This schedule covers accountable officers’ returns and related records, including records under the cognizance of the General Accountability Office (GAO).

Accountable officers' accounts include record copies of all records concerned with the accounting for, availability, and status of public funds. There are several types of "accountable officers," such as: (a) the collecting officer, who receives monies owed to the Federal Government and ensures that it is credited to the proper account; (b) the disbursing officer who is responsible for providing documentation to GAO, since he/she accomplishes the actual payment of public monies to proper Federal creditors; and (c) the certifying officer, whose signature on a summary attests to the authenticity of vouchers listed on the schedule.

Disbursements are made by the Chief Disbursing Officer of the Treasury, who heads the Division of Disbursement of the Bureau of Government Financial Operations within the Treasury Department. Disbursements are made on the basis of certified schedules, with the detailed vouchers held in Departmental space for site audit. This procedure was extended and confirmed by GAO General Regulations No. 115, issued January 29, 1952, which promulgated a standard form voucher and schedule of payments (Standard Form 1166 and 1167) for use by the Department.

On-site audit by GAO covers vouchers, contracts, schedules, statements of transactions and accountability and other related supporting documents. If the records are no longer required for administrative purposes, all audited and any unaudited records more than one full fiscal year old may be transferred to Federal records centers. The transfer of unaudited accountable officers’ accounts less than one year old requires obtaining permission from the Director, Records Management, GAO. The creation of memorandum copies as described in item 1b of this schedule is unnecessary because the records are retained for site audit in the Department.

Records relating to the availability, collection, and custody of funds include (1) the appropriation warrants, (2) other documents which deposit funds into the Treasury, and (3) documents which provide accountable officers with status reports on funds in their custody, such as the proofs of depository account and statements of funds to their credit. Departmental copies of these deposit and status documents are related to the accounts of these officers and are included in this schedule. All records described in this schedule are authorized for disposal in both hard copy and electronic formats. Retirement of noncurrent records to inactive storage is authorized.
