**Re: Bear Head LNG, LLC  
DOE Semi-Annual Report  
DOE/FE Order No. 3681, FE Docket No. 15-33-LNG  
DOE/FE Order No. 3770, FE Docket No. 15-33-LNG**

To: Office of Natural Gas Regulatory Activities:

Pursuant to Ordering Paragraph J of DOE/FE Order 3681 and Ordering Paragraph N of DOE/FE Order 3770, please accept this progress report for Bear Head LNG, LLC ("Bear Head LNG"). This report covers the period from April 1, 2019, through September 30, 2019. Consistent with Ordering Paragraphs J and N, respectively, Bear Head LNG will continue to file semi-annual reports with the Department.

Any questions regarding this correspondence may be directed to the undersigned counsel at 202.778.9014 or [david.wochner@klgates.com](mailto:david.wochner@klgates.com).

Very truly yours,

David L. Wochner  
*Counsel for Bear Head LNG, LLC*

**U.S. Department of Energy**  
Bear Head LNG Corporation Inc.  
FE Docket No. 15-33-LNG  
DOE/FE Order Nos. 3681 and 3770  
Semi-Annual Report for the Period Ending September 30, 2019

Pursuant to Ordering Paragraph J of DOE/FE Order 3681 and Ordering Paragraph N of DOE/FE Order 3770, Bear Head LNG Corporation Inc. (“Bear Head LNG”) submits below its semi-annual progress report covering the period April 1 through September 30, 2019.

## **Background**

Bear Head LNG, located in Point Tupper, Nova Scotia, Canada, first received its Canadian federal, provincial, and local agency permits in 2004. Bear Head LNG’s parent company, Liquefied Natural Gas Limited (LNGL), acquired Bear Head LNG in 2014.

On July 17, 2015, in Order No. 3681 in FE Docket No. 15-33-LNG, the U.S. Department of Energy’s Office of Fossil Energy (DOE/FE) issued an order authorizing Bear Head LNG to (1) export natural gas to Canada via pipeline for end-use in Canada, and to (2) re-export U.S.-sourced natural gas, after liquefaction in Canada, to countries with which the United States has a free trade agreement requiring national treatment for trade in natural gas (FTA countries).

On August 13, 2015, in Licence Nos. GL-315 and GL-316 and file number OF-EI-Gas-GL-B275-2014-01 01, Canada’s National Energy Board (NEB) issued an order granting Bear Head LNG licenses to both export and import natural gas, respectively.

On February 5, 2016, in Order No. 3770 in FE Docket No. 15-33-LNG, DOE/FE issued an order authorizing Bear Head LNG to export liquefied natural gas to any other country with which trade is not prohibited by United States law or policy (non-FTA countries). Simultaneously, in Order No. 3769 in FE Docket No. 15-14-NG, DOE/FE issued an order disclaiming jurisdiction over Bear Head LNG’s proposed imports of Canadian natural gas via pipelines through the United States on its way back to Canada (i.e., in-transit shipments).

Since the last semi-annual report, the following progress has occurred:

- On July 22, 2019, the board of directors of Bear Head LNG’s parent company, Liquefied Natural Gas Limited (“LNG Ltd.”), announced its decision to re-domicile LNG Ltd. to the United States and to list on the NASDAQ Stock Exchange. LNGL expects to complete this transaction in late 2019 or early 2021, although the timing of completion of this re-domicile process depends on securing regulatory and judicial approvals in the United States and Australia and an affirmative shareholder vote. Following the re-domicile process, each shareholder will retain the same relative stake as the shareholder held prior to the re-domicile.

In addition, during this period Bear Head LNG worked to close remaining conditions to fully permit the project for construction.
