State and Local Planning for Energy (SLOPE) Platform

SLOPE Platform – Agenda

- **Introduction of State and Local Planning for Energy (SLOPE) Platform Beta**
  - ❖ Jenah Zweig, Supervisor of Partnerships & Technical Assistance, DOE

- **SLOPE Beta Demonstration and Example Use Cases**
  - ❖ Megan Day, Senior Energy Planner, NREL

- **Stakeholder Q&A**
  - ❖ Moderated by: Aaron Ng, Science, Technology, and Policy Fellow, DOE

SLOPE Platform – What is it?

➢ A collaboration between eight Department of Energy (DOE) technology offices and the National Renewable Energy Laboratory (NREL)

➢ A tool to enable more data-driven state and local energy planning by integrating dozens of distinct sources of energy efficiency, renewable energy, and (coming in 2020) sustainable transportation data and analyses

➢ An easy-to-access, online platform that more effectively supports state and local energy planning and decision making

SLOPE Platform – We Want to Hear from You!
