Rocky Mountain Region, Western Area Power Administration

Flatiron-Dixon Creek 115-kV Transmission Line Structure Replacements Larimer County, Colorado Project Number: 2019-073 Expiration Date: December 31, 2022

A. <u>Brief Description of Proposal</u>: Western Area Power Administration (WAPA), Rocky Mountain Region (RMR), proposes to replace existing Structures 0/5 and 5/7 on its Flatiron to Dixon Creek (F-DIC) 115-kV Transmission Line in Larimer County, Colorado. The new structures will be 5 to 10 feet taller than the existing structures and have minor structural updates to meet current WAPA design standards, but will be visually similar to the existing structures. The full scope of the structure replacement will include removing the existing structures, auguring structure holes, installing the new wood poles, backfilling the structure holes, and installing new hardware. Work will occur on private land. Equipment may include bucket trucks, truck-mounted augers and cranes, skid-steer loaders, utility trucks, pole trailers, and equipment trailers. All work will be confined to WAPA's right-of-way. Existing access routes will be used and no road maintenance or new road construction will occur.

B. Special Stipulations Pertaining to the Proposal:

- 1) If the scope of work of this project changes, RMR's Environment Department must be contacted to determine whether additional environmental review is required.
- 2) **This Categorical Exclusion expires on December 31, 2022.** If all project work has not been completed by the expiration date, or if the need for an environmental compliance extension is anticipated, RMR's Environment Department must be contacted for an updated environmental review.
- 3) Any injured or orphaned birds, and all active nest relocations, must be immediately reported to the RMR Avian Protection Lead at (970) 593-8803. Any dead birds must be reported to the RMR Avian Protection Lead within twenty-four (24) hours of discovery. Additional documentation, such as photographs and GPS coordinates, may be requested to support RMR's reporting requirements to the U.S. Fish and Wildlife Service.
- 4) Transmission line components must be designed and constructed in conformance with the most current editions of *Suggested Practices for Avian Protection on Power Lines* and *Reducing Avian Collisions with Power Lines*, both published by the Avian Power Line Interaction Committee (APLIC), to minimize avian collision and electrocution risk while maintaining safe and reliable electrical service.
- 5) If any cultural resources are inadvertently discovered during implementation of the proposed action, work within 100 feet of the discovery area must halt immediately and an RMR Archaeologist must be contacted immediately at (970) 461-7563 or (970) 461-7214. Work in the area of discovery must not resume until notification to proceed is provided by an RMR Archaeologist.

Rocky Mountain Region, Western Area Power Administration

Flatiron-Dixon Creek 115-kV Transmission Line Structure Replacements Larimer County, Colorado Project Number: 2019-073 Expiration Date: December 31, 2022

- 6) If any possible human remains are inadvertently discovered during implementation of the proposed action, work within 100 feet of the discovery area must halt immediately and an RMR Archaeologist must be notified immediately at (970) 461-7563 or (970) 461-7214 (no later than 24 hours from the time of discovery). A reasonable effort must be made to protect the remains from looting and/or further damage. Work in the area of discovery must not resume until notification to proceed is provided by an RMR Archaeologist.
- 7) To prevent the transport of non-native and invasive plants and animals, including noxious weeds and aquatic nuisance species, work crews must thoroughly wash all vehicles and equipment (trailers, trucks, UTVs, etc.) before entering the action area and working on the project.
- 8) Activities involving the use of fuel, oil, hydraulic fluid, or other petroleum products must comply with RMR's Spill Response Plan (SRP).
- C. <u>Number and Title of the Categorical Exclusion Being Applied</u>: (See text in 10 CFR Part 1021, Subpart D.)
 - B1.3 Routine maintenance
- **D.** Regulatory Requirements in 10 CFR Part 1021.410 (b): (See full text in regulation and attached checklist.)
 - 1) The proposed action fits within a class of actions listed in Appendix A or B to Subpart D.

For classes of actions listed in Appendix B, the following conditions are integral elements. To fit within a class, the proposal <u>must not</u>:

- Threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, or similar requirements of DOE or Executive Orders;
- Require siting and construction or major expansion of waste storage, disposal, recovery, or treatment facilities (including incinerators), but the proposal may include categorically excluded waste storage, disposal, recovery, or treatment actions or facilities;
- Disturb hazardous substances, pollutants, contaminants, or CERCLA-excluded petroleum and natural gas products that preexist in the environment such that there would be uncontrolled or unpermitted releases;

Rocky Mountain Region, Western Area Power Administration

Flatiron-Dixon Creek 115-kV Transmission Line Structure Replacements Larimer County, Colorado Project Number: 2019-073 Expiration Date: December 31, 2022

- Have the potential to cause significant impacts on environmentally sensitive resources. An environmentally sensitive resource is typically a resource that has been identified as needing protection through Executive Order, statute, or regulation by Federal, State, or local government, or a federally-recognized Indian tribe. An action may be categorically excluded if, although sensitive resources are present, the action would not have the potential to cause significant impacts on those resources (such as construction of a building with its foundation well above a sole-source aquifer or upland surface soil removal on a site that has wetlands). Environmentally sensitive resources include, but are not limited to, those listed in paragraph B. (4) (see Attachment A).
- 2) There are no extraordinary circumstances related to the proposal that may affect the significance of the environmental effects of the proposal.
- 3) The proposal is not "connected" to other actions with potentially significant impacts, is not related to other proposed actions with cumulatively significant impacts, and is not precluded by 40 CFR Part 1506.1 or 10 CFR Part 1021.211.
- **E.** <u>Determination</u>: Based on my review of information provided to me and in my possession concerning the proposed action, I have determined that the proposed action fits within the specified class of actions, the other regulatory requirements set forth above are met, and the proposed action is categorically excluded from requirements for an EA or an EIS.

ATTACHMENT A

Conditions That Are Integral Elements of the Classes of Actions in Appendix B That Apply to This Proposal

Checklist for Categorical Exclusion Determination, revised Nov. 2011

Application of Categorical Exclusions (1021.410)	Disagree	Agree	Unknown
(b)(1) The proposal fits within a class of actions that is listed in appendix B to		X	
subpart D.			
(b)(2) There are no extraordinary circumstances related to the proposal that		X	
may affect the significance of the environmental effects of the proposal,			
including, but not limited to, scientific controversy about the environmental			
effects of the proposal; uncertain effects or effects involving unique or			
unknown risks; and unresolved conflicts concerning alternate uses of			
available resources.			
(b)(3) The proposal has not been segmented to meet the definition of a		X	
categorical exclusion. Segmentation can occur when a proposal is broken			
down into small parts in order to avoid the appearance of significance of the			
total action. The scope of a proposal must include the consideration of			
connected and cumulative actions, that is, the proposal is not connected to			
other actions with potentially significant impacts (40 CFR Part			
1508.25(a)(1)), is not related to other actions with individually insignificant			
but cumulatively significant impacts (40 CFR Part 1508.27(b)(7)), and is not			
precluded by 40 CFR Part 1506.1 or § 1021.211 of this part concerning			
limitations on actions during EIS preparation.			
B. Conditions that are Integral Elements of the Classes of Actions in	NO	YES	Unknown
Appendix B.			
(1) Threaten a violation of applicable statutory, regulatory, or permit	X		
requirements for environment, safety and health, or similar requirements			
of DOE or Executive Orders.			
(2) Require siting and construction or major expansion of waste storage,	X		
disposal, recovery, or treatment facilities (including incinerators), but the			
proposal may include categorically excluded waste storage, disposal,			
recovery, or treatment actions or facilities.			
(3) Disturb hazardous substances, pollutants, contaminants, or CERCLA-	X		
excluded petroleum and natural gas products that preexist in the			
environment such that there would be uncontrolled or unpermitted			
releases.			
(4) Have the potential to cause significant impacts on environmentally	X		
sensitive resources. An environmentally sensitive resource is typically a			
resource that has been identified as needing protection through Executive			
Order, statue, or regulation by Federal, State, or local government, or a			
federally-recognized Indian tribe. An action may be categorically			
excluded if, although sensitive resources are present, the action would not			
have the potential to cause significant impacts on those resources (such as			
construction of a building with its foundation well above a sole-source
