## NEPA REVIEW SCREENING FORM (NRSF) 3A Categorically Excluded Actions

DOE/CX-00076 Rev6

## I. Project Title:

CHPRC Annual Categorical Exclusion (CX) - B1.16 Asbestos Removal, December 2019 to December 2020

II. Describe the proposed action, including location, time period over which proposed action will occur, project dimension (e.g., acres displaced/disturbed, excavation length/depth), and area/location/number of buildings. Attach narratives, maps and drawings of proposed action. Describe existing environmental conditions and potential for environmental impacts from the proposed action. If the proposed action is not a project, describe the action or plan.

CH2M HILL Plateau Remediation Company (CHPRC) and its subcontractors remove asbestos-containing materials (ACM) from buildings in accordance with applicable requirements (such as 40 CFR part 61, "National Emission Standards for Hazardous Air Pollutants"; 40 CFR part 763, "Asbestos"; 29 CFR part 1910 subpart I, "Personal Protective Equipment"; and 29 CFR part 1926, "Safety and Health Regulations for Construction"; and appropriate state and local requirements, including certification of removal of contractors and technicians).

As part of the modification or demolition of buildings and structures, ACM would be removed, handled, and encapsulated as needed with incidental materials (ventilation ducting, piping) and other wastes (demolition debris) pursuant to DOE orders, Federal and state regulations, and other applicable guidelines. Construction equipment would be transported to specific locations where ACM would be removed and temporary structures (office/change trailers) would be established to facilitate removal of ACM. ACM and associated wastes would be packaged, transported, and dispose at on-site or off-site facilities; incidental materials may be recycled, reused or disposed. All Actions would be performed in compliance with DOE orders, federal and state regulations and quidelines.

Actions performed under this Annual CX include those listed in the CHPRC contract (DE-AC06-08RL14788) Section J.3, Hanford Site Services and Interface Requirements Matrix and implementing protocols, policies, and procedures. The buildings, structures, infrastructures, and equipment covered by this Annual CX include those listed in Sections J.13, Hanford Site Structures List and J.14, Hanford Waste Site Assignment List, where CHPRC is the assigned contractor or provides services to other Hanford Wite contractors.

This Annual CX covers recurring actions that meet the requirements and conditions that are "integral elements" for applying CXs (see 10 CFR 1021, Subpart D, B. Conditions that are Integral Elements of the Classes of actions in Appendix B). Actions would not individually or cumulatively have significant effects on the human environment; would fit CX definitions, including any caveats for use of the CX; would not have "extraordinary circumstances" [see 10 CFR 1021.410(b) (2)] that may affect the significance of environmental effects of the proposal; and would not be divided into smaller actions (segmentation) to meet CX definitions. CXs include foreseeable activities necessary for implementing actions, such as award of grants and contracts, site preparation, purchase and installation of equipment, and associated transportation activities [10 CFR 1021.410(d)].

Ecological resource reviews would be performed to identify plant and animal species protected under the Endangered Species Act (ESA), and candidates for protection or listing by Federal or State agencies as threatened or endangered. These reviews would be consistent with the Hanford Site Biological Resources Management Plan (DOE/RL-96-32) and other applicable protocols, policies, and procedures. Caution would be exercised during the bird nesting season (mid-March to mid-July). If nesting birds, a pair of birds of the same species, or bird defensive behaviors are observed, then work would stop and the DOE Ecological Resources Program would be contacted for guidance. The ecological resource review would identify any necessary mitigation measures, which would be implemented as determined by the DOE Ecological Resources Program.

Cultural and historic resource reviews would be performed to identify resource protection consistent with the National Historic Preservation Act (NHPA); Programmatic Agreement among the DOE, Advisory Council on Historic Preservation (ACHP), and Washington State Historic Preservation Office (SHPO) for Maintenance, Deactivation, Alteration, and Demolition of the Built Environment on the Hanford Site (DOE/RL-96-77); the Hanford Site Manhattan Project and Cold War Era Historic District Treatment Plan (DOE/RL-97-56); the Cultural Resources Management Plan (DOE/RL-98-10); and other applicable guidance documents, such as the Gable Mountain and Gable Butte Management Plan [DOE/RL-2008-17], negotiated Memorandums of Agreement, and other applicable protocols, policies, and procedures. Workers would be directed to watch for cultural materials (e.g., bones, stone tools, mussel shells, cans, and bottles). If encountered, work near the discovery would stop

until the DOE Cultural and Historical Resources Program is contacted, the significance of the find determined, appropriate Tribes notified, and mitigation measures arranged and implemented.

CHPRC's Environmental Compliance Officers and NEPA Subject Matter Experts would ensure that applicable requirements and conditions are met prior to applying this Annual CX to actions. This includes compliance with the Clean Air Act, Clean Water Act, and other applicable laws and regulations; as well as conformance with applicable NEPA Environmental Assessments (EAs) or Environmental Impact Statements (EISs), such as the Hanford Site Comprehensive Land-Use Plan Environmental Impact Statement (DOE/EIS-0222-F) and Record of Decision (ROD), which provides land-use maps, designations, policies, and procedures.

This Annual CX is approved pursuant to 10 CFR 1021.410(f) in which proposed recurring actions undertaken during a specified time period, such as routine maintenance for a year, may be addressed in a single CX determination after considering the potential aggregated impacts to ensure no extraordinary circumstances exist.

III. Existing Evaluations (Provide with NRSF to DOE NCO):		
Ecological Review Report No. and Title:		
Cultural Review Report No. and Title:		
Maps:		1-21
Other Attachments:		
IV. List applicable CX(s) from Appendix B to Subpart D of 10 CFR 1021; B1.16 Asbestos Removal		
V. Integral Elements and Extraordinary Circumstances (See 10 CFR 1021, Subpart D, B. Conditions that are Integral Elements of the Class of Actions In Appendix B; and 10 CFR 1021.410(b)(2) under Application of Categorical Exclusions)	Yes	No
Are there extraordinary circumstances that may affect the significance of the environmental effects of the proposed action? If yes, describe them.	0	•
Is the proposed action connected to other actions with potentially significant impacts, or that could result in cumulatively significant impacts? If yes, describe them.	0	0
Would the proposed action threaten a violation of applicable statutory, regulatory, or permit requirements related to the environment, safety, health, or similar requirements of DOE or Executive Orders?	0	•
Would the proposed action require siting, construction, or major expansion of waste storage, disposal, recovery, or treatment facilities?	0	•
Would the proposed action disturb hazardous substances, pollutants, contaminants, or natural gas products already in the environment such that there might be uncontrolled or unpermitted releases?	0	•
Would the proposed action have the potential to cause significant impacts on environmentally sensitive resources? See examples in Appendix B(4) to Subpart D of 10 CFR 1021.	0	•
Would the proposed action involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or invasive species, such that the action is not contained or confined in a manner designed, operated, and conducted in accordance with applicable requirements to prevent unauthorized release into the environment?	0	•
If "No" to all questions above, complete Section VI, and provide NRSF and any attachments to DOE NCO for review.  If "Yes" to any of the questions above, contact DOE NCO for additional NEPA review.
