PMC-ND		U.S.	5. DEPART	MENT OF ENER	GY		ANT STORE OF
(1.08.09.13)	OFI		GY EFFICI	IENCY AND REN TERMINATION	-	ENERGY	
RECIPIENT:	Denver Metro C	lean Cities Coalition				STATE:	со
PROJECT TITLE :	Delive	Delivering Clean Air in Denver: Propane Trucks and Infrastructure in Mail Delivery Application					
		unity Announcement Number E-FOA-0002197		Procurement Instrument Number DE-EE0009216		NEPA Control Number	CID Number
Based on my review of	the information co	ncerning the proposed action, as NEPA Co	ompliance Officer (authori	zed under DOE Policy 451.1), I have made t	he following determination		
CX, EA, EIS APPEND Description:		:					
A9 Information gathering, analysis, and dissemination		Information gathering (including, but not limited to, literature surveys, inventories, alte visits, and audits), data analysis (including, but not limited to, computer modeling), document preparation (including, but not limited to, computer underging, feasibility studies, and analysis energy supply and demand studies), and information desemination (including, but not limited to, computer modeling), document publication and distribution, and classroom training and information desemination (including, but not limited to, computer modeling), document publication and distribution, and classroom training and information desemination (including, but not limited to, computer modeling), and information desemination (including, but not limited to, computer modeling), but not including support and analysis (including, but not limited to, computer modeling), document publication and distribution, and classroom training and information desemination (including, but not limited to, computer modeling).					
B3.6 Small-scale research and development, laboratory operations, and pilot projects		sample analysis); and small-scale pilot projects (generally less than 2 years) fequently conducted by verify a concept before demonstration actions, provided that construction or modification would be within or contiguous to a previously disturbed or devicepted area (where active utilities and currently used roads are readily accessible). Not included in this category are demonstration actions, meaning actions that are undertaken at a scale to show whether a technology would be viable on a larger scale and suitable for commercial deployment.					
B5.1 Actions to conserve energy or water		(a) Actions to conserve energy or water, demonstrate potential energy or water conservation, and promote energy efficiency that would not have the potential to cause significant changes in the indoor or outdoor concentrations of potential, harmful substances. These actions may involve financial and technical assistance to findividuals (such as builders, owners, consultants, manifacturers, and designers), organizations (such as site, local, and tribal). Covered actions may involve financial and technical assistance to individuals (such as builders, owners, consultants, manifacturers, and designers), organizations (such as state, local, and tribal). Covered actions include, but are not limited to weatherization (such as insulation and replacing windows and doors); programmed lowering of thermostat settings; becoment of timers on how are heaters, installation or replacement of energy efficient gifting, low-10 kputhing finitures (such as functes, bitters, and showeheads), heating, wentalian, and are conditioning systems; and applicances; installation of dirp-trigation systems; improvements for vehicles and transportation (such as filed changeout) power storage (such as Stylwheels and butteries; generally less than 10 megawatt equivalent); transportation management systems (such as staffo signal control systems; can ravigation, speed cameras, and autoration include building renovations or new structures, provided that they occur in a previously disturbed or developed area. Covered actions could involve commercial, residential, agricultural, academic, institutional, or industrial sectors. Covered actions include building renovations simulares and industie equipment, provided that they occur in a previously disturbed or developed area. Covered actions could involve commercial, residential, agricultural, academic, infastrutel such as studices and inclusted equipment, provided that they conservation studies of non-studies of available resonances include fullemakings, standard-setings, or proposed DOE legislation, exc					
B5.22 Alternative fuel vehicle fueling stations		current or former fueling station, or within	n apreviously disturbed or de	el vehicle fueling stations (such as for compresse veloped area within the boundaries of a facility n proposed project area and would incorporate ap	managed by the owners of a	vehicle fleet. Covered actions would	ble biofuels) on the site of a be in accordance with applicable
Rationale for determina	tion:						
NEPA PROVISION DOE has made	e a final NEPA deter	rmination.					
FOR CATEGORICAL	EXCLUSION DET	FERMINATIONS					
Appendix B, a pro construction or ma hazardous substand environmentally s invasive species, 1	posal must be one ti ajor expansion of wa ces, pollutants, conta ensitive resources, in unless the proposed a	hat would not: (1) threaten a violation of app iste storage, disposal, recovery, or treatment aminants, or CERCLA-excluded petroleum ncluding, but not limited to, those listed in p	plicable statutory, regulatory, tt facilities (including incinera and natural gas products tha paragraph B(4) of 10 CFR Par	hat is listed in Appendix A or B to 10 CFR Part , or permit requirements for environment, safety itors), but the proposal may include categoricall tpreexist in the environment such that there wor rt 1021, Subpart D, Appendix B; (5) involve ge led to prevent unauthorized rekase into the envi	y, and health, or similar requ ly excluded waste storage, di uld be uncontrolled or unper netically engineered organis	irements of DOE or Executive Orde sposal, re covery, or treatment actio rmitted releases; (4) have the potent ms, synthetic biol ogy, governmenta	rs; (2) require siting and ns or facilities; (3) disturb ial to cause significant impacts on Illy designated noxious weeds, or
There are no extra	aordinary circumsta	nces related to the proposed action that may a	affect the significance of the	environmental effects of the proposal.			
				not connected to other actions with potentially 06.1 or 10 CFR 1021.211 concerning limitation			
The proposed acti	on is categorically e	excluded from further NEPA review.					
SIGNATURE OF THI	S MEMORANDUM	CONSTITUTES A RECORD OF THIS	S DECISION.
