2. Solicitation
3. Helpful Resources and Partnerships
4. Financial Assistance vs 638 Contracts
5. Notable Items
TCRP Purpose

Empower Federally-recognized tribes and BIA Trust managers to achieve long-term program goals by mainstreaming climate change considerations to reduce risk to tribal and Trust resources.

- Enable identification of climate resilience strategies to improve outcomes for existing program operations
- Planning and project design can minimize impacts, reduce the scale of emergencies, infrastructure damage, and threats to human health and well-being
- Leadership engagement, delivery of data and tools, training, tribal capacity-building and federal coordination for improved planning and management

*Implementation is largely the responsibility of the Tribal Program
TCRP Focus Areas

TCRP supports resilient **adaptation planning** for climate risks

TCRP supports **management**, and **relocation**, **managed retreat** and **protect-in-place planning** in coastal and riverine communities

TCRP also supports **ocean and coastal management and planning**

- Includes Great Lakes tribes
