, evaluation, testing, debugging, and implementing all aspects of IT infrastructure in support of multiple functional areas. Analyzes, acquires, installs, modifies, and supports applications, operating systems, servers, network devices, and other equipment in the data center. Works on project implementation and makes recommendations for the improvements and development of technical standards. Contributes to the development, testing, evaluation, and design of system or infrastructure architecture used throughout the IT solution set. Coordinates with multiple functional areas and vendors in the planning, upgrading, testing, and servicing of IT solutions. May assist with project planning, cost analysis, and vendor comparisons. Routinely works on problems of diverse scope that require in-depth technical analysis and frequent creative resolution.

Essential Duties and Responsibilities:

Primary duties and responsibilities pertain to all aspects of support for the customer's IT infrastructure and data centers, including but not limited to:

- a. Providing day-to-day technical direction and support to all IT support teams and users as required for network, server, general IT infrastructure, and data center issues.
- b. Installing, configuring, modifying, testing, and servicing of all internal facing data communications and local/wide-area network (LAN/WAN) equipment.
- c. Installing, configuring, and troubleshooting servers, storage, and backup solutions in a heterogeneous data center environment.
- d. Ensuring and maintaining the highest possible security standards and practices in accordance with company and DOE/government IT security policies and procedures, especially as they relate to network, data center, and overall IT infrastructure security.
- e. Administering and maintaining backup, disaster recovery, and business continuity systems and protocols in accordance with IT policies and procedures.
- f. Assisting with new acquisitions, moves, consolidations, and reconfigurations, including the planning, design, and build out of new data center modifications, as well as coordinating with vendors on any required installations.
- g. Contributing to the development, testing, evaluation, and design of IT standards, systems, infrastructure and solutions.
- h. Coordinating with multiple functional areas and vendors on the planning, upgrading, testing, and servicing of IT solutions.
- i. Documenting and tracking all IT data center assets, services, and infrastructure.
- j. Working in conjunction with third-party professional services and outsourcing functions on the planning, implementation, and ongoing delivery of IT solutions.
- k. Provisioning and maintaining server infrastructure.
- l. Troubleshooting hardware, software, and application problems.
- m. Researching, identifying, evaluating, and implementing ways to improve systems administration tasks such as patching, imaging, server provisioning,

and overall automation of repeatable tasks.

- n. Addressing 3rd level customer support issues escalated from the Service Desk, troubleshooting difficult cases, documenting resolution, and sharing findings.
- o. Following internal procedures which include change management, incident management, and problem escalation.
- p. Developing processes that leverage known industry standards.
- q. Building and maintaining an IT operations documentation library.
- r. Providing technical lead skills throughout a project lifecycle.
- s. Designing technology solutions leveraging proposed architecture.
- t. Other responsibilities and key result areas will be assigned as required.
- u. Other duties as assigned by management

Supervisory Responsibilities:

Will direct the activities of system administrators and technicians.

Competency:

- a. Must demonstrate ethics, responsibility, confidentiality, professionalism, punctuality, consistent dependability, and organizational skills.
- b. Must possess collaboration skills and be able to meet deadlines. Must be able to manage multiple simultaneous projects and manage time efficiently.
- c. Must be able to work professionally with individuals and diverse groups.

Qualifications:

To perform this job successfully, an individual must be able to perform each duty assigned thoroughly and independently. The requirements listed below are representative of the knowledge, skill, and/or ability required. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

Education and/or Experience:

- a. A Bachelor's Degree in Computer Information Systems, Computer Science, or a related discipline, is desired. May substitute one year of hands on experience in a relevant field for each year of formal training.
- b. A minimum of seven years' relevant work experience is preferred.

Language Skills:

- a. Must possess an excellent command of the English language and good communication skills, including the ability to comprehend and convey detailed technical data.
- b. Must be able to clearly articulate complex ideas and thoughts verbally.

- c. Must be able to accurately prepare written reports and correspondence that are coherent, grammatically correct, effective, and professional.

Mathematical Skills:

Must be able to successfully perform advanced mathematical functions as required.

Reasoning Ability:

- a. Must demonstrate and apply common sense and understanding to carry out instructions furnished in oral, written, or diagram/schematic form.
- b. Must be able to propose solutions to problems and consider timeliness, effectiveness, and practicality in them.
- c. Must be able to generate innovative solutions by approaching problems with curiosity and open mindedness, using existing information to its fullest potential.

Computer Skills:

- a. Should have demonstrable fluency with computers, software and general office equipment.
- b. Domain expertise with MS operating systems, virtualization technologies, storage technologies, and Active Directory is required.
- c. Expertise in vSphere Management and Administration is required.
- d. Knowledge of and experience with standard protocols (TCP/IP, DHCP, DNS, etc) are required.
- e. Must be experienced in the design and integration of multiple network operating systems, protocols and topologies.
- f. Must be able to operate, monitor, secure, and sustain a SAN, VMware cluster servers, and backup systems; implement backup procedures; and implement data recovery procedures.
- g. Must be proficient in the Microsoft Office suite.

Certificates, Licenses, Registrations:

- a. Microsoft Certified Solutions Expert (MCSE) preferred.
- b. Current driver's license required.
- c. Proof of U.S. Citizenship required.
- d. An active security clearance is required.

Physical Demands:

The physical demands described here are representative of those that must be met by an employee to successfully perform the essential functions of this job. Reasonable

accommodations may be made to enable individuals with disabilities to perform the essential functions.

While performing the duties of this job, the employee is regularly required to talk or hear. The employee frequently is required to stand; sit; stoop; walk; use hands to finger, handle or feel; and reach with hands and arms. Specific vision abilities required by this job include close vision, distance vision, color vision, peripheral vision, depth perception and ability to adjust focus.

Work Environment:

The work environment characteristics described here are representative of those an employee encounters while performing the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

This job operates in a professional office environment. This role routinely uses standard office equipment.

Periodic travel in support of IT projects and other business initiatives may be required.

5. Enterprise Systems Management

Provide support for fault, configuration, and performance management. As well as, comprise the monitoring of network devices and servers and notify appropriate personnel of errors and administrative functions surrounding network service and support.

The contractor shall provide the following:

- Continual reduction of server environment footprint (i.e. virtualization)
- Install, configure, maintain, and optimize all servers.
- Install, configure, maintain, and optimize server-based applications.
- Document all changes to the configuration management log.
- Perform incremental and full back-up of data.
- Perform full back-up of web content per backup schedule
- Perform partial or full data restoration to mockup server on a quarterly basis to ensure recovery from an unexpected disaster for each server type (ex. web, sql, email, etc.).
- Perform basic data administrator and database administrator functions.
- Transfer new applications and web pages from staging environment or code repository to production environments.
- Apply hot fixes or security patches when mandated or necessary.
- Review server-based transaction logs on a daily basis and notify the COR and Cyber Security if questionable activities are observed.
- Respond to alerts generated by server transaction logs or the intrusion detection system if any cyber security incidents occur.
- Perform remediation services when computer viruses are discovered. All occurrences shall be reported to the COR and Cyber Security.

- Update and maintain a Standard Operating Procedure (SOP) Manual. The SOP Manual shall contain all relevant IT policies and procedures used by the COR's organization.
- Provide a portal with real time information about the server environment. Include virtual, physical, and storage.
- Formulate and document technical proposals for short term and long range planning of the Data Center.
- Assist DOE Computer Security and evaluate new technology to determine related risks and threats and provide the documented results.
- Work directly with the Application Development team, to assist with design, implementation, and modification of the DOE Information Systems.
- Research and testing of new technologies and future releases of software and hardware.
- Assist the ISSM in developing and updating documents required by the security directives.
- Assist and facilitate the M&O contractor with testing and implementation of new and existing software and upgrades.
- Gather and perform trend analysis on server and drive utilization

6. Enterprise Content Management

The contractor must provide support for Enterprise Content Management (ECM) Business Functions. The maturation of the ECM business functions is setting out to facilitate a transformational organization change within DOE-SR, with a focus on efficient information discoverability and management. The goal of ECM is to deliver a unified communication platform that provides immediate access to information required to perform organizational tasks, while also providing rigorous governance controls over the information maintained by DOE-SR. One of the mechanisms to achieve this is to evolve the DOE-SR portal environment while surfacing key information to users via targeted workspaces, while enforcing complete content lifecycle management from creation to eventual disposition.

The contractor will provide access to the content stored in the Enterprise Content Management (ECM) Platform and maintain a unified intranet user interface for federal staff. The contractor will configure the ECM solution to permit content owners the ability to edit and update their content. This task is for the evolutionary design and deployment of a technical solution necessary to provide (WYSIWYG) web page editing and version control for the DOE-SR portal.

Specifically, the contractor will perform the following tasks:

- Configure, and maintain the ECM platform.
- Ensure that DOD 5015.2 compliance is met in the provisioning of Electronic Records Management (ERM) application.
- Provide end-user training on new functionality on deployed enterprise class solutions. Specifically, the contractor will perform the following tasks:

- Continually validate the business and functional requirements for proposed ECM solutions.
- Mature the ECM platform to meet DOE-SRs evolving business/ functional challenges.
- Configure the ECM federated search adapters to access content stored in the designated SRS repositories.

The contractor will identify an optimal strategy to migrate the current e-mail management system to an optimized e-mail management system for the ECM platform. Additionally, the contractor will provide optimized configuration requirements for Active Directory utilization.

Specifically, the contractor will perform the following tasks:

- Conduct a functional and technical analysis of current e-mail management system / Active Directory jointly with SRS staff.
- Conduct a functional and technical analysis of Active Directory jointly with SRS staff.
- Design integration between STAR and ECM Platform.

DELIVERABLES

All deliverables required under this task shall be submitted in accordance with the following schedule(s):

PWS Task#	Deliverable Title	Due Date	Frequency and Remarks	Role
8.1.1	Provide report on services impacting end users	5th day of the month	Monthly	Service Center
8.2.1	Provide report on status of each functional area (Projects, Accomplishments, Issues, Risks)	5th day of the month	Monthly	Operations Support
8.2.2	Facilitate the development and deployment of a comprehensive Information Governance Policy at DOE-SR	Report status 5th day of the month	Monthly	Operations Support
8.2.3	Provide schedule and status of upcoming Data Calls	5 th of each Month	Monthly	Operations Support

8.2.4	Provide monthly summary report on “Open” and “Closed” data calls	5 th of each Month	Monthly	Operations Support
8.2.5	Generate annual Report of Processes mapped, published and automated	30-Sep-16	Annually	Operations Support
8.3.1	Provide annual review and update of technical documents per System Development Life Cycle	30-Sep-16	Annual	Software Engineering
8.3.2	Provide annual report on life cycle initiatives to improve application maintenance and	30-Sep-16	Annual	Software Engineering
8.4.1	Conduct annual disaster recovery drill and document lessons learned	30-Sep-16	Annual	Cyber Security
8.4.2	Conducts annual Cyber Incident Response drill and documents lessons learned	30-Sep-16	Annual	Cyber Security
8.4.3	Provide Cyber Security educational campaigns and training (Phishing activities and best practices, etc.)	30-Sep-16	Annual	Cyber Security

8.4.4	As required, document the risk validation and results of self- assessments in our site environment	5th day of the month	As Needed	Cyber Security
8.4.5	Provide annual reviews of technical documents for Cyber Security Procedures (i.e., SSP, Forensics, IR)	30-Sep-16	Annually	Cyber Security
8.4.6	Provide monthly status on Vulnerabilities, top alerts in Splunk, support hours for forensic investigations, and support hours for incident response	5th day of the month	Monthly	Cyber Security
8.4.7	Certification Agent support on developing and performing test cases for certification of networks and systems.	Report Status by 5 th of each month	As Needed	Cyber Security
8.4.8	Vulnerability scanning: contractor shall provide vulnerability scan reports from web application, servers etc...Scan results shall be managed and mitigated in applicable	5 th of each Month	Monthly	Cyber Security
8.5.1	Provide monthly status on license and warranty renewals	5 th of day of the month	Monthly	Enterprise Systems Management

8.6.1	Provide monthly report on the performance of all tasks associated with the disposition of DOE-SR Records, management of DOE-SR Forms, and	5th day of the month	Monthly	Enterprise Content Management
-------	---	----------------------	---------	-------------------------------

8. STANDARD OF ACCEPTANCE PERFORMANCE

QUALITY ASSURANCE ACCEPTANCE

The COR will review what the contractor submits for completeness and may return the deliverables to the contractor if there is any needed correction. Lack of any comments by the COR will not relieve the contractor of the responsibility for complying with the requirements of the contract. Final approval and acceptance required herein will be by letter of approval and acceptance by COR.

The contractor shall not construe any letter of acknowledgment or receipt material as a waiver, review, or as an acknowledgment that the material is in conformance with this work statement. Any approval given during preparation of the documentation, or approval for shipment, shall not guarantee the final acceptance of the completed documentation.

INSPECTION AND ACCEPTANCE CRITERIA

Final inspection and acceptance of all work performed, work products, and deliverables will be performed at the place of delivery by the CO, COR, or assigned designee.

GENERAL ACCEPTANCE CRITERIA – QUALITY MEASURES

General quality measures, as set forth below, will be applied to each Work Product and Deliverable received from the contractor under this contract.

- Accuracy – Work products and deliverables shall be accurate in presentation, technical content, and adherence to accepted elements of style.
- Clarity – Work products and deliverables shall be clear and concise. Any/All diagrams shall be easy to understand and be relevant to the supporting narrative.
- Consistency to Requirements – All work products and deliverables must satisfy the requirements stated herein.
- Timeliness – Work products and deliverables shall be submitted on or before the due date specified in this contract or submitted in accordance with a later scheduled date determined by the Government.
- File Editing – All text and diagrammatic files shall be editable by the Government.
- Format – Work products and deliverables shall be submitted in hard copy (where

applicable) and in media mutually agreed upon prior to submission. Hard copy formats shall follow any specified Directives or Manuals.

9. TRAVEL & OTHER DIRECT COSTS (ODCS)

The Government shall reimburse all approved travel related to the conduct of this contract. Point of origin for travel will be determined as the SRS. All travel will be in compliance with the GSA Travel Regulations. All travel must be approved or authorized by the COR. Requests for travel reimbursements must be submitted monthly, along with vouchers, and include documentation of charges upon request.

10. GOVERNMENT FURNISHED EQUIPMENT / INFORMATION / MATERIALS

Normal computer equipment (tower, monitor, and printer) will be furnished to the contractor. The contractor will be provided adequate hardware and software to fulfill work assignments. The contractor will not be liable for any equipment that is obsolete or “end-of-life” due to funding.

11. PLACE OF PERFORMANCE

The place of performance shall be at the Government’s facility: Savannah River Operations Office, Aiken, SC 29802 or approved work environment.

12. SECURITY

The contractor shall ensure that all personnel assigned under this contract possess a DOE “L” or “Q” access authorization (clearance). The contractor must prescreen all applicants to ensure qualification for awarded clearance.

13. DATA USE, DISCLOSURE OF INFORMATION AND HANDLING OF SENSITIVE INFORMATION

The contractor will be required to sign a non-disclosure form at the beginning of each year of the contract or option year.

14. POINTS OF CONTACT

All questions and concerns will be directed to contact information below. The Contracting Officer is the only individual with the authority to modify the contract that will result from this requirement.

Contracting Officer Representative	Will Tarrant, IT Specialist (Policy and Planning)	(803) 952-7316	will.tarrant@srs.gov
Technical Monitor	Pavan Polur, Records Management Officer (ECM)	(803) 952-6328	Pavan.Polur@srs.gov
Technical Monitor	Roosevelt Lovett, Telecommunication (COMSEC/SIMEX)	(803) 952-9030	Roosevelt.Lovett@srs.gov
Technical Monitor	Hasan Syed, CISO (Classified / Unclassified Cyber Security)	(803) 952-7757	Hasan.Syed@srs.gov
Technical Monitor	Will Tarrant (Capital Planning)	(803) 952-7316	Will.Tarrant@srs.gov
Technical Monitor	Chris Upshaw (Service Center)	(803) 952-7735	Chris.Upshaw@srs.gov
Contracting Officer	David Hepner, Sr.	(803) 952-9354	David.Hepner@srs.gov

15. OTHER ADMINISTRATIVE CONSIDERATIONS

15.1 HOURS OF WORK

Normal Hours of operations are from 6:00 am to 6:00 pm with core hours from 9:00 am to 3:00 pm, Monday through Friday.

15.2 GOVERNMENT HOLIDAYS

The following Government holidays are normally observed by Government personnel: New Year's Day, Martin Luther King's Birthday, Presidential Inauguration (metropolitan DC only), President's Day, Memorial Day, Independence Day, Labor Day, Columbus Day, Veteran's Day, Thanksgiving Day, Christmas Day, and any other day designated by Federal Statute, Executive Order, and/or Presidential Proclamation. In addition, other types of administrative leave include events such as acts of God (i.e., hurricanes, snow storms, tornadoes, etc.), Presidential funerals, or any other unexpected governmental closures.

16. STANDARDS OF CONDUCT

The Contractor will be responsible for maintaining satisfactory standards of employee competency, conduct, appearance, and integrity.

17. CONFIDENTIALITY

All information regarding the work done under this contract must be regarded as sensitive information by the Contractor and not be disclosed to anyone outside the Contractor's organization without the written permission of the Contracting Officer.

18. SKILLS/QUALIFICATIONS OF CONTRACTOR PERSONNEL

Information technology support task requires a unique skill set that must meet or able to acquire the below qualifications. IT Project Manager, Database Administrator, System Administrators, Cyber Security Specialist, and IT Security Engineer requires a "Q" clearance due the nature of the work.

19. TRAINING

The contractor personnel shall successfully complete all applicable site security and safety training required for access to the work site. In order to successfully complete training courses, contractor personnel must obtain passing scores on written and practical examinations. Training time is a reimbursable cost for the first attempt. Subsequent attempts to pass normal site training requirements due to initial failure are non-reimbursable. Contractor can participate in offsite training depending on the availability of funds.

**Information Technology Capital Planning
(IT Capital Planning Consultant)**

1. PURPOSE

The purpose of this requirement is to procure expert services to support federal statutory requirements driven by the Clinger-Cohen Act of 1996 and other related IT Capital Planning and Investment Control (CPIC) program requirements that arise during the next year at the Savannah River Site.

2. BACKGROUND

DOE-SR is located within the Department of Energy’s Savannah River Site (SRS) Operations Office. DOE has a positive recent history and good reputation of a strong CPIC program with functional counterparts at HQ EM.

3. SCOPE

Contractor will provide consulting services to be deployed as needed to fulfill statutory requirements related to the Clinger-Cohen Act of 1996 and IT Capital Planning and Investment Control (CPIC) of IT related costs and other program requirements that arise during the next year at the Savannah River Site. The work will assist in our IT resource requirement reporting obligations to the Office of Management and Budget (OMB) and other projects deemed necessary by the government.

The contractor must provide personnel and resources at an expert level that can perform with our support contractor to reach the deliverable. Performance of these services requires the contractor to produce specific Work Products as identified below.

4. STATEMENT OF WORK WITH DELIVERABLES:

D.1 Deliverable(s)/Deliverable Schedule

Specific Deliverables are located in the table below. Deliverables must be submitted to the Contractor Officer Representatives (COR) for inspection, review, and acceptance. Formal acceptance occurs upon COR signature. The deliverables become the property of the U.S. Government. The government will provide timely comments on each deliverable as necessary. The contractor must incorporate the government’s comments within **two work days** of receipt of the Government’s comments. In the event of rejection of any deliverables, the contractor must be notified in writing by the Government of the specific reasons as to why the deliverable is unsatisfactory. The contractor must return a revised document within **two work days** to the COR. Deliverables are to be submitted electronically and with a cover letter indicating formal delivery.

PWS Task#	Deliverable Title	Due Date	Role
001	Deliver updated eCPIC data via OMB Exhibits 53 and 300 to EM HQ and DOE OCIO	September 30, 2016	Information Technology Capital Planning
002	Monthly requirements for DOE IT Dashboard Compliance Transmit program metrics related to site Exhibit 300s via the eCPIC tool/ IT dashboard monthly to DOE OCIO (through HQ EM)	15 th of each month	Information Technology Capital Planning
Quarterly Requirements for DOE-SR Federal IT Staff (performance metrics) compliance			
003	Work with DOE-SR federal staff to complete metrics and charting data to monitor Exhibit 53 and 300 financial information related to IT	Quarterly (i.e. December, March, June, September)	Information Technology Capital Planning
004	Meet with M&O and federal staff to review financial data trends and exceptions	Quarterly	Information Technology Capital Planning
005	Review 1/3 (rotational basis) of all Exhibits 53 for accuracy in narrative and financial data	Quarterly	Information Technology Capital Planning
Annual Requirements for OMB/DOE OCIO/HQ EM Compliance			
006	Complete required updates of OMB requirements for Budget Year guidance for all Exhibits 53 and 300 in the June-September	September 15, 2016	Information Technology Capital Planning
As needed deliverables driven from HQ requirements			
007	Respond in a timely manner and meet suspense (sometimes short and little/no notice) to requests for information from higher DOE HQ (EM NNSA and	As required during period of performance	Information Technology Capital Planning

5. STANDARDS OF ACCEPTABLE PERFORMANCE

QUALITY ASSURANCE/ACCEPTANCE

The COR will review for completeness of the preliminary or draft Deliverables that the contractor submits and will return it to the contractor if there is any needed correction. Absence of any comments by the COR will not relieve the contractor of the responsibility for complying with the requirements of the contract. Final approval and acceptance required herein will be by letter of approval and acceptance by COR. The contractor shall not construe any letter of acknowledgment or receipt material as a waiver or review, or as an acknowledgment that the material is in conformance with this work statement. Any approval given during preparation of the documentation, or approval for shipment, shall not guarantee the final acceptance of the completed documentation.

INSPECTION AND ACCEPTANCE CRITERIA

Final inspection and acceptance of all work performed, work products, and deliverables will be performed at the place of delivery by the CO, COR, or assigned designee.

6. GENERAL ACCEPTANCE CRITERIA – QUALITY MEASURES

General quality measures, as set forth below, will be applied to each Work Product and Deliverable received from the contractor under this contract.

- a) **Accuracy** – Work products and deliverables shall be accurate in presentation, technical content, and adherence to accepted elements of style.
- b) **Clarity** – Work products and deliverables shall be clear and concise. Any/All diagrams shall be easy to understand and be relevant to the supporting narrative.
- c) **Consistence to Requirements** – All work products and deliverables must satisfy the requirements stated herein.
- d) **File Editing** – All text and diagrammatic files shall be editable by the Government.
- e) **Format** – Work products and deliverables shall be submitted in hard copy (where applicable) and in media mutually agreed upon prior to submission. Hard copy formats shall follow any specified Directives or Manuals.
- f) **Timeliness** – Work products and deliverables shall be submitted on or before the due date specified in this contract or submitted in accordance with a later scheduled date determined by the Government.

7. TRAVEL & OTHER DIRECT COSTS (ODCS)

Travel and ODC should be accounted for in your proposal.

8. GOVERNMENT FURNISHED EQUIPMENT / INFORMATION / MATERIALS

Normal computer equipment (computer, monitor, scanner, printer, etc.) will be furnished to the contractor. Information pertinent to completion of the task will be provided as needed and agreed upon between the COR and contractor.

9. PLACE OF PERFORMANCE

The place of performance shall be at the Government's facility: Savannah River Site in Aiken, South Carolina.

10. SECURITY

11. DATA USE, DISCLOSURE OF INFORMATION, AND HANDLING OF SENSITIVE INFORMATION

12. The contractor will be required to sign a non-disclosure form

13. OTHER ADMINISTRATIVE CONSIDERATIONS

13.1 Hours of Work - Work hours are 8:00am to 5:00pm, Monday through Friday.

13.2 Productive Direct labor Hours - Not applicable.

13.3 Government Holidays - Not applicable.

14. STANDARDS OF CONDUCT

The Contractor will be responsible for maintaining satisfactory standards of employee competency, conduct, appearance, and integrity.

15. CONFIDENTIALITY

All information regarding the work done under this contract must be regarded as sensitive information by the Contractor and not to be disclosed to anyone outside the Contractor's organization without the written permission of the Contracting Officer.

Telecommunications Management and COMSEC Operations Support

1. PURPOSE

The Department of Energy (DOE) Savannah River Operations Office (SR) is acquiring expert technical support services for the DOE-SR Office of Safeguard, Security, and Emergency Services (OSSES). These support services will assist OSSES in accomplishing its assigned functions that include, but are not limited to, the DOE-SR SIMEX message Center and the Communications Security (COMSEC) Program.

The primary goal of this Performance Work Statement is to improve the operating efficiency and effectiveness of OSSES’s mission and core functions through professional analysis, evaluation, design, planning, implementation, and operation of existing and planned DOE telecommunications and COMSEC support.

2. BACKGROUND

The SIMEX Operations essentially performs the following tasks on a routine basis in support of the Department of Energy-Savannah River (SR) activities, Savannah River Nuclear Solutions Company (the SR Operating Contractors), other SR Support Contractors, and other SR Federal activities. COMSEC information is considered especially sensitive because of the need to safeguard U.S. Cryptographic principles, methods, and material against exploitation. The DOE COMSEC Program is governed by DOE Order 470.6, “DOE Technical Security Program,” dated September 2, 2015. Requirements derived from National Security Directive 42 and that order requires at a minimum two mandatory positions: (1) The COMSEC Control Officer and (2) COMSEC Custodian. There must also be alternates appointed for both positions.

These positions are designed to ensure a double check system and satisfy the basic security elements of the “two man rule.” It is contrary to best practices and principles to have a single COMSEC person on duty by themselves.

3. SCOPE

The objective of this performance work statement is to acquire expert technical support to assist OSSES in the operation and monitoring of all equipment and systems associated with the DOE-SR SIMEX Message Center (STU-III’s, STE/data/cryptographic/facsimile equipment, etc.). To perform these responsibilities in a timely and effective manner, OSSES has a need for support function involving a broad range of technical and administrative skills in the areas that include, but are not limited to: threat assessment, risk management security system evaluation, and the management and control of all items associated with the DOE-SR SIMEX Message Center.

Management and control of all items associated with the DOE-SR COMSEC Account and the proper handling, control, and storage of such items. Over the counter message center service shall be provided, including classified narrative, data, and facsimile traffic. All messages released shall adhere to all applicable DOE and SRS Security requirements. This includes, but is not limited to, the SIMEX Security Plan, DOE Notice 205.1-3, and SRS Cyber Security Protection Plan (CSPP).

The contractor shall provide qualified personnel and supporting resources, as appropriate, to deliver efficient and cost effective support services for the requirements described below. Performance of these services requires the contractor to produce specific Work Products as identified below.

- Provide direct field work and support with the operation and monitoring of all equipment and systems associated with the DOE-SR SIMEX Message Center. Provide support to DOE-SR Communications Security (COMSEC) Accounts at the Savannah River Site and activities where DOE-SR is responsible and/or serves “Landlord” responsibilities.
- Provide assessment and communications to designated individuals of any work request or communication plans and provide corrective actions.
- Provide specialized technical support services, including the analysis and evaluation of emerging technology, to support the SIMEX operation and report the impact they have on present and future communications services and budget programs.
- Within the last thirty-six months SRS has added two new Sensitive Compartmented Information Facilities requiring COMSEC support and was delegated over sight responsibilities of the EMCBC in Cincinnati, OH and Bldg 55 at the Federal Center also in Denver, CO where Rocky Flats records are stored.

4. STATEMENT OF WORK WITH DELIVERABLES:

D.1 PREPARE REPORTS, REVIEW AND COORDINATION

This will be done on an as needed basis, with the DOE-SR staff to identify and resolve any problems. Problems will be coordinated through the appropriate DOE-SR Technical Monitor.

D.2 REPORTS OF PROGRESS

The Contractor shall provide technical inputs and recommendations for development of new and/or revised procedures for the effective and efficient operation of the DOE-SR SIMEX, as well as the COMSEC functions. This support will include such areas as new equipment/systems, submission of updates to the DOE-SR Security Plan, DOE-SR Policies and Procedures, performing research, and development and editing activities. The contractor will:

1. Process incoming/outgoing data and narrative classified/unclassified messages.

2. Train new personnel on the utilization of COMSEC equipment.
3. Provide support to the two-person integrity control for destruction of classified keying material in accordance with National Security Agency (NSA) guidelines.
4. Responsible for trouble calls (equipment malfunctions) involving COMSEC equipment in different areas of the Site. Average length of a trouble call is 3 hours.
5. Responsible for Courier trips to Fort Gordon and Bush Field Airport to pick-up COMSEC keying material in accordance with NSA guidelines.
6. Provide secure telephony Facsimile (Classified) support.
7. Provide SIMEX Facsimile, Narrative and Data sets (Classified) support.
8. Provide Computer System Security support.
9. Provide Derivative Classifier & Reviewing Official support.
10. Provide secure telephony and COMSEC support to disperse area.
11. Provide publication/ mailing support.
12. Perform SRSOC weekly classified Video Teleconferencing System set-up.
13. Evaluate COMSEC Security Plans.
14. Administer COMSEC Briefings and Training.
15. Provide Cryptographic maintenance and installation technicians.
16. Provide recommendations on how to improve ongoing COMSEC work scope activities to make the work safer and/or more efficient.
17. Provide support to the Office of Counterintelligence with their COMSEC equipment and network.
18. Provide support to other DOE sites that OSSES is responsible for.

D.3 DELIVERABLES/DELIVERABLE SCHEDULE

1. The contractor shall be responsible for producing deliverables in the form of reports, documents, spreadsheets, flowcharts, diagrams, and the completion of forms. All deliverables shall be timely, accurate, complete, and professional. Then, forwarded to the DOE-SR Technical Monitor.
2. The contractor shall provide performance and status reports on contractor activities in the Weekly Activity Report, including the Unscheduled Deliverable Log.

D.4 Task Direction

The Contracting Officer's Representative (COR) will provide task direction. The contractor Task Manager and the COR will regularly discuss project planning, deliverables, scheduling and other day-to-day events. The COR will coordinate any changes in task direction. Any changes will be noted in the Monthly Activity Report and the Weekly Activity Report, including the Unscheduled Deliverable Log and sent to the DOE-SR Technical Monitor.

D.5 Deliverables

1. The contractor shall be responsible for producing deliverables in the form of reports, documents, spreadsheets, flowcharts, diagrams, and the completion of forms. All deliverables shall be timely, accurate, complete, and professional.
2. The contractor shall provide performance and status reports on contractor activities in the Weekly Activity Report, including the Unscheduled Deliverable Log.

D.6 Hours of Operations (Modification 0007)

SIMEX Message Center: 6:00 AM – 6:00 PM – Monday through Friday

SIMEX is required to be open during the following three Federal

Holidays:

- Martin Luther King, Jr. Birthday,
- Columbus Day and
- Veteran's Day.

**STATEMENT OF WORK FOR FIELDING
DESKTOP AND LAPTOP COMPUTERS
(IT Technician (Load / Sanitize Computers)(NTE 180 days)**

DOE-SR is in the process of procuring numerous laptop and desktop computers to replace aging systems at the Savannah River Site. In order to field the systems, properly sanitize laptop/desktop systems, and maintain the current level of helpdesk support, DOE-SR requires temporary employment for individuals with skills to support the following work.

DUTIES:

1. Installation and configuration of various software including but not limited to:

- A. Microsoft Windows operating system (Windows 7 and Windows 10)
- B. Microsoft Windows Office (Office 2010, Office 2013 and Office 365)
- C. Adobe Acrobat and Adobe Acrobat Reader
- D. Microsoft Internet Explorer
- E. Lotus Notes (Email)
- F. Adobe Creative Cloud Suite

Installation of software may be accomplished through the use of a “ghost” image or through software loads located on DOE-SR servers.

2. Installation and configuration of disk encryption software (Symantec Endpoint Encryption).

3. Sanitization of hard disk drives on replaced systems to insure removal of all DOE-SR data using DA Purge (Disk Amnesia) software.

4. Assist end-user in the backup of data from their desktop computer to a network drive and restoring the data to their new computer.

5. Installation of various computer hardware components including but not limited to desktop computers, laptop computers, docking stations, monitors, printers and scanners.

6. Installation of drivers to supporting various peripheral devices including printers and scanners.

7. Configuration and testing of network and VPN connections.

8. Inventory of IT equipment including but not limited to desktops, laptops, printers, and secure id tokens.

9. Other duties necessary to support this initiative but not described in the statement of work.

SKILL LEVEL:

1. Individual must possess a working knowledge of Intel based computer systems, Windows operating systems, Office automation software, and peripheral devices.
2. Individual must possess basic troubleshooting skills to identify and correct problems during the installation of hardware and software.

WORK ENVIRONMENT:

Work will be generally performed in an office environment. However, walking, bending and sitting during performance of duties is required. Travel between numerous buildings is required. Lifting of computer equipment weighing up to 75 pounds may be required.

DUTIES HOURS:

Normal duty hours are between 7:00 AM and 5:00 PM

Performance Standard	Acceptable Quality Level	Method of Surveillance

DELIVERABLES

All deliverables required under this task shall be submitted in accordance with the following schedules.

PWS Task#	Deliverable	Due Date	Frequency and Remarks
1	Load and deploy ten desktop systems	Each Friday	Weekly
2	Return to inventory and sanitize ten desktop systems	Each Friday	Weekly

DOE DIRECTIVES, LAWS, REGULATIONS, MANUALS AND PROCEDURES

- DOE Desktop –Laptop Deployment Checklist
- DOE Desktop – Laptop Sanitization Procedure

LIMITATION:

These are temporary positions working a 40 hour work week not to exceed 180 calendar days (6 months).

Program Analysts
(Program Analyst)

Under this contract, the contractor shall provide administrative support services to various office elements located at the SRS. Duties may include, but are not limited to:

A. Program Analyst

- Assist in the design and development of a project specific document control system, integrating with the existing site document control system as necessary.
- Review multiple information systems for relevant documents, retrieve those documents, and incorporate them into a central library as required.
- Assist in maintaining a schedule and managing the submittal of project documents and deliverables.
- Plan, coordinate, and organize meetings, conference calls, and events as directed. Size of event may range from 2 to over 500 attendees. Attend events as directed and take meeting minutes / notes as required.
- Develop content and prepare presentations in various mediums on a broad range of topics for approval as assigned.
- Develop content and prepare written communications on a broad range of issues as directed.
- Monitor a broad range of communication in various mediums in order to make scheduling determinations and recommendations to assigned Federal staff.
- Maintain daily schedule of assigned Federal staff as directed.
- Have a thorough understanding of the mission, objectives, and organizational structure (both on and off-site, Federal and contractor) of the office to which assigned, in order to better interface and facilitate communications.
- Communicate and interface with Government and contractor executives (including their assigned staff) to facilitate activities as assigned.
- Place and track routine maintenance requests with responsible office as required.

B. Place of Performance

The work to be performed under this contract will be performed at Savannah River Site unless otherwise notified.

C. Government Furnished Resources /Government Furnished Equipment (GFE)/Government Furnished Information (GFI)

The Government will furnish all facilities, materials, property, and equipment for on-site use in the performance of this contract as specified. Under limited circumstances, such as during meetings held in off-site locations, the Government will provide facilities, materials, property, and equipment for tasks not requiring a continuous on-site presence. The following will be provided during on-site activity of this contract:

- a. Computer system with access to the site network.
- b. A work area consisting of a desk, telephone, temporary storage for equipment, and office supplies applicable to the job.
- c. Access to a copier, scanner, and FAX machine.

D. Travel Requirements

The Government shall reimburse all travel related to the conduct of this contract. Point of origin for travel will be determined as the SRS. All travel will be in compliance with the Federal Travel Regulations (FTR). All travel must be approved or authorized by the COR. Requests for travel reimbursements must be submitted monthly, with vouchers, and include documentation of charges if requested.

E. Schedule of Deliverables

All deliverables required under this task shall be submitted in accordance with the following schedules:

PWS Task#	Deliverable Title	Format	Due Date	Distribution/Copies	Frequency and Remarks
E.7.1	Monthly Progress	TBD	Monthly on date	1 copy	Monthly
E.7.1	General Review of Documents with Technical Corrections and a specified	Word	TBD As needed	As needed	As needed

- Savannah River Operations Office Correspondence Guide November 2015**

OFFICE OF ACQUISITION MANAGEMENT (OAM)**Contractor Industrial Relations Team (CIRT) Support**
(Contractor Industrial Relations Team (Labor Relations))

Under this contract, the contractor shall provide administrative support services to various office elements located at the SRS. Duties may include, but are not limited to:

Contractor Industrial Relations Team Support (CIRT)

- The contractor shall be available to provide assistance in response to requests for assistance on related CIRT issues. This includes responding to requests from SRS Budget, Finance, Contracts Management, and HQ Legal for review of and comments on documents related to Pensions, Benefits, Compensation, Workers Compensation, Labor Relations, and Workforce Restructuring. Sub tasks may include (but are not limited to):
 - Review and recommend DOE actions on routine submissions of such documents as Salary Increase actions, Compensation Increase Plans (CIP), Workers Compensation, and Pension programs.
 - Develop and submit program deliverables for CIRT (reports due etc.).
 - Provide briefing charts and notes in subject areas as requested by DOE.
 - A final report to include identification of concerns, issues, observations, recommendations, and all corrective actions taken/recommended.
- The contractor shall provide assistance in ensuring adherence to DBA and other regulatory requirements. Sub tasks may include (but are not limited to):
 - Conduct labor checks at SRS facilities (comparing time cards, wage rates, etc.) for accuracy and compliance to regulatory requirements.
 - Examine payroll submissions for accuracy and compliance to regulatory requirements.
 - Receive and process draft electronic Standard Form 98 (E98) requests and update (E98) request log as needed.
 - Provide any Department of Labor comments to DOE-SR for resolution.
 - Develop CIRT file plan and maintain CIRT file system.
- As journeyman-level resources, prepare responses for the Director, Acquisition Operations Division (or designee), to inquiries from HQ, SRS, and other DOE organizations on the parameters of/among other statutes, the Davis Bacon Act (DBA), McNamara O’Hara Service Contract Act, and the Public Contract Act.
- Prepare progress briefings as needed. Sub tasks include (but are not limited to):
 - Brief progress verbally on a bi-weekly basis to the Director, Acquisition Operations Division.
 - Provide update briefings, as requested.
 - Provide updates to E-98 tracking system, as needed.

A. Place of Performance

The work to be performed under this contract will be performed at Savannah River Site unless otherwise notified.

B. Government Furnished Resources / Government Furnished Equipment (GFE) / Government Furnished Information

The Government will furnish all facilities, materials, property, and equipment for on-site use in the performance of this contract as specified. Under limited circumstances, such as during meetings held in off-site locations, the Government will provide facilities, materials, property, and equipment for tasks not requiring a continuous on-site presence. The following will be provided during on-site activity of this contract:

- a. Computer system with access to the site network.
- b. A work area consisting of a desk, telephone, temporary storage for equipment, and office supplies applicable to the job.
- c. Access to a copier, scanner, and FAX machine.

C. Travel Requirements

The Government shall reimburse all travel related to the conduct of this contract. Point of origin for travel will be determined as the SRS. All travel will be in compliance with the Federal Travel Regulations (FTR). All travel must be approved or authorized by the COR. Requests for travel reimbursements must be submitted monthly along with vouchers and must include documentation of charges, if requested.

D. Schedule of Deliverables

All deliverables required under this task shall be submitted in accordance with the following schedules:

PWS Task#	Deliverable Title	Format	Due Date	Distribution/Copies	Frequency and Remarks
D.1	Provide Department of Labor comments to DOE-SR for resolution	TBD	Within 3 days of verification	As needed	As needed
D.1.1	Review and recommend DOE actions on routine	As specified	Within 5 days of verification.	As needed	As needed

D.2.1	Develop and submit program deliverables for CIRT (reports due, etc.).	As needed	2 business days after DOE review and acceptance	As needed	As needed
D.3.1	Provide briefing charts and notes in subject areas as requested by DOE.	As specified	2 business days after DOE review and acceptance.	As specified	As specified
D.4.1	Final report to include identification of concerns, issues, observations, recommendations, and corrective actions taken /	As needed	2 business days after DOE review and acceptance.	As needed	As needed
D.4.2	Conduct onsite labor checks five days per month.	As needed	Within 3 days of verification.	As needed	As needed
D.4.2	Compare less than 1% of assigned weekly payroll to labor checks conducted.	As needed	Within 5 days of verification.	As needed	As needed
D.5.1	Receive and process draft electronic Standard Form 98 requests; update e98 log.	As needed	Within 3 days of verification.	As needed	As needed
D.5.2	Develop and maintain CIRT file system and plan.	As needed	Ongoing	As needed	As needed

A. Performance Standards

General quality measures, as set forth below, will be applied to each work product and deliverable received from the contractor under this contract.

Performance Standard	Acceptable Quality Level (AQL)	Method of Surveillance
Accuracy- Work Products and deliverables shall be accurate in the presentation, technical	95% of the time	Routine inspection of deliverable products.

adherence to accepted elements		
Clarity- Work products and deliverables shall be clear and concise. Any/All diagrams shall be easy to understand and be relevant to the supporting	95% of the time	Observance of performance and work products.

Contract Specialist Support Services

(Contract Specialist II)

1. PURPOSE

The purpose of this requirement is to procure the services of a contractor to provide senior OAM technical contract management support to assist the Office of Acquisition Management (OAM) in Contract Administration of multi-billion dollar cost reimbursement type Environmental Management contracts at the Department of Energy's Savannah River Site in Aiken, South Carolina.

2. BACKGROUND

OAM is located within the Department of Energy's Savannah River Site (SRS) Operations Office. OAM awards and administers contracts for the SRS Management and Operating (M&O) Contracts and other contracts for goods and services required by the Site.

3. SCOPE

This contract will support the Government contracting requirements for the site. The contractor will provide expertise in the areas of advising and assisting program personnel in procurement matters and provide contract management support services.

The contractor will provide senior level contract administration support for OAM to administer the site's complex. Multi-billion dollar cost-reimbursement operating and management contracts and other contracts as required and prepare and submit reports per the requirements of the FAR, DOE, and EM guidance and direction. The contractor must have an advanced understanding of the Federal acquisition process, data collection, reporting of acquisition-related input (i.e., FPDS, STRIPES, and other systems required), and is required to work seamlessly without supervision within a team environment in support of site missions.

The contractor must provide personnel and resources as appropriate to deliver efficient and cost-effective support services for the requirements described below. Performance of these services requires the contractor to produce specific Work Products as identified below.

4. STATEMENT OF WORK WITH DELIVERABLES

4.1 Prepares contract modifications/new contracts/financial assistance instruments.

- 1) Identifying clauses to be included and submitting to Contracting Officer (CO) for inclusion
- 2) Identifies special advertising required (Fed BizOpps, synopsis text, and any other requirements) and entry of this data into the cited systems
- 3) Identifies, prepared and processes requirements to interact with the US Small Business Administration, as appropriate

4.2 Assists in developing contracts, grants, cooperative agreements, interagency agreements, or any other type of contractual arrangement to include description/scope of work, budget, cost

provisions, general terms and conditions, special provisions, reporting requirements, etc. The contractor must be able to perform the following:

- 1) Administration of contract modifications and/or new contracts/financial assistance instruments
- 2) Files and understands the maintenance of contracts once amended/awarded
- 3) Maintains automated system updates accurately and timely – STRIPES, FPDS, and other required systems

4.3 Assists in processing all requests for contract and instrument modifications or amendments. Prepares all records of negotiation and supplemental agreements associated with the modifications for the Contracting Officer in addition to:

- 1) Collecting and organizing information related to Federal funds
- 2) Preparing and submitting accurate reports on subcontracts reviews accurately and timely – as required
- 3) Review and process invoices for CO approval
- 4) Consults with Contracting Officers and provides advice on complex contract administration issues such as contractor claims, requests for equitable adjustments, fee determinations, etc.

4.4 Assists in preparing termination notices and negotiates termination settlements; Collects and organizes termination information.

4.5 **Deliverables/Deliverable Schedule**

Specific Deliverables are located in the table below. Deliverables must be submitted to the supported Contracting Officer or Contracting Officer Representative (COR) for inspection, review, and acceptance. Formal acceptance occurs upon CO signature. The deliverables become the property of the U.S. Government. The

government will provide timely comments on each deliverable as necessary. The contractor shall incorporate the government’s comments within **two business days** of receipt. In the event of rejection of any deliverables, the contractor will be notified in writing by the Government of the specific reasons why deliverable is unsatisfactory. The contractor must return a revised document within **two business days** to the COR. Deliverables are to be submitted electronically to include a cover letter indicating formal delivery.

WBS Reference	CL I N	Deliverable	Draft Due	Final	Responsibility
4.1		Prepares for contract modifications/new contracts/financial assistance instruments			
4.1	0001	Identify clauses to be included and submitting to CO for	As needed		Contractor
4.1	0002	Identify special advertising required (Fed BizOpps, synopsis text, other etc. requirements) and enter the data accordingly	As needed		Contractor
4.1	0003	Identify, prepare, and process requirements to interact with the US Small Business Administration as appropriate	As needed		Contractor

4.6 Qualifications of Contractor Support Personnel

Contractor will provide qualified staffing familiar with information management/technology and with advanced knowledge of Federal contract reporting functions.

- 1) Information Management/Technology skills – knowledge of workstation hardware, software, and network resources in order to accomplish work tasks. Experience with internet-based systems is required, i.e., FPDS, FedBizOpps.
- 2) Functional skills in the subject matter – knowledge of contract administration laws and regulations as well as familiarity with Federal policies and procedures.
- 3) Familiarity with the contract administration and reporting requirements. Minimum requirements are as follows:
 - a. Minimum 15 years Federal contracting experience with knowledge of
 - b. Federal contract administration laws and regulations.
 - c. Knowledgeable in relation to Federal policies and procedures as it directly relates to contract administration.
 - d. Aids in the preparation of contractual provisions and the administration of contract proposals.
 - e. Responsible for preparing bids (specifications and contractual provisions).
 - f. Must be proficient in the use of office equipment, including computers, scanners, fax, and copiers.
 - g. Must be proficient in Internet based systems including, but not limited to, the following: Federal Procurement Data System (FPDS), FedBizOpps, and Strategic Integrated Procurement Enterprise System (STRIPES) or its commercial equivalent of 'PRISM.'
 - h. Ability analyze contract data to include (but not limited to) financial information, performance metrics, tracking and trending of contract performance.
 - i. Must be an effective communicator (oral and written).
 - j. Have an ability to work professionally with individuals and diverse groups.
 - k. Must be proficient in the use of Microsoft Office (Word/Excel/PowerPoint), Internet Explorer, Lotus Notes, and Adobe Reader.
 - l. Have well-developed time management skills.

m. Personnel will be required to sign a non-disclosure agreement.

5. STANDARDS OF ACCEPTABLE PERFORMANCE

5.1 QUALITY ASSURANCE/ACCEPTANCE:

The COR will review for completeness, preliminary or draft Deliverables that the contractor submits and may return the deliverables to the contractor for correction. Lack of any comments by the COR will not relieve the contractor of the responsibility to comply with the requirements of the contract. Final approval and acceptance required herein will be by letter of approval and acceptance by CO. The contractor shall not construe any letter of acknowledgment or receipt material as a waiver or review, or as an acknowledgment that the material is in conformance with this work statement. Any approval given during preparation of the documentation, or approval for shipment, shall not guarantee the final acceptance of the completed documentation.

5.2 INSPECTION AND ACCEPTANCE CRITERIA

Final inspection and acceptance of all work performed, work products, and deliverables will be performed at the place of delivery by the CO.

5.3 GENERAL ACCEPTANCE CRITERIA – QUALITY MEASURES

General quality measures, as set forth below, will be applied to each Work Product and Deliverable received from the contractor under this contract.

- a. **Accuracy** – Work products and deliverables shall be accurate in presentation, technical content, and adherence to accepted elements of style
- b. **Clarity** – Work products and deliverables shall be clear and concise. Any/All diagrams shall be easy to understand and be relevant to the supporting narrative.
- c. **Consistent with Requirements** – All work products and deliverables must satisfy the requirements stated herein.
- d. **File Editing** – All text and diagrammatic files shall be in a format that may be edited by the Government.
- e. **Format** – Work products and deliverables shall be submitted in hard copy (where applicable) and in media mutually agreed upon prior to submission. Hard copy formats shall follow any specified Directives or Manuals.
- f. **Timeliness** – Work products and deliverables shall be submitted on or before the due date specified in this contract or submitted in accordance with a later scheduled date determined by the Government.

6. TRAVEL

Travel and ODCS will be authorized in accordance with the Contract Terms and Conditions.

7. GOVERNMENT FURNISHED EQUIPMENT / INFORMATION / MATERIALS

Work will take place in a Government office. Normal computer equipment (computer, monitor, scanner, printer) will be furnished to the contractor. Information pertinent to the OAM will be provided as needed and agreed upon between the COR and contractor.

8. PLACE OF PERFORMANCE

The place of performance shall be at the Government's facility: Savannah River Operations Office, Building 730-B, PO Box A, Aiken, SC 29802.

9. PERIOD OF PERFORMANCE

The period of performance for the requirement will be as specified in the schedule of supplies/services.

10. TYPE OF CONTRACT

11. SECURITY

A General Site Access photo badge is required for access (entry and exit) to the Site.

12. DATA USE, DISCLOSURE OF INFORMATION AND HANDLING OF SENSITIVE INFORMATION

❖ The contractor will be required to sign a non-disclosure form

All data received, processed, evaluated, loaded, and/or created as a result of this contract shall remain the sole property of the Government unless specific exception is granted by the Contracting Officer.

13. POINTS OF CONTACT

All contract questions and concerns will be directed to the Contracting Officer, contact information identified below. **The Contracting Officer is the only individual with the authority to modify the contract that will result from this requirement.**

All questions and concerns will be directed to the DOE-SRS CO contact information identified below. **The Contracting Officer is the only individual with the authority to modify the contract that will result from this requirement.**

13.1	Contracting Officer for Support Services Contracts	David Hepner, Sr.	Savannah River Operations Office P.O. Box A Aiken SC 29802	Phone: 803-952-9354	David.hepner@srs.gov
13.2	Contracting Officer Representative	Tonya Tillman	Savannah River Operations Office P.O. Box A Aiken SC 29802	Phone: 803-952-6022	Tonya.tillman@srs.gov

14. RESERVED

15. NORMAL OFFICE HOURS

15.1 Normal Hours of operations are from 6:00 am to 6:00 pm with core hours from 9:00 am to 3:00 pm, Monday through Friday

The following Government holidays are normally observed by Government personnel: New Year’s Day, Martin Luther King’s Birthday, Presidential Inauguration Day (metropolitan DC only), President’s Day, Memorial Day, Independence Day, Labor Day, Columbus Day, Veteran’s Day, Thanksgiving Day, Christmas Day, and any other day designated by Federal Statute, Executive Order, and/or Presidential Proclamation, or any other kind of administrative leave such as acts of God (i.e., hurricanes, snow storms, tornadoes, other events), Presidential funerals, or any other unexpected government closures.

16. STANDARDS OF CONDUCT

The Contractor will be responsible for maintaining satisfactory standards of employee competency, conduct, appearance, and integrity.

17. CONFIDENTIALITY

All information regarding the work done under this contract must be regarded as sensitive information by the Contractor and not to be disclosed to anyone outside the Contractor's organization without the written permission of the Contracting Officer.

Contract Closeout Specialist

This position will remain vacant and unfunded until a modification is issued to fund the position and work scope.

The contractor shall provide the necessary labor and technical expertise to support the Office of Acquisition Management's closeout, auditing operations, and activities under the instruction of the Contracting Officers Representative. Services shall include close-out of expired Federal instruments and auditing, analysis, researching of active SR contracts functions that will include, but is not limited to, the following:

1. Contract Closeout Specialist

- Responsible for initiating, verifying, abstracting, tracking, and completion of all expired Federal Contracts, Financial Assistance Instruments, and Interagency Agreements listed on Close-out Report and in the procurement system, Strategic Integrated Procurement System (STRIPES), in support of the organizations mission.
- Provide technical and administrative contract support services to a large Savannah River Operations Office (SR) organization with formalized substructure (i.e., Office of Acquisition Management including Contracts Management Division, Acquisition Operations Division, and Capital Projects Division.
- Responsible for knowledge and understanding of the various types of Government contracts, financial assistance instruments, inter-agency agreements, and various Federal procurement laws and regulations. This knowledge includes a working understanding of the Federal Acquisition Regulations and Department of Energy Acquisition Regulations. Has ability to review and audit all types of contracts for consistency and/or disparities.
- Provide independent, efficient, and effective interface with support customers such as program/technical office(s), finance personnel, Federal, state, and local government agencies, universities, and private industry either face-to-face or via telephone or email.
- Provide data entry in support of the task for Contract Close-out, for the Department of Energy Savannah River Operations Office (DOE-SR). Responsible for knowledge of and ability to maneuver in several systems including, but not limited to, the following: Strategic Integrated Procurement System (STRIPES, Procurement

Assistance Data System (PADS), Federal Procurement Data System Next Generation (FPDS-NG), Information Data Warehouse (IDW), Business Intelligence (BI), and Undelivered Orders (UDO) Tracking System.

- Execute reports in support of the task; (FPDS contract reports, UDO reports, etc.) in support of the Procurement Operations Team; (Uncosted Reports – Credit Card Awards, Simplified Acquisitions Report, etc.) in support of Acquisition Operations Division; (In-Active Contract Report in PADS, New Award Detail Report) and in support of the Office of Acquisition Management (OAM); (Contract Data Reports (CDR) for contracting officers, Annual Contracting Activity Report).
- Prepare, sort, compile, type, and distribute close-out correspondence for OAM as specified in the task procedures. (Close-out letter, sent to contractors; Draft modifications to be signed by Contracting Officers; Completion Memo and Letter to be forwarded to Finance Division; Letters for Patent Review – sent to DOE-SR Legal; Property Certificate – forwarded to Property Team; and maintain Close-out portion of Quarterly Report).
- Provide a broad range of assistance in compiling reports and composing correspondence for DOE–Headquarters and DOE-SR, organizing support documentation, reviewing and finalizing documents for DOE Program Manager’s, Contracts Specialist and Contracting Officer signatures to be transmitted to various contractors and educational institutions.
- Research SRS Contract and Finance Records for supporting documentation to balance Chief Finance Officer (CFO) totals with contract files and data on FPDS reports in preparation of close-out.
- Justify and balance CDR with each Federal Contract, Financial Assistance Instrument, and Interagency Agreement in preparation of close-out.
- Review, balance, and justify submitted invoices to DOE-SR on active, as well as, completed contracts as directed by the Task Manager utilizing various methods including Close-out Report and STRIPES.
- Participate in meetings and attend training.
- Serve as close-out liaison between OAM and CFO by reconciling funds and insuring accuracy of reports. Records Management Coordinator for Close-out. Responsible for preparing all file documents for scanning and archiving which includes: removing all fasteners, copying ununiformed documents, removing duplicate copies, organizing documents, and boxing. Also, responsible for filling out Records Transmittal Index Sheet, labeling boxes, and contacting Records Management. Track contract close-outs and funds recouped quarterly and yearly.
- Provide auditing services for active contracts.

- Analysis and reconciliation of invoices submitted on contracts to ensure contractor has correctly coded and billed the Government. Verify submitted information to ensure sufficient funds have been obligated to cover current costs as billed by the contractor
- Research any discrepancies found in review of invoices and recommend appropriate course of action (rejection, disallowance of cost, etc.). Provide recommendations on the resolution of any unusual differences, recurring questionable transactions, or unallowable charges.
- Maintain an up-to-date ledger for contracting cost and costs incurred to date on current contracts against invoices.

2. Place of Performance

The work to be performed under this contract will be performed at Savannah River Site unless otherwise notified.

3. Government Furnished Resources / Government Furnished Equipment (GFE) / Government Furnished Information (GFI)

The Government will furnish all facilities, materials, property, and equipment for on-site use in the performance of this contract as specified. Under limited circumstances, such as during meetings held in off-site locations, the Government will provide facilities, materials, property, and equipment for tasks not requiring a continuous on-site presence. The following will be provided during an on- site activity under this contract:

- a. Computer system with access to the site network.
- b. A work area consisting of a desk, telephone, temporary storage for equipment, and office supplies applicable to the job.
- c. Access to a copier, scanner, and FAX machine.

4. Travel Requirements

The Government shall reimburse all travel related to the conduct of this contract. Point of origin for travel will be determined as the SRS. All travel will be in compliance with the Federal Travel Regulations (FTR). All travel must be approved or authorized by the COR. Requests for travel reimbursements must be submitted monthly, along with vouchers, and must include documentation of charges, if requested.

5. Schedule of Deliverables

All deliverables required under this task shall be submitted in accordance with the following schedules:

PWS Task#	Deliverable Title	Format	Due Date	Distribution/Copies	Frequency and Remark
5.1	Contract Closeout Listing TO Procurement	Word	Status Updated On-going basis	1 copy	Weekly
5.2	Contract Closeout	Word	10 day of month	1 copy	Quarterly
5.3	Uncosted credit Card Awards	pdf	Monday(s)	1 copy	Weekly

6. Performance Standards

General quality measures, as set forth below, will be applied to each work product and deliverable received from the contractor under this contract.

Performance Standard	Acceptable Quality Level (AOL)	Method of Surveillance
Accuracy- Work products and deliverables shall be accurate in the presentation, technical content, and adherence to accepted elements of style.	95% of the time	Routine inspection of deliverable products.
Clarity- Work products and deliverables shall be clear and concise. Any/All diagrams shall be easy to understand and be relevant to the supporting narrative.	95% of the time	Observance of performance and work products.

Consistence to Requirements- All work products and deliverables must satisfy the requirements stated herein.	100% of the time	Routine inspection of deliverable products.
Timeliness - Work products will be submitted on or before assigned deadlines, as provided, with each deliverable.	100% of the time	Routine inspection of deliverable products.
Format- Work products and deliverables shall be submitted in hard copy (where applicable) and in media, mutually agreed upon, prior to submission. Hard copy formats shall follow any specified	95% of the time.	Routine inspection of deliverable products.
File Editing- All Text and diagrammatic files shall be editable by the Government.	100% of the time.	

7. Directives, Laws, Regulations, Manuals and Procedures

The following publications are applicable to this performance of this task:

- Public Law 92-463 (Federal Advisory Committee Act)
- 41 Code of Federal Regulations (CFR) Chapters 300 – 304 (FTR)
- DOE Order 243.1 (Records Management)
- DOE Manual 515.1-1(Advisory Committee Management Program)
- DOE Publication 141.2 (Public Participation and Community Relations)
- Savannah River Operations Office (SR) Implementing Procedure (SRIP) 243.1 (Records Management Program)
- SR SRIP 560.1 (Authorized Use of Government Telecommunications Systems)

OFFICE SUPPORT SERVICES

A. Office Support Services

The contractor shall provide the necessary labor and technical expertise to successfully execute the support services required under this contract. Services shall include operation of the Office Services (ex. Movers and Material Coordinator), and Conference Room, Government Vehicle Motor Pool Coordinator, and Facilities Work Orders.

B. Material Coordinator

- Safely operate vehicle(s) to support approved movement of items (i.e. furniture/supplies/etc.) within the site barricade boundary as necessary to complete requests for service on approved SR Form 62.
- Maintain inventory of furniture in the provided storage facility in accordance pre-determined levels. Request re-supply through the Task Manager.
- Maintain inventory of expendable supplies (boxes, copier paper, etc.) in accordance with pre-determined levels. Request re-supply through the Task Manager.
- Coordinate assigned staff to complete requests for service on approved SR Form 62 within 10 working days of approval by the Task Manager under the supervision of the Program Manager for Administrative Support Services (Non-IT).
- Determine what (if any) additional items (cubicle parts, furniture, etc.) or services (i.e. termination of electrical power) are required for work order completion. Ensure that necessary parts are on hand / on order for Laborer support to complete assigned tasks.
- Perform review of requested reconfigurations of assigned housing areas and conference rooms to determine feasibility, identify potential impacts to other occupants, and establish and provide a timeline to complete the requested work for approval.
- Provide support to Laborer task as needed.
- Receive approved service requests from DOE Task Manager and enter request into tracking database.
- Coordinate with customers of approved service requests as required and document any special instructions into tracking database.
- Ensure approved service requests are closed when all associated work is complete.
- Maintain accountability and inventory of keys used for DOE Furniture (desks / file cabinets, etc.)

C. Office Services (Movers)

(Laborer)

- Safely operate vehicle(s) to support approved movement of items (i.e. furniture/supplies/etc.) within the site barricade boundary, as necessary, to complete requests for service on approved SR Form 62.
- Complete requests for service on approved SR Form 62 within 10 working days of approval of the Task Manager under the supervision of the Material Coordinator.
- Perform minor repair of furniture items (i.e. casters/loose parts/lubrication of parts/ etc.) under the supervision of the Material Coordinator.

- Hang small items (i.e. whiteboard / picture) per service request as approved by DOE Task Manager. Task Personnel are not authorized to conduct wall penetration work (i.e. install nail / screw / anchor) under the supervision of the Material Coordinator.
- Perform approved reconfiguration and rearrangement of items within assigned housing area and conference rooms (i.e. furniture, cubicle wall, partitions, etc.) under the supervision of the Material Coordinator. Contractor may not relocate power lines extending from the plenum of any facility, but may reconfigure power within cubicle partitions once power has been terminated to the effected section (Termination of power to areas will be completed by other site resources). Contractor may not at any time relocate any media lines (telephone / Internet), but may install junction boxes within the space for telecommunications service provider to terminate connections.
- Provide support to other tasks as approved under the supervision of the Material Coordinator.

F. Conference Room, Facilities Work Order and Government Vehicle Motor Pool Coordinator

- Maintain automated database to reflect current and future vehicle requests. Database will contain (at a minimum) the following information:
 - Name of Requestor.
 - Time period of request.
 - Information on vehicle assigned to request. Information will include, at a minimum:
 - Tag Number
 - Time and mileage of vehicle signed out by operator.
 - Time and mileage of vehicle signed in by operator.
- Ensure that vehicle operator meets requirements to operate a Government vehicle (valid state license).
- Provide usage guidance to vehicle operators prior to departure. Topics will include:
 - Authorized usage
 - Cleanliness
 - Fueling
- Drop off / pick up vehicles for service as necessary.
- Maintain accountability for Government credit cards for each assigned vehicle. Tasks include, but may not be limited to, the following:
 - Properly secure credit cards in approved container.
 - Properly issue credit cards to vehicle operator in accordance applicable guidance.
 - Receive credit card from operator after completion of mission. Ensure all receipts are returned.
- Notify DOE Task Manager (or assigned alternate) within 15 minutes of any vehicle accident reported by any operator. Ensure required reports are completed and forwarded to DOE Task Manager.

- Maintain automated database to show current and future conference room reservations. The following information is required for all reservations:
 - Name of Requestor.
 - Date(s) of request.
 - Start and end time of request.
 - Facility location.
- Post following day's room reservation calendar outside each assigned conference room no later than 1700 Hours each work day.
- Perform daily inspection of assigned conference rooms for cleanliness and serviceability of items no earlier than 1500 Hours each work day. Report any discrepancies to the DOE Task Manager for resolution.
- Maintain information on authorized off site meeting space.
- Maintain files in accordance with approved procedures.
- Coordinate for routine and non-routine maintenance (i.e. locksmith / plumber / general maintenance) of all assigned structures using approved processes through the site Management, Operating contractor, or its designated sub-contractor. Sub tasks include:
 - Open work order as required.
 - Track status of open work order through completion.
 - Close work order as required.
- Coordinate for janitorial support using approved processes through the site Management and Operating contractors designated sub-contractor.
- Maintain accountability and inventory of all building keys, to include security locks and keys, as applicable, for Building 730-B

G. Supply Room / Reproduction Center Clerk

- Staff DOE Supply Room and provide assistance to authorized customers.
- Maintain stock of items per approved inventory to support DOE-SR and its direct support service contractors.
- Manage requisitions to re-order items utilizing most cost effective source of supply (Site Maintenance Management and Operating (M&O) contractor, General Services Administration (GSA), or others). Sub tasks include:
 - Perform applicable market research to ensure that the Government receives best value.
 - Obtain DOE Task Manager approval for order, to include vendor and quantity to order.
 - Initiate requisition within applicable ordering system.
 - Provide requisition information to DOE Task Manager.
 - Update DOE Purchase Card log with any status change (i.e. item arrival / backordered / etc) no later than 1700 Hours each work day.
- Process returns to vendors as necessary, to include recycling of items.

- Provide assistance in the requisition and tracking of approved safety shoe orders for DOE-SR and its direct support service contractors
- Provide assistance in the requisition and tracking of approved prescription safety eyeglass requests for DOE-SR and its direct support service contractors
- Utilizing Government provided equipment and supplies, provide minor engraving services (i.e. name plates, small signs) to DOE-SR and its direct support service contractors.
- Utilize Management and Operating Contractor's Excess Operations to the fullest extent possible to reduce costs.
- Perform duties of Building Chemical Coordinator as required.
- Provide support to complete document reproduction and finishing work utilizing provided equipment. Sub tasks include:
 - Complete authorized document reproduction work when total image count is less than 25,000 images. No work will be authorized that infringes on any copyrighted document without the express written permission of the authors.
 - Finishing work to include (but not limited to)
 - Binding
 - Stapling
 - Assembly (including clear cover as requested by customer)
 - Punch
 - Comb
- Provide assistance to customers with photographic/videographic requirements in the proper completion of approvals and forms to receive support from M&O contractor for these services.
- Act as Key Operator (KO) on assigned duplicating equipment. Sub tasks include:
 - Assist personnel in the operation of assigned equipment to complete copying and scanning as necessary.
 - Perform troubleshooting of errors and malfunctions that operator cannot resolve.
 - Open, close, and monitor work order status of issues with equipment vendor as necessary for errors and malfunctions that KO cannot correct.
- Provide required assistance to customers to have work orders that cannot be completed by task personnel due to size or equipment limitations (i.e., job size more than 25,000 images, business cards, posters, oversize requests).
- Conduct monthly meter readings on assigned equipment and submit information to Management and Operating contractors Copier Management office.
- Order consumable supplies (toner, staples, etc) for assigned equipment thru designated sources (DOE Supply Room).
- Maintain stock of consumable supplies for all assigned reproduction equipment to pre-determined levels as authorized by the Task Manager.
- Assist customers (as requested) in the replenishment of consumable supplies for assigned equipment.

- Ensure that removable media from reproduction equipment (i.e., hard drives) are removed, accounted for, and returned to the appropriate office as required prior to relocation/turn-in of applicable equipment.

H. Place of Performance

The work to be performed under this contract will be performed at the Government facility unless otherwise notified.

I. Government Furnished Resources / Government Furnished Equipment (GFE) / Government Furnished Information (GFI)

The Government will furnish all facilities, materials, property, and equipment for on-site use in the performance of this contract as specified. Under limited circumstances, such as during meetings held in off-site locations, the Government will provide facilities, materials, property, and equipment for tasks not requiring a continuous on-site presence. The following will be provided during an on- site activity under this contract:

- a. Computer system with access to the site network.
- b. A work area consisting of a desk, telephone, temporary storage for equipment, and office supplies applicable to the job.
- c. Access to a copier, scanner, and FAX machine.
- d. All specialized computer equipment as required.
- e. Hard hats, reflective vest, and safety glasses (nonprescription) as required. Safety shoes and prescription safety glasses will be provided by the Contractor

J. Travel Requirements

The Government shall reimburse all travel related to the conduct of this contract. Point of origin for travel will be determined as the SRS. All travel will be in compliance with the Federal Travel Regulations (FTR). All travel must be approved or authorized by the COR. Requests for travel reimbursements must be submitted monthly, along with vouchers, and must include documentation of charges, if requested.

K. Schedule of Deliverables

All deliverables required under this task shall be submitted in accordance with the following schedules:

PWS Task	Deliverable Title	Format	Due Date	Distribution/Copies	Frequency and Remarks
Material Coord.	Mileage Report	Electronic	25 th calendar day of every month (Friday before if this day falls on a holiday or weekend)	Task Manager (1) DOE Fleet Manager (1)	Monthly
Material Coord.	Activity Report	Electronic	5 th working day of the	Task Manager (1)	Monthly
Material Coord.	Inventory Report	Electronic	5 th working day of the start of the fiscal quarter	Task Manager (1)	Quarterly
Material Coord.	Daily Activity Report	Electronic	0800 each working day	Task Manager (1)	Daily
CR, Work Order and Motor Pool	Work Order Report	Electronic	5 th working day of the month	Task Manager (1)	Monthly
CR, Work Order and Motor Pool	Activity Report	Electronic	5 th working day of the month	Task Manager (1)	Monthly
CR, Work Order and Motor Pool	Fleet Utilization Report	Electronic	5 th working day of the	Task Manager (1)	Monthly
Supply/Print Clerk	Inventory	Electronic	5 th working day of the month	Task Manager (1)	Quarterly
Supply/Print Clerk	Meter Reading Report	Electronic	5 th working day of the month	Task Manager (1)	Monthly
Supply/Print Clerk	Activity Report	Electronic	5 th working day of the month	Task Manager (1)	Monthly
Supply/Print Clerk	Activity Report	Electronic	5 th working day of the month	Task Manager (1)	Monthly
Supply/Print Clerk	Budget Report	Electronic	5 th working day of the month	Task Manager (1)	Monthly
Supply/Print Clerk	Inventory Report	Electronic	5 th working day of the month	Task Manager (1)	Quarterly
Format: Work products and deliverables shall be submitted in hard copy (where applicable) and in media mutually agreed upon prior to submission. Hard copy formats shall follow any specified directives or manuals.					

L. Performance Standards

General quality measures, as set forth below, will be applied to each work product and deliverable received from the contractor under this contract.

Performance Standard	Acceptable Quality Level (AQL)	Method of Surveillance
Accuracy- Work Products and deliverables shall be accurate in the presentation, technical content, and adherence to accepted elements of style.	95% of the time	Routine inspection of deliverable products.
Clarity- Work products and deliverables shall be clear and concise. Any/All diagrams shall be easy to understand and be relevant to the supporting Consistence to Requirements- All work products and deliverables must satisfy the requirements stated herein.	95% of the time 100% of the time	Observance of performance and work products. Routine inspection of deliverable products.
Timeliness- Work products will be submitted on or before assigned deadlines as provided with each deliverable. Format- Work products and deliverables shall be submitted in hard copy (where applicable) and in media mutually agreed upon prior to submission. Hard copy formats shall follow any specified directives or manuals.	100% of the time 95% of the time.	Routine inspection of deliverable products. Routine inspection of deliverable products.

File Editing- All Text and diagrammatic files shall be editable by the	100% of the time.	
---	-------------------	--

M. Directives, Laws, Regulations, Manuals and Procedures

The following publications are applicable to this performance of this task:

41 CFR Part 101-192

DOE Order 243.1 (Records Management)

Savannah River Policy (SRP 11-02 (Furniture Policy)

Savannah River Operations Office Implementing Procedure (SRIP 243.1 (Records Management Program)

RECEIVING AND DELIVERY OF DOE EQUIPMENT

(Receiving / Delivery Clerk)

The contractor shall provide the necessary labor and technical expertise to support the full administration of the Office of Acquisition Management's receiving and delivery operations and activities services shall include the management of government property that will include, but is not limited to, the following:

A. Receiving and Delivery of DOE Equipment

- The Contractor shall function as the DOE-SR Asset Management Specialist (AMS) and maintain compliance with all appropriate Federal regulatory requirements including DOE Order DOE O 580.1A, the DOE-SR Government Owned Personal Property Management Program Manual, and the M&O Contractor's 3B Asset Management Manual.
- The contractor shall provide AMS receiving and delivery services for DOE-SR, NNSA and other Federal employees and the DOE-SR direct support service contractors located at the Savannah River Site (SRS) in an effective manner. AMS duties include the following: excess property review and transfer processing; receiving/inspecting; posting and data entry into the site Asset Management Information System (AMIS); maintaining property accountability; inspecting and inventorying Government property per invoice comparison (including materials, equipment, and locally purchased office supplies); applying appropriate labels and Government tags on equipment and supplies, issuing and arranging for the delivery of said property to end-users; inventory control and validation requirements; execute Balanced Scorecard requirements; make accurate supported adjustments to the site AMIS account; turn-in control, acceptance, and process requirements; excess and dispose of assets.
- The contractor will provide weekly updates to open property related issues older than ten days.
- The contractor will provide monthly activity reports providing required information as directed.
- Participation in annual and periodic reports will be required as directed.
- The contractor will participate in reviews/audits conducted by DOE-SR Property Management, DOE-HQ, and DOE-SR Safety Inspections.
- Contractor duties include planning and conducting a complete physical inventory of all property listed in the DOE-SR AMS account and validation of that data as coordinated with site property management.
- Contractor will perform the property pass functions (manual or automated).
- Contractor will conduct and document monthly self-assessments, walkthroughs, and periodic inventories as required and maintain the DOE property account with the site database system including all accountability documents from acquisition through disposal, detailing accuracy of current

user, location, status, and dollar value of all AMS property.

- Identify excess AMS account property and screen DOE-SR purchase requisitions against Federal excess lists, local excess, excess yard, and furniture warehouse.
- Ensure any equipment held for future use is kept within established guidelines. Coordinate with the DOE information technology and property organizations, in order to keep inventory within established guidelines.
- The contractor shall establish and maintain a current desktop operation procedure identifying requirements and methods of operation.
- Records will be maintained in accordance with the Records Inventory Disposal Schedule. Records must ensure a complete audit trail for Government property, from acquisition through disposition.
- Ensure compliance with all safety requirements and adherence to good industry housekeeping practices.

B. Place of Performance

The work to be performed under this contract will be performed at the Savannah River Site unless otherwise notified.

C. Government Furnished Resources /Government Furnished Equipment (GFE)/Government Furnished Information (GFI)

The Government will furnish all facilities, materials, property, and equipment for on-site use in the performance of this contract as specified. The following will be provided during on-site activity of this contract:

- a. Computer system with access to the site network.
- b. A work area consisting of a desk, telephone, temporary storage for equipment, and office supplies applicable to the job.
- c. Access to a copier, scanner, and FAX machine.

D. Travel Requirements

The Government shall reimburse all travel related to the conduct of this contract. Point of origin for travel will be determined as the SRS. All travel will be in compliance with the Federal Travel Regulations (FTR). All travel must be approved or authorized by the COR. Requests for travel reimbursements must be submitted monthly, along with vouchers, and must include documentation of charges, if requested.

E. Schedule of Deliverables

All deliverables required under this task shall be submitted in accordance with the following schedules:

PWS Task#	Deliverable Title	Format	Due Date	Distribution/Copies	Frequency and Remarks
E.1.2	Weekly Tracking Register	Microsoft Excel	Each Monday by close of business, Tuesday if holiday occurs on Monday	Property Administrator Electronic submission	Weekly
E.1.2	Balanced Scorecard	Microsoft Word	October 15th	OPMO and PA Electronic submission	Annually
E.1.3	Annual Inventory Results	Microsoft Word	30 days after inventory validation	OPMO and PA Electronic submission	Annually
E.1.4	Monthly Activity Report	Microsoft Excel	10 th day of the month	Property Administrator Electronic Submission	Monthly
E.1.5	Equipment Held for Future Use	Microsoft Excel	10 th day of the month	Property Administrator Electronic submission	Monthly
E.1.6	GSA Reporting Tool	Microsoft Excel	October 15 th	Property Administrator Electronic submission	Annually
<p>Format: Work products and deliverables shall be submitted in hard copy (where applicable) and in media mutually agreed upon prior to submission. Hard copy formats shall follow any specified directives or manuals.</p>					

File Editing- All Text and diagrammatic files shall be editable by the Government.	100% of the time	
---	------------------	--

G. Directives, Laws, Regulations, Manuals, and Procedures

The following regulatory requirements are applicable to this performance of this task.

- 41 CFR 101 Federal Property Management Regulations
- 41 CFR 102 Federal Management Regulations
- 41 CFR 109 Department of Energy Property Management Regulations
- [DOE Order 580.1A, Department of Energy Personal Property Management Program](#)
- [DOE Guide 580.1-1 Department of Energy Personal Property Management Guide](#)

OFFICE OF HUMAN CAPITAL MANAGEMENT (OHCM)

A. HUMAN RESOURCES RECRUITMENT AND STAFFING SERVICES

The contractor will provide support to the Office of Human Capital Management (OHCM) for the area of recruitment and staffing procedures, Human Resources Information Services, Training, and initiatives directly related to the Office of Human Capital Management's efforts to effectively support DOE-SR mission requirements. The contractor will perform OHCM support functions that will include, but is not limited to, the following:

B. RECRUITMENT AND STAFFING

(Human Resources Support / Recruitment Staffing Specialist (HR))

- Conduct job analysis.
- Assessment: Use current assessment tool for evaluating candidates for each position.
- Generate vacancy announcements.
- Post vacancy announcements on USA JOBS.
- Accept applications via internet.
- Analyze applicant competencies and qualifications.
- Rate and rank job applicants.
- Generate certificates of eligible candidates.
- Notify applicants of application status.
- Manage applicant records.
- Ensure all available hiring flexibilities are used.

C. RECRUITMENT AND STAFFING SUPPORT FUNCTIONS

- Review policies and procedures.
- Prepare Human Capital Management reports in the absence of staffing specialist.

D. TRAINING AND INFORMATION SYSTEMS SPECIALIST

(Training and Information Systems Coordinator (HR))

The contractor will provide support for critical programs as listed by performing a crosswalk of competencies when new Technical Qualification Standards are issued and developing Technical Qualification Records, facilitating the development of Site Specific Qualification Standards and Technical Qualification Records, and the administration of the OHCM Information Systems.

Technical support will include establishing and maintaining all training records associated with TQP, ACMP and PMCDP. The contractor will also provide general training support services, including using video and audiovisual technology equipment in order to record and capture training and facilitate the placement of

such training on appropriate web sites. The contractor will facilitate the achievement and maintenance of certification in the ACMP and PMCDP by tracking and reporting the status of participants in these programs.

Technical assistance for the administration of the OHCM Information Systems will include conversion of associated current and historical data and files and development of the annual OHCM Performance Management Plan (PMP) including Task Description and Schedules (TDS).

The contractor will provide reports and data in response to data management requests, both internal and external to OHCM. The contractor will assist in administering the DOE ePerformance System. The contractor will provide primary interface and coordination for functional accessibility to the Integrated Business Management System (IBMS) and the subsequent Sharepoint system.

The contractor will perform OHCM support functions that will include, but is not limited to, the following:

E. Technical Qualification Program (TQP)

- Maintain accurate course-to-competency matrices for the General Technical Base and all SRS Functional Area Qualification Standards.
- Develop, track, and maintain configuration control of Technical Qualification Records.
- Track and report on qualification status of all TQP participants.

F. Certification Programs (ACMP and PMCDP)

- Provide management and administration of the Certification Programs (ACMP and PMCDP).
- Maintain the database of required certification programs.
- Update the ACMP and PMCDP programs to include guidance received from DOE-HQ.

G. Training Support Functions

- Prepare, coordinate signatures, and frame certificates of completion for presentation during Recognition Ceremony for participants in the TQP, ACMP, and PMCDP.
- Assist in the development of the annual training plan, needs assessment, and annual training summary for DOE-SR.
- Assist the Training Officer in managing qualification/certification records for DOE-SR employees in the TQP, ACMP, and PMCDP.

H. Information Services

- Support critical programs by the administration of the OHCM Information Systems as required in coordination with COR review and approval.
- Maintain and update current historical data and files for reports and retrieval as required.
- Provide reports and data in response to data management requests.
- Assist in Personnel Data Management by initiating and distributing notifications that record personnel actions.
- Assist in administering the DOE ePerformance System.
- Maintain the OHCM Information System databases.

I. Information Services Support Functions

- Maintain organizational structure and workforce management data.
- Generate daily action reminders from OHCM Databases.
- Generate random personnel action list for Quarterly Audit.
- Prepare data files for FAIR Act Report to DOE HQ.
- Provide personnel data and charts for Annual Workforce Plan.
- Manage the video capture, editing, placement of such training videos on local web sites. In addition, convert all video captured training to the required format in order to assist in the knowledge capture process.

J. Place of Performance

The work to be performed under this contract will be performed at the Government facility unless otherwise notified.

K. Government Furnished Resources /Government Furnished Equipment GFE)/Government Furnished Information (GFI)

The Government will furnish all facilities, materials, property, and equipment for on-site use in the performance of this contract as specified. Under limited circumstances, such as during meetings held in off-site locations, the Government will provide facilities, materials, property, and equipment for tasks not requiring a continuous on-site presence. The following will be provided during on-site activity of this contract:

- a. Computer system with access to the site network.
- b. A work area consisting of a desk, telephone, temporary storage for equipment, and office supplies applicable to the job.
- c. Access to a copier, scanner, and FAX machine.
- d. All specialized computer equipment required to conduct CAB meetings.

L. Travel Requirements

The Government shall reimburse all travel related to the conduct of this contract. Point of

origin for travel will be determined as the SRS. All travel will be in compliance with the Federal Travel Regulations (FTR). All travel must be approved or authorized by the COR. Requests for travel reimbursements must be submitted monthly, along with vouchers, and must include documentation of charges, if requested.

M. Schedule of Deliverables

All deliverables required under this task shall be submitted in accordance with the following schedules:

PWS Task#	Deliverable Title	Format	Due Date	Distribution /Copies	Frequency and Remarks
M.3.1.1	Conduct job analysis.	Electronic	Per each vacancy	Recruitment file	As required
M.3.1.1	Use assessment tools: Uses a tool for evaluating candidates for each position.	Electronic	Per each vacancy	Recruitment file	As required
M.3.1.1	Generate vacancy announcements.	Electronic	Per each vacancy	Recruitment file	As required
M.3.1.1	Post vacancy announcements on USA JOBS.	Electronic	Per each vacancy	Recruitment file	As required
M.3.1.1	Accept applications via internet.	Electronic	Per each vacancy	Recruitment file	As required
M.3.1.1	Analyze applicant competencies and qualifications.	Electronic	Per each vacancy	Recruitment file	As required
M.3.1.1	Rate and rank job applicants.	Electronic	Per each vacancy	Recruitment file	As required
M.3.1.1	Generate certificates of eligible candidates.	Electronic	Per each vacancy	Recruitment file	As required
M.3.1.1	Notify applicants of application status.	Electronic	Per each vacancy	Recruitment file	As required

<p>File Editing- All Text and diagrammatic files shall be editable by the Government.</p>	<p>100% of the time</p>	

O. Directives, Laws, Regulations, Manuals, and Procedures

The following publications are applicable to this performance of this task:

- Public Law 92-463 (Federal Advisory Committee Act)
- 41 Code of Federal Regulations (CFR) Chapters 300 – 304 (FTR)
- 5 CFR 300, Subpart F, “Time-in-Grade Restrictions”
- 2.4 5 CFR 335.103(b) (5), “Agency Promotion Programs” DOE Order 243.1 (Records Management)
- DOE O 320.1, Chg 1, "Acquiring and Positioning Human Resources"
- Savannah River Operations Office (SR) Implementing Procedure (SRIP) 243.1 (Records Management Program)
- SRM 300.1.1, Chapter 3, Section 3.1, Rev 4, “DOE-SR Merit Promotion and Placement"

PROGRAM MANAGER

Program Manager

The contractor shall provide the necessary labor and technical expertise to successfully execute the services required under this contract. Services shall include the oversight of all daily functions for the conduct, performance, evaluation, and inherent human resources functions, as well as, ensuring the accomplishment of all administrative, performance, and reporting requirements therein, of all the Contractors personnel engaged in contract activities awarded to the Contractor at the Savannah River Site.

Program Manager

- Oversee the daily functions for the conduct, performance, evaluation, and inherent (contractor) human resources functions, as well as ensure the accomplishment of all administrative, performance, and reporting requirements therein, of the following support personnel with duties as outlined in the respective scope of work:
 - Citizens Advisory Board Support
 - Field Chief Financial Officer Support
 - Information Technology / Audio-Visual Support
 - Office of Acquisition Management Support
 - Office of Human Capital Management Support
 - Administrative Assistant Support to DOE-SR
 - Program Analyst Support for DOE-SR Managers Office
 - Office Support Services
 - Defense Nuclear Safety Board Administrative Support
 - Any future tasks as may be added to the master agreement

- The Program Manager will maintain a daily presence at the Savannah River Site. Any planned absence will be submitted in writing to the Contracting Officers (CO) or Designated Contracting Officer (DCO) two business days in advance in writing and will name a competent alternate for the duration of the absence.

- The Program Manager (or their designated representative) will notify the responsible Contracting Officers Representative (COR) in writing two days in advance of any planned task personnel absences (within two hours for unplanned absences).

A. Place of Performance

The work to be performed under this contract will be performed at the Government facility unless otherwise notified.

B. Government Furnished Resources / Government Furnished Equipment (GFE) / Government Furnished Information (GFI)

The Government will furnish all facilities, materials, property, and equipment for on-site use in the performance of this contract as specified. Under limited circumstances, such as during meetings held in off-site locations, the Government will provide facilities, materials, property and equipment for tasks not requiring a continuous on-site presence. The following will be provided during on-site activity of this contract:

- a. Computer system with access to the site network.
- b. A work area consisting of a desk, telephone, temporary storage for equipment, and office supplies applicable to the job.
- c. Access to a copier, scanner, and FAX machine.
- d. All specialized computer equipment as required.
- e. Hard hats, reflective vest, and safety glasses (nonprescription) as required.
 Safety shoes and prescription safety glasses will be provided by the Contractor

C. Travel Requirements

The Government shall reimburse all travel related to the conduct of this contract. Point of origin for travel will be determined as the SRS. All travel will be in compliance with the Federal Travel Regulations (FTR). All travel must be approved or authorized by the COR. Requests for travel reimbursements must be submitted monthly, along with vouchers, and must include documentation of charges, if requested.

D. Schedule of Deliverables

All deliverables required under this task shall be submitted in accordance with the following schedules:

PWS Task#	Deliverable Title	Format	Due Date	Distribution/Copies	Frequency and Remarks
E.3.1.1	Activity Report	Electronic	5 th working day of every month	Contracting Officer(1) Designated Contracting Officer (1) Contracting Officers Representative (1 Each)	Monthly
<p>Format: Work products and deliverables shall be submitted in hard copy (where applicable) and in media mutually agreed upon prior to submission. Hard copy formats shall follow any specified directives or manuals.</p>					

E. Performance Standards

General quality measures, as set forth below, will be applied to each work product and deliverable received from the contractor under this contract.

Performance Standard	Acceptable Quality Level (AQL)	Method of Surveillance
Accuracy- Work Products and deliverables shall be accurate in the presentation, technical content, and adherence to accepted elements of style.	95% of the time	Routine inspection of deliverable products.
Clarity- Work products and deliverables shall be clear and concise. Any/All diagrams shall be easy to understand and be relevant to the supporting narrative.	95% of the time	Observance of performance and work products.
Consistence to Requirements- All work products and deliverables must satisfy the requirements stated herein.	100% of the time	Routine inspection of deliverable products.
Timeliness- Work products will be submitted on or before assigned deadlines as provided with each deliverable.	100% of the time	Routine inspection of deliverable products.
Format- Work products and deliverables shall be submitted in hard copy (where applicable) and in media mutually agreed upon prior to submission. Hard copy formats shall follow any specified directives or manuals.	95% of the time	Routine inspection of deliverable products.
File Editing- All Text and diagrammatic files shall be editable by the Government.	100% of the time	

F. Directives, Laws, Regulations, Manuals and Procedures

The following publications are applicable to this performance of this task:

DOE Order 243.1 (Records Management)

As Outlined in Respective Contracts

ADDITIONAL SUPPORT SERVICES

TASK STATEMENT FOR SUPPORT SERVICES FOR FACILITY REPRESENTATIVE TRAINING FOR WDOD

SUPPORT SCOPE:

The services will focus on training Facility Representatives by providing field observation of ongoing work in progress, providing written reports relative to observed activity, providing immediate assessment and communication of any work practice that is a danger to the worker, assisting in the investigation of any abnormal events/accident and providing recommendation on how to improve safe operations. Additionally, services will be provided as qualifying official and for the development of examinations (e.g., facility walk-through, oral boards and written tests).

The following training activities are required in support of this scope. This training will primarily require one-on-one, or small group, in-the-field coaching and mentoring.

- Review and evaluate Conduct of Operations aspects for F- and H-Tank Farm activities, (e.g., Tank 37 Salt Dissolution, Tank 15 Rewet, etc.), Saltstone grout processing, DWPF vitification and Solid Waste Management Facility activities). This will include review of work documents, observation of any FAM Review or Independent Assessment, and direct field observation of activities.
- Review and evaluation of work control and maintenance aspects of activities supporting Closure activities (e.g., Tanks 12 and 16), Base Operations (e.g., ARP/MCU, 2H Evaporator, 3H Evaporator, replacement of purge reheaters, etc.).
- Review and evaluate industrial hygiene, radiological control and employee safety aspects of activities supporting Waste Treatment (e.g., DWPF Operations, SPF Operation, Salt Disposal Initiative, etc.). This will include facility surveys preparations, observations of the mock ups, Functional Area Manager reviews, and independent review as well as direct field observation.
- Review and evaluation of training materials for new WDOD employees' by updating exams, coaching, and mentoring in assessment techniques, observation of in-the-field activities, facility startup and process systems operation. This will include all facilities

- monitored by WDOD (i.e., F- & H-Tank Farms, ETF, SWMF, DWPF and Saltstone).
- Development of a tracking and trending program for Management Review Board (MRB) assessments not transmitted to the contractor.
 - Review and evaluate any event that results in a spill or spread of radioactive contamination in an unwanted place or radiation exposure that exceeds suspension guide set points.
 - Attend FOSC Meetings as appropriate.
 - Periodically review and evaluate DSA/TSR work activities. This will include direct field observation of activities.

DELIVERABLES:

A status update should be provided on or before Friday of each work week during the above expected duration. The status update must be a written report provided to the Director of Waste Disposition Operations Division (WDOD)/Designee. Assessments performed during the period shall be coordinated with the FR trainees and discussed with WDOD Director/Designee and entered into Site, Tracking, Analysis and Reporting (STAR) system as soon as practical but prior to the end of the monthly Management Review Board meeting. The STAR number shall be referenced on the written report. References of documents reviewed will be provided on the written report.

SPECIAL INSTRUCTIONS: Reference: 10CFR 835, DOE Order 422.1, O -232.2, SRM 226.1, Site

Level Manuals 5Q, 8Q, 2S, and 1Y Manuals for base requirements.

Scope of Work for Facility Representative Training for Nuclear Materials Operations Division

SUPPORT SCOPE:

The services will focus on Readiness Review support; Facility Representative (FR) support; and support for Coaching FRs In-Training, Evaluating FR Training Materials, & Updating FR Exams.

The following activities are required in support of this scope. The activities will primarily require coaching new Facility Representatives and supporting the FR Qualification process.

- Evaluate Nuclear Material Operations facilities (H-Canyon, 235-F, SRNL, K-Area, HB-Line and F/H Lab), equipment, personnel, procedures and management control systems to verify that new missions in existing facilities can be operated safely within its approved safety basis.
- Perform field observations to verify worker briefings, work documents, and safety and radiological controls are properly executed in the field in F and H Areas, K Area, and SRNL.
- Review and evaluate facility and/or equipment designs or modifications, work packages, radiation controls in accordance with 10 CFR 835, conduct of operations and worker training to support H-Canyon Head End, 1st and 2nd Cycle operations; Target Residue Material in H-Canyon; F/H Lab Safety Basis Revision for Leak Path Factor; H-Canyon LEU Blending; and 235-F BIO/TSR Implementation for Risk Reduction (Cells 6-9).
- Observe and evaluate contractor assessments of identified functional areas to determine readiness to execute activities mentioned directly above in K, F and H Areas.
- Conduct interviews to assess level of knowledge of operations and operations support personnel.
- Prepare Plan of Action for Readiness Reviews associated with Nuclear Material Operations in H and F Area facilities.
- Review and evaluate Conduct of Operations aspects for nuclear material stabilization, laboratory, infrastructure and environmental stewardship activities. This will include review of work documents and direct field observation of activities.

- Review and evaluation of work control and maintenance aspects of activities supporting nuclear material stabilization, laboratory, infrastructure and environmental stewardship activities.
- Review and evaluate industrial hygiene, radiological control and employee safety aspects of activities supporting nuclear material stabilization, laboratory, infrastructure and environmental stewardship. This will include facility surveys preparations, observation of the mock ups, and direct field observation.
- Review and evaluation of training materials for new NMOD and IACD employees by updating exams, coaching, and mentoring in assessment techniques, observation of in-the-field activities, facility startup and process systems operation. This will include all facilities monitored by NMOD (i.e., H-Canyon, HB-Line, K-Area, SRNL, F/H Laboratory and 235-F) and IACD (i.e., Steam Generation and Distribution Facilities, Electrical Distribution Facilities, Water Processing, Storage, and Distribution Facilities, and the Environmental Bio-assay Laboratory).
- Review and evaluate any event that results in an injury, spill or spread of radioactive contamination in an unwanted place, or radiation exposure that exceeds suspension guide set points.
- Periodically review and evaluate DSA/TSR work activities. This will include direct field observation of activities.
- Develop up to eight training packages per year using a Case Study approach to develop Facility Representative investigative and problem analysis skills. Case studies will be based upon recent AMIES facility events/issues selected by the Division Director. Training packages will be developed to support a 2 hour seminar/discussion.
- Provide one “fresh set of eyes” facility walkdown per quarter of an AMIES Facility with the assigned primary and backup Facility Representative. Purpose is to provide an outside perspective of providing oversight of a familiar facility and to enhance facility operations and maintenance knowledge.
- Provide Facility Representative (FR) support for short periods of time when the assigned FR is absent in SRNL, HB-Line, H-Canyon, K-Area, and F-Area facilities.
- The estimated time split between AMNMS and AMIES support is approximately 80% for AMNMS and 20% for AMIES.

DELIVERABLES:

A general list of activities performed during the week should be provided by the end of each work week during the above expected duration. The general list must be in writing and provided to the Director of Nuclear Material Operations Division (NMOD)/Designee and/or Director of Infrastructure and Area Completion Division (IACD)/Designee, depending on which organization

support was provided to that week. Assessments performed during the period shall be coordinated with the FR trainees and discussed with NMOD/IACD Director/Designee and entered into Site Tracking, Analysis and Reporting (STAR) system as soon as practical, but prior to the end of the month in order to be included in the Management Review Board meeting. Any STAR numbers shall be referenced on the written weekly report. References of documents reviewed will be provided on the STAR assessment and written weekly report.

SPECIAL INSTRUCTIONS:

Reference: 10CFR61, 40CFR129-270, DOE Order 435.1, SRM 226.1 and 435.1, Site Level Manuals 1Q, and 1S Manuals for base requirements.

POINT OF CONTACT:

Nuclear Materials Operations Division, Linda Quarles – 803-208-0445

Scope of Work - Assistant Manager for Waste Disposition (Liquid Waste Support Services)

General

Services will be provided to the Assistant Manager for Waste Disposition. Services will be in the area of program management for a complex, one-of-kind program consisting of a system with different facilities and processes. Services include the review and evaluation of program documents and support operations activities and projects required for the execution of the contract option period.

Scope of Activities:

A. The services will focus on providing review and evaluation of the interim performance baseline proposed by the Liquid Waste contractor and its alignment with the system strategy and risk management. This system contains all facilities and processes needed to remove, stabilize and dispose of radioactive liquid waste stored in underground waste storage tanks at the Savannah River Site (SRS).

The following services are required in support of the review of the interim and official Contractor Performance Baseline.

- A. Review and evaluation in detail of the Contractor Performance Baseline utilizing as basis the Liquid Waste Contract Proposal and signed contract.
- B. Review and evaluation of scope, cost and schedule of any contract modifications and baseline change proposals required to support the approval of the Contractor Performance Baseline and determine validity of the proposed changes.
- C. Technical review of scope, cost and schedule of the Liquid Waste Contractor proposals

that may be required for the Liquid Waste Contract Base period.

- D. Coordination and review of baseline change proposals as a result of negotiated contract modifications for the Option Period and coordination and support of Baseline reviews.
- E. Provide technical, cost and schedule reviews and assessments of liquid operations and projects and/or work scope additions/deletions from existing baseline.
- F. Review documents for Liquid Waste, recommend responses to DOE-HQ inquiries, media inquiries, and other external organization requests.

Products/deliverables:

- 1) Issue a review report with any comments generated of the Contractor Performance Baseline and any recommendations for document revision to enable COR endorsement.
- 2) Issue report of the technical review of cost and schedule of the Liquid Waste Contractor proposals for the Contract Base period.
- 3) Review and evaluation of contract modifications to evaluate scope cost and schedule as cross walk with the approved contract performance baseline and determine validity of the proposed changes.
- 4) Perform technical, cost and schedule reviews and/or assessments of liquid operations and projects and/or work scope additions/deletions from existing baseline.
- 5) Review documents for Liquid Waste, recommend responses to DOE-HQ inquiries, media inquiries, and other external organization requests.

Special Requirements:

Service must be provided by an expert in the field of Nuclear Waste Disposition. This expert should be located within the commuting area and be available to accomplish the requirements starting by January 15, 2017.

Point of Contact:

Office of the Assistant Manager Waste Disposition, Sonitza M. Blanco – 803-208-6029

SCOPE OF WORK FOR SUPPORT SERVICES FOR

SOLID WASTE PROGRAM TRAINING

(Solid Waste Support)

SUPPORT SCOPE:

The services will focus on assisting the WDPD during the transition and training of new DOE employees that will be responsible for the oversight of the DOE Solid Waste Program. These services will include providing field observation of ongoing Solid Waste Program work, providing written reports, and providing recommendations on how to improve the DOE oversight. Additionally, services will be provided to assist WDPD in the preparation of DOE submittals and prepared information for use in budget exercises, planning documents, fiscal work plans, IPABs, PBIs, and HQ requests.

The following activities are required in support of this scope. The activities will primarily require one-on-one with DOE staff, in-the-field meetings with the Solid Waste contractor, and mentoring/training of the new employees.

- Assist in the development, review, and submittal of the FY 2016 fiscal year work plan for PBS-13 Solid Waste.
- Assist in the development, review, and submittal of the FY 2016 solid waste budget documents including contractor baselines, change requests, BCPs, and IPABs metrics.
- Review and evaluate ongoing waste operations in E-area from a perspective of assisting the new DOE employees in understanding minimum safe requirements and base operations requirements to gain insight in the contractor funding needs.
- Development of training materials for new WDPD employees through coaching, and mentoring in oversight activities and techniques, as well as conducting observations and critiques of new employees interface and in-the-field activities with the contractor. Activities will include assisting the new employees with completing their waste management TQP qualifications.
- Development of a RWMB review and approval process for SRS RWMBs including SWPF for DOE-SR. The development should address the frequency, depth, and criteria for conducting the reviews and compliance with DOE Order 435.1.
- Attend SRNS Solid Waste Meetings as appropriate.
- Periodically review and evaluate SRNS LLW and TRU Waste produced material and documents that report the status/performance of waste activities to include compliance,

budget, waste volumes, and waste activities. Reviews may include follow up with the contractor and field observation of activities.

DELIVERABLES:

A general list of activities performed during the week should be provided by the end of each work week during the above expected duration. The general list must be in writing and provided to the Director of Waste Disposition Program Division (WDPD)/Designee. Assessments performed during the period shall be coordinated with the new employees/trainees and discussed with the WDPD Director. References of documents reviewed will be provided on the written report.

SPECIAL INSTRUCTIONS:

Reference: 10CFR61, 40CFR129-270, DOE Order 435.1, SRM 226.1 and 435.1, Site Level Manuals 1Q, and 1S Manuals for base requirements.

POINT OF CONTACT:

Waste Disposition Programs Division Director, Jean Ridley – 803-208-6075

Award Fee Program Support Task Statement (Program Specialist Level One and Level Two)

Requirement: Federal Acquisition Regulations, Part 16. A Fee Board is identified in each Performance Evaluation Measurement Plan and Award Fee Plan.

Use SRIP 412.1, Performance Evaluation and Measurement Plan

Schedule: During October and November, Fee Board should be scheduled weekly to manage bow wave of completion documentation

1. Monthly

- a. Establish schedule
 - i. Work with Contractor POC to ensure incentives are processed and ready for Fee Board presentation
- b. Ensure STAR assessments have been completed for each incentive prior to coming to Fee Board
- c. Support Fee Board leadership to prepare for meeting
 - i. Identify any potentially significant issues being presented
- d. Document meeting minutes

2. Ad Hoc

- a. Work with Contractor POC to prepare documentation for discussing proposed changes to PEMP/Award Fee Plan
- b. Support Fee Board leadership
 - i. End of year Fee Board schedule is more frequent and depends on getting organizations to complete STAR assessments and schedule presentations

Fee Invoicing System

This is an electronic document review system used to track progress and record assessments/decisions made on processing contractor performance incentive documents for Liquid Waste and M&O

Close out of final Subjective incentive

Requirement: SRNS Performance Evaluation Measurement Plan, Performance Incentive Document, SRNS2015SUBJ-1.01, Management & Operations – Subjective

Use SRIP 412.1, Performance Evaluation and Measurement Plan

Schedule: Oct. 30, Complete STAR assessment and attach electronic report in Fee Invoicing System Within the M&O PEMP – Performance Incentive Document owned by AMMS

- a. Establish schedule to complete final review within time allotted
- b. Use data from Scorecard to provide numerical raw data
- c. Assemble information from Scorecard and other sources to develop narrative
- d. Schedule meeting with Fee Board leadership and all AM/OD to discuss numbers/score and draft narrative
- e. Complete STAR assessment

CPARS

Requirement: Use SRM 540.1.1A Ch12 Contractor Performance Reporting

For CPARS module, an interim report is required every 12 months based on contract award date or required as stated above for all modules. No cumulative. Assessment is done for the performance which has occurred since last evaluation period. Completion of the report is due 120 calendar days after the end of the assessment period.

Schedule: Oct. 30 – Send email to Scorecard participating AM/OD to solicit contractor “Significant Achievements” and “Significant Weaknesses” for their organization

Dec. 4 - Develop final report for Assessing Official

FAR 42.15 requires Contractor Performance reporting. This supports the lead Contracting Officer Representative, who is referred to as the Assessing Official, for the M&O contract to develop an annual report for the Contractor Performance Assessment Reporting System

- a. Develop schedule to gather end-of-year performance information for M&O contractor
 - a. Scorecard
 - b. Fee Board
 - c. Misc. press releases
- b. Identify organizational POC and send out initial email to discuss data collection format and schedule
- c. Draft final comprehensive assessment formatted as required by CPARS

DOE-SR Scorecard

Requirement: The Scorecard collects contractor performance data for FAR 16 for use with the Fee Determination and FAR 42 for use with the annual CPARS report.

Schedule: Last week of each month – monitor Scorecard to ensure all DOE-SR organizations have entered numerical scores and narrative in each of their web pages. Contact those who have not to encourage completion.

- a. Support site effort by ensuring all organizations report – both numerically and with a narrative – each month in the electronic Scorecard
 - a. Identify/manage POC listing for each organization
 - b. Enforce monthly schedule to ensure timely input is provided

- c. Review monthly contractor (overall) self-assessment and complete STAR assessment for SRNS PEMP Subjective Incentive (as Technical Representative)

DOE Mail Room

- Deliver inbound mail items once daily (to include interoffice communications) along a pre-designated route as received by Savannah River Nuclear Solutions, LLC (SRNS) mail courier.
 - Delivery times will be prior to 1400, Monday through Thursday.
- Collect outbound mail items once daily (to include interoffice communications) from a pre designated route and process as required for further distribution to SRNS and U.S. Postal Service mail stream.
 - Pick up times will be once prior to 1100 and once prior to 1400 Monday through Thursday.
- As necessary, utilize Government provided transportation to pick up and deliver mail items from the site Central Mail Room and the Jackson S.C. United States Post Office facility.
- Identify suspicious mail pieces using established methods and take appropriate action as outlined in Site Mail Security Plan
- Sort and route interoffice communications designated for Building 730-B. These items will be processed in entirety (collected and delivered) by the DOE Mail Clerk Monday thru Friday.
- Maintain a service log to ensure accountability and traceability (as appropriate) for the following supplies and categories of special mail service. Log will include at a minimum: the user's printed name, telephone number, Site User ID, signature, and any applicable cost:
 - Postage
 - Certified Mail document numbers
 - Registered Mail document numbers
 - Return Receipt document numbers
 - Overnight service tracking numbers (any carrier)
- Decline for acceptance into the official mail stream any personnel mail items (whether proper postage is affixed or not).
- Decline for acceptance at all times all classified mail pieces.
- Assist customers with determining the appropriate amount of postage for a mail item by weighing / measuring the mail piece and consulting current U.S. Postal Service rates (available at www.usps.com) for size, weight, and destination.
- Assist Supply Room / Reproduction Clerk with completion of reproduction work orders as necessary and time allows.

Place of Performance

The work to be performed under this contract will be performed at the Government facility unless otherwise notified.

Duty Hours

This is to be a part time position. Duty hours are to be from 1000 thru 1500 Monday thru Thursday. No service will be required on Friday.

Government Furnished Resources / Government Furnished Equipment (GFE) / Government Furnished Information (GFI)

The Government will furnish all facilities, materials, property, and equipment for on-site use in the performance of this contract as specified. Under limited circumstances, such as during meetings held in off-site locations, the Government will provide facilities, materials, property, and equipment for tasks not requiring a continuous on-site presence. The following will be provided during an on-site activity under this contract:

- a. Computer system with access to the site network.
- b. A work area consisting of a desk, telephone, temporary storage for equipment, and office supplies applicable to the job.
- c. Access to a copier, scanner, and FAX machine.
- d. All specialized computer equipment as required.
- e. Hard hats, reflective vest, and safety glasses (nonprescription) as required. Safety shoes and prescription safety glasses will be provided by the Contractor

Travel Requirements

The Government shall reimburse all travel related to the conduct of this contract. Point of origin for travel will be determined as the SRS. All travel will be in compliance with the Federal Travel Regulations (FTR). All travel must be approved or authorized by the COR. Requests for travel reimbursements must be submitted monthly, along with vouchers, and must include documentation of charges, if requested.

Schedule of Deliverables

All deliverables required under this task shall be submitted in accordance with the following schedules:

PWS Task	Deliverable Title	Format	Due Date	Distribution/Copies	Frequency and Remarks
Mail Room	Activity Report	Electronic	5 th working day of the month	Task Manager (1)	Monthly
Format: Work products and deliverables shall be submitted in hard copy (where applicable) and in media mutually agreed upon prior to submission. Hard copy formats shall follow any specified					

directives or manuals.

Performance Standard	Acceptable Quality Level (AQL)	Method of Surveillance
----------------------	--------------------------------	------------------------

<p>Accuracy- Work Products and deliverables shall be accurate in the presentation, technical content, and adherence to accepted elements of style.</p>	<p>95% of the time</p>	<p>Routine inspection of deliverable products.</p>
<p>Clarity- Work products and deliverables shall be clear and concise. Any/All diagrams shall be easy to understand and be relevant to the supporting narrative.</p>	<p>95% of the time</p>	<p>Observance of performance and work products.</p>
<p>Consistence to Requirements- All work products and deliverables must satisfy the requirements stated herein.</p>	<p>100% of the time</p>	<p>Routine inspection of deliverable products.</p>
<p>Timeliness- Work products will be submitted on or before assigned deadlines as provided with each deliverable.</p>	<p>100% of the time</p>	<p>Routine inspection of deliverable products.</p>
<p>Format- Work products and deliverables shall be submitted in hard copy (where applicable) and in media mutually agreed upon prior to submission. Hard copy formats shall follow any specified directives or manuals.</p>	<p>95% of the time.</p>	<p>Routine inspection of deliverable products.</p>
<p>File Editing- All Text and diagrammatic files shall be editable by the Government.</p>	<p>100% of the time.</p>	

Directives, Laws, Regulations, Manuals and Procedures

The following publications are applicable to this performance of this task: 41

CFR Part 101-192

DOE Order 243.1 (Records Management)

Domestic Mail Manual International

Mail Manual

SRNS Manual 3B, Procedure 6-1 (Mail Management)

Savannah River Operations Office Implementing Procedure (SRIP 243.1 (Records Management Program)

Statement of Work
Start-up and Commissioning Contractor Support Services
Department of Energy – Savannah River Operations Office (DOE-SR)
Salt Waste Processing Facility Project (SWPF) Office
Commissioning and Operations Division Team Lead
(Salt Waste Processing Facility Support)

1.0 PURPOSE

The purpose of this requirement is to procure the services of a contractor to serve as a team lead for commissioning and operations services as staff augmentation to DOE-SR SWPFPO. The commissioning and operations contractor support is expected to deliver strategic leadership, highly proactive, anticipatory work products combined with requirement-based, synergistic interactions with SWPFPO and SWPF contractor staff and management.

2.1 SCOPE

The contractor shall lead a team of 8 -12 SWPFPO support contractors responsible for review of deliverables related to the Commissioning and Operation of the SWPF. The effort will include various levels of work (including analysis) associated in any of the following areas: design, construction, start-up, testing, field assessments; assessment of the requirements under the applicable DOE Directives, federal laws, federal regulations, and ASME NQA-1.

Position: Commissioning and Operations Team Lead. Position requires a minimum of 20 years of experience in start-up, testing, and construction turnover experience. The expected workload for this position is up to 40 hours per week (Monday through Friday; four 10s or five 8s). Overtime is allowed with prior approval as needed to support work effort. Weekend and night shift work may be required on a periodic basis.

The contractor assigned shall:

- provide day-to-day direction to team members for testing and commissioning activities,
- develop and implement processes and procedures for testing and commissioning oversight, and
- provide input to and manage changes to resource loaded schedules related to the commissioning and operation of SWPF. The effort will include reviewing and understanding the project schedule from construction through the end of commissioning, such that the resources for oversight activities can be appropriately staffed, and scheduled to ensure appropriate coverage is maintained.

3.1 STATEMENT OF WORK WITH DELIVERABLES:

- 3.2 The contractor shall be available to provide assistance in response to requests for assistance on related work package, calibration, grooming and alignment, turnover, start-up testing, and operational readiness issues.
- 3.3 Review and recommend DOE actions on routine submissions of such documents as System Operational Tests, Integrated System Operational Tests, pertinent administrative procedures, and work packages.
- 3.4 Develop and submit Site Tracking, Analysis, and Reporting (STAR) records for assessments to include identification of concerns, issues, observations, recommendations, and all corrective actions taken/recommended.
- 3.5 Perform and oversee testing and start-up related responsibilities through operational testing procedure reviews and subsequent testing to ensure compliance with applicable DOE requirements including ASME NQA-1.
- 3.6 Provides weekly status report describing work efforts.
- 3.7 Develops appropriate assessment plans in performing direct oversight, monitoring, and/or independent inspection and oversight of the contractor.
- 3.8 Provides experience as Subject Matter Expert (SME) for DOE relative to start-up, operational readiness and testing (i.e., ASME NQA-1) requirements.
- 3.9 Reviews commissioning test procedures and work package documents providing suggestions on methods and procedures in solving problems and meeting changing demands with SWPF contractor representatives.
- 3.10 Review technical issues and recommend solutions to problems or changes in procedures to DOE and SWPF contractor.
- 3.11 Oversee start-up and testing activities in the facility.
- 3.12 Attend meetings such as Joint Test Group meetings, Commissioning and Operations Schedule Integration Meeting, System Planning Meeting as requested to provide support to the DOE lead for testing procedure review.

4.1 STATUS BRIEFINGS:

- 4.2 Brief progress every week to DOE-SR Commissioning and Operations Division Director.
- 4.3 Provide update briefings as requested to the Deputy Federal Project Director and/or Federal Project Director.

5.0 DELIVERABLE SCHEDULE:

Specific Deliverables are located in the table below.

Deliverable	Final Due
Develop and submit comments for procedures, test plans and reports related to Calibration, Grooming and Alignment, System Operational Tests, Integrated System Operational Tests, and all hot, and cold commissioning, and design performance testing to include identification of concerns, issues, observations, recommendations, and all corrective actions taken/recommended. Weekly email regarding status of reviews and assessments.	As requested Weekly
Develop STAR record for oversight activities.	Within 5 business days of field work

6.0 TRAINING

The contractor personnel shall successfully complete all applicable site security and safety training required for access to the work site. In order to successfully complete some training courses, contractor personnel will require passing scores on written and practical examinations.

7.0 GOVERNMENT FURNISHED EQUIPMENT / INFORMATION / MATERIALS

Normal computer equipment (computer, monitor, scanner, and printer) will be furnished to the contractor.

Personnel Protective Equipment (PPE): The Government will furnish the following PPE as needed: Anti-contamination clothing, non-prescription safety glasses (clear and sunglass), hard hats, disposable ear plugs, and reflective vests.

The contractor will be responsible for providing prescription safety glasses (as needed), safety shoes, and any other similar PPE.

8.0 PLACE OF PERFORMANCE

The place of performance shall be at the Government’s facility: Savannah River Site, Savannah River Operations Office, Aiken, SC 29802.

Statement of Work
Start-up and Commissioning Contractor Support Services
Department of Energy – Savannah River Operations Office
(DOE-SR) Salt Waste Processing Facility Project (SWPF) Office
Construction and Start-up
Division
(Facility Management
Specialist)

1.0 PURPOSE

The purpose of this requirement is to procure the services of a contractor to provide commissioning and operations consulting and assistance services as staff augmentation for the qualification of Facility Representatives in Training assigned to DOE-SR SWPFPO. The commissioning and operations contractor support is expected to deliver highly proactive, anticipatory work products combined with requirement-based, synergistic interactions with SWPFPO and Parsons' staff and management counterparts.

2.0 SCOPE

The contractor shall review and provide deliverables related to the Commissioning and Operations of the SWPF. The effort will include various engineering level work associated with the duties of Facility Reps (including analysis) in any of the following areas: design, construction, start-up, testing, field assessments; Assessment of the requirements under the applicable DOE Directives, federal laws and regulations, and ASME NQA-1.

Position: Commissioning and Operations Facility Representative Mentor. Position requires a minimum of 20 years of experience in start-up, testing, and construction turnover experience. The workload for this position is not to exceed 40 hours per week (Monday through Friday). Weekend and night shift work may be required on a periodic basis.

The contractor as assigned shall develop, provide input to, and manage changes to resource loaded schedule for, start-up testing, and commissioning activities related to Facility Rep duties. The effort will include reviewing and understanding the projects schedule from construction through the end of commissioning, such that the resources for oversight activities can be appropriately staffed, and scheduled to ensure appropriate coverage is maintained.

3.14 STATEMENT OF WORK WITH DELIVERABLES:

3.15 The Contractor shall be available to provide assistance in response to requests for

- assistance on related work package, calibration, grooming and alignment, turnover, start- up testing, and operational readiness issues.
- 3.16 Review and recommend DOE actions on routine submissions of such documents as System Operational Tests, Integrated System Operational Tests, pertinent administrative procedures, and work packages.
 - 3.17 Develop and submit Site Tracking, Analysis, and Reporting (STAR) records for assessments to include identification of concerns, issues, observations, recommendations, and all corrective actions taken/recommended.
 - 3.18 Performs and oversees testing and start-up related responsibilities through operational testing procedure reviews and subsequent testing to ensure compliance with applicable DOE requirements including ASME NQA-1.
 - 3.19 Provides weekly status report describing work efforts.
 - 3.20 Develops appropriate assessment plans and assists the FRITs in performing direct oversight, monitoring, and/or independent inspection and oversight of the contractor.
 - 3.21 Provides experience as Subject Matter Expert (SME) for DOE relative to start-up and testing (i.e., ASME NQA-1) requirements.
Provides experience as Subject Matter Expert (SME) for DOE relative to testing to operations, including testing and readiness preparations, and activities.
 - 3.22 Reviews commissioning test procedures and work package document reviews providing suggestions and/or providing discussion to the FRITs for foreseen obstacles on methods and procedures in solving problems and meeting changing demands with Parsons Representatives.
 - 3.23 Reviews technical problems and procedures and recommends solutions to problems or changes in procedures to DOE and Parsons.
 - 3.24 Oversees start-up and testing activities in the facility with the FRITs assigned to the DOE SWPFPO. Assists the FRITs in documenting their assessments in the DOE assessment database (STAR).
 - 3.25 Attend meetings such as Joint Test Group meetings, Commissioning and Operations Schedule Integration Meeting, System Planning Meeting as requested to provide support to the DOE lead for testing procedure review.
 - 3.26 Assist SWPF PO Lead Fac Rep and C&O Division Director in developing Fac Rep questions for final examination.
 - 3.27 Assist SWPF PO Lead Fac Rep and C&O Division Director in developing questions and directions for conducting final walkdowns with FRITs.
 - 3.28 Assist SWPF PO Lead Fac Rep and C&O Division Director in developing questions for final Fac Rep oral boards.

4.4 STATUS BRIEFINGS:

- 4.5 Brief progress every week to DOE-SR Commissioning and Operations Division Director.
- 4.6 Provide update briefings as requested to the Deputy Federal Project Director and/or Federal Project Director.

5.0 DELIVERABLE SCHEDULE:

Develop and submit final examination questions, final walkdown directions and questions, and oral board questions Provide field oversight mentoring and conducting and writing assessment reports to FTIRs.

8.0 PLACE OF PERFORMANCE

The place of performance shall be at the Government’s facility: Savannah River Site, Savannah River Operations Office, Aiken, SC 29802.

**Statement of Work
National Nuclear Security
Administration
Savannah River Field Office
Safety and Security Technical
Support Services**

1.0 PURPOSE:

This position is located in the Office of the Assistant Manager for Facilities and Projects (AMFP), Savannah River Field Office (SRFO) and serves as the Safety and Security Administrative/Technical Support Services Professional for AMFP programs and activities. This position is responsible for providing a variety of administrative and technical support as assigned and is heavily involved in the day-to-day activities of AMFP. As such, the demand for effective communication with an emphasis on confidentiality, discretion, flexibility and a high level of professionalism is a must.

The incumbent will participate in the execution of the AMFP Safeguards and Security (S&S) program providing assistance in the management and administration of an effective security program for itself and its contractors. Specifically, assistance will involve implementation of NNSA S&S NNSA Policy Letters (NAPs) into facility requirements; and planning and coordination of administrative functions within AMFP to include conducting reviews, report writing and effective collaboration skills.

This position necessitates general knowledge of safeguards and security principles, practices, methods and expert computer techniques. The contractor employee working under this contract shall be sufficiently qualified to perform the administrative and technical tasks as described herein.

2.0 SCOPE:

- Perform as a subject matter expert in the operation of the Safeguards and Security Information Management System (SSIMS), a cross-agency database that houses contracting, survey and issues for all S&S matters within the organization. The responsibilities of this position shall require the knowledge to keep the database and all associated records current concerning surveys, findings, and minimal changes to Facility Data and Approval Records (FDAR); and the ability to search, track and trend data mined from the system in order to understand the historical S&S decisions made and aid in interpretation of the current state of affairs. Training and access to SSIMS requires a Q level security clearance.

- Participates on ad-hoc teams comprised of engineers from multiple disciplines by providing analysis to identify and resolve complex technical and operational problems. They must be able to provide sound recommendations on programmatic risk or issues.
- Assists in the scheduling, coordination and conduct of security risk assessments. Reviews findings of security risk assessments and ensures that proposed corrective actions are compliant with all applicable guidelines (laws, rules, regulation, policies, etc). Provide recommendation on the effectiveness of proposed corrective actions to Federal staff for final approval prior to implementation.
- Perform as the technical editor of over a dozen federally-owned S&S procedures, plans, Memorandum of Agreement (MOA)/Memorandum of Understand (MOU), and/or manuals, which require bi-annual, if not more frequent, review. These documents are voluminous and technically precise, requiring a great deal of attention to detail and latest knowledge of directive revisions, as well as their contents. The goal is to maintain quality documents that are current and incorporate the latest requirements.
- Assists SRFO Federal Technical Capability Program (FTCP) regarding the Technical Qualification Program (TQP), FTCP Workforce Analysis, and competency management issues and reviews. Provides support to the SRFO FTCP Agent and his/her alternate in monitoring, tracking and reporting of SRFO Federal Technical Capability status.
- Provide technical coordination and document editing services (reviewing, assessing, and linking government requirements to the Tritium Facility (TF) and the Mixed Oxide (MOX) Fuel Fabrication Facility Project documents). This position includes the development of multiple cross-walks and matrices as well as reviewing NAPs analyses, plans, and implementation procedures. Additionally, cross-checking other federal procedures for references to directives superseded by more current NAPs or Orders will need to be periodically accomplished.
- Provide, on a quarterly basis, a status of the federal contractor S&S program. Technical writing and consolidation of input into a combined report is required. The employee is expected to cross-check information provided by the contractors to ensure a cohesive picture appears and that the federal document meets the needs of the NNSA headquarters customers.
- Assist with technical planning and follow-up tracking of federal S&S survey and self-assessments. The employee shall be expected to coordinate all activities associated with the federal involvement in the contractor Master Assessment Schedule. There shall also be a need to compose, coordinate comments, edit, and publish Survey reports following the assessment period. Coordination with both the Department of Energy-Savannah River Operations Office (DOE-SR) and NNSA is required for these activities.
- Possess organizational skills that support effective action tracking to ensure AMFP remains successful in completing required items prior to due date. Additional to that, the employee shall have the ability and knowledge of directives required to monitor and aid in the proper closure of issues (Findings, Observations, Opportunity for Improvement).

- This position shall also require working knowledge of the Site badging system in order to ensure that all incoming badging needs are processed efficiently, correctly and within Site-issued protocols. Establishing agendas and coordinating visits and senior management meetings is also required.

3.0 DELIVERABLE SCHEDULE:

Specific Deliverables are located in the table below.

PWS Task	Deliverable Title	Format	Due Date	Distribution / Copies	Frequency / Remarks
Technical Support	Survey and Self-Assessment reports		Upon survey completion		Four annually
Technical Support	Annual Operating Plan (AOP) Updates		Quarterly		Four annually
Technical Support	SRFO Federal Technical Capability status.		Quarterly & Annually		Five annually
Administrative Support	Badge Request		As required		As required
Administrative Support	Status documents		As required		As required

4.0 SKILLS AND QUALIFICATIONS

Ability to comprehend and comply with applicable federal, state, and local laws and regulations; be trained and qualified on the Safeguards and Security Information Management System (SSIMS); and possess the ability to obtain and retain the appropriate clearance level (Q-clearance).

Knowledge of AMFP programs, goals, objectives and priorities, coupled with a wide range of administrative and work processes is required in order to provide effective and efficient support services. Knowledge of proper grammar usage/functions to assure proper documentation, accuracy of work and efficient organization and completion of tasks to ensure AMFP projects and assignments are accurately recorded, tracked and are completed in a timely manner.

Knowledge of general S&S principles, procedures, methodology and administration sufficient to compile and compose written reports based on reviews and other supporting documentation.

Ability and skill to handle multiple, competing priorities from multiple AMFP staff is required.

Ability and skill to present material orally and in writing sufficient to present issues and/or to effectively communicate and provide advice and assistance to AMFP staff and management level personnel.

5.0 Government Furnished Resources / Government Furnished Equipment (GFE) / Government Furnished Information (GFI)

The Government will furnish all facilities, materials, property, and equipment for on-site use in the performance of this contract as specified. Under limited circumstances, such as during meetings held in off-site locations, the Government will provide facilities, materials, property and equipment for tasks not requiring a continuous on-site presence. The following will be provided during on-site activity of this contract:

- a. Computer system with access to the site network.
- b. A work area consisting of a desk, telephone, temporary storage for equipment, and office supplies applicable to the job.
- c. Access to a copier, scanner, and FAX machine.
- d. All specialized computer and other equipment required to complete deliverables.

6.0 Travel Requirements

The Government shall reimburse all travel related to the conduct of this contract. Point of origin for travel will be determined as the SRS. All travel will be in compliance with the Federal Travel Regulations (FTR). All travel must be approved or authorized by the Task Manager. Requests for travel reimbursements must be submitted monthly along with vouchers and must include documentation of charges, if requested. Some travel is required for this position; however, no more than 40 hours annually in the performance of this effort may be necessary.

7.0 PLACE OF PERFORMANCE

The place of performance shall be at the Government's facility: Savannah River Site, Savannah River Operations Office, Aiken, SC 29802 or as otherwise designated by the Task Manager / Contracting Officer Representative in support of the NNSA Savannah River Field Office.
