Hi Beverly,

Yes – that is correct. I confirm that Southern LNG Company is only seeking to export LNG that was previously imported from foreign sources to be exported from the Elba Island terminal.

Thanks,
Meghan

Hi Meghan:

I just wanted to confirm that Southern LNG Company is only seeking to export LNG that was previously imported from foreign sources to be exported from the Elba Island terminal. The effective date will April 1, 2021 following the expiration of Order 4026, which was for the short term export of domestically produced LNG. However, this pending new authorization as described, the export of previously imported LNG from foreign sources. You may reply with your confirmation to this email. Once the federal register notice has been published, I will contact you, should no other questions arise, but please feel free to contact me at any time to know the status, or other related questions. Thank you and have a wonderful afternoon!

Beverly H.

Southern LNG hereby respectfully requests that DOE resume review of its application in DOE/FE Docket 20-99-LNG. Please let me know if you have any questions or need additional information.

Thanks,
Meghan

Hi Meghan:

Thank you for the email response below. I will update the docket file for Southern with this information. As for the timing of when you should contact DOE/FE to resume processing your application/authorization request, please contact our Office by no later than January 1, 2021 (90

days prior to your effective date of April 1, 2021). You may submit your request by email to FERGAS@hq.doe.gov. The docket number will remain FE Docket No. 20-99-LNG. Thank you once again, and have a wonderful afternoon!

Thank for this email. Southern LNG hereby selects option 2 and requests via this email that DOE/FE hold our application in abeyance in FE Docket No. 20-99-LNG.

Can you please advise when we should request to act on the application in early 2021? We recognize that it is our responsibility to resume but would like to ensure that DOE has sufficient time to process for a seamless transition with authorizations.

Thanks,
Meghan

[This email message was received from the Internet and came from outside of Kinder Morgan]

[Emails from the Internet can be dangerous and may contain malware!]

[Stop. Review this email before you click!]

Hello,

We wanted to let you know that, on review of this application in DOE/FE Docket 20-99-LNG, it appears to request duplicate authority to what is currently granted in [DOE FE Docket No. 18-15-LNG/Order No. 4206](#). That order (specifically, Ordering Paragraph A) authorizes the export of “domestically produced LNG and previously imported LNG,” and does not limit the exports to commissioning volumes. Although we appreciate your diligence in seeking to avoid any lapse in authority, you may continue relying on Order No. 4206 until it expires.

Accordingly, we ask that you either:

- (1) Withdraw the new application and re-submit it closer to the needed effective date; or
- (2) Request via email that DOE/FE hold the new application in abeyance in FE Docket No. 20-99-LNG. Under this option, it will be Southern LNG’s responsibility to email DOE/FE to request that we act on the application in early 2021.

If you opt for #2, we presumably would process the application to be a continuation of Order No. 4206 with a proposed effective date of April 1, 2021 (two years from the effective date of Order No. 4206, March 31, 2019), unless you request otherwise.

Thanks for your guidance on that point, and please let us know of any questions or concerns.

Amy
