SUBJECT: SENSITIVE GRID INFORMATION DATA

Mr. Geraghty:

We appreciate your team for taking the time to help our utilities team understand your concerns and interest around Critical Electric Infrastructure Information. We also appreciate the spirit of partnership in which you came to us openly in discussion and we seek to continue that level of transparent communication with you and your team.

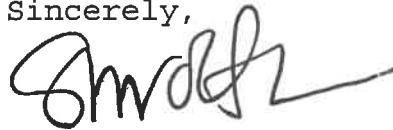

We understand you are in discussions with the California Public Utilities Department regarding SDG&E infrastructure which includes infrastructure dedicated to and supporting Marine Corps Base Camp Pendleton. While our scope of concern may be narrower by nature of our geographic location, we share your concerns with regard to the public availability of our infrastructure information.

Marine Corps Base Camp Pendleton does not concur with the open disclosure of information about electrical distribution infrastructure within the perimeter of Camp Pendleton (whether owned by the USMC or by other entities) that if disclosed could reveal vulnerabilities or if exploited could result in the disruption, destruction or damage to Marine Corps Base Camp Pendleton operations, property or facilities.
