FOR CATEGORICAL EXCLUSION DETERMINATIONS

The proposed action (or the part of the proposal defined in the Rationale above) fits within a class of actions that is listed in Appendix A or B to 10 CFR Part 1021, Subpart D. To fit within the classes of actions listed in 10 CFR Part 1021, Subpart D, Appendix B, a proposal must be one that would not: (1) threaten violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, or similar requirements of DOE or Executive Orders; (2) require siting and construction of major new infrastructure (such as construction of new manufacturing plants with considerable associated ground disturbance); (3) involve significant unresolved conflicts concerning alternative uses of available resources (such as rare or endangered species); or (4) involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or hazardous substances, pollutants, contaminants, or CERCLA-excluded petroleum and natural gas products that preexist in the environment such that there would be uncontrolled or unprecedented releases; (4) have the potential to cause significant impacts on environmentally sensitive resources, including, but not limited to those listed in paragraph B(6) of 10 CFR Part 1021, Subpart D, Appendix B; (5) involve potentially carcinogenic organisms, synthetic biology, governmentally designated noxious weeds, or invasive species; or (6) involve significant unresolved conflicts concerning alternative uses of available resources. The proposed action (or the part of the proposal defined in the Rationale above) fits within a class of actions that is listed in Appendix A or B to 10 CFR Part 1021, Subpart D. To fit within the classes of actions listed in 10 CFR Part 1021, Subpart D, Appendix B, a proposal must be one that would not: (1) threaten violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, or similar requirements of DOE or Executive Orders; (2) require siting and construction of major new infrastructure (such as construction of new manufacturing plants with considerable associated ground disturbance); (3) involve significant unresolved conflicts concerning alternative uses of available resources (such as rare or endangered species); or (4) involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or hazardous substances, pollutants, contaminants, or CERCLA-excluded petroleum and natural gas products that preexist in the environment such that there would be uncontrolled or unprecedented releases; (4) have the potential to cause significant impacts on environmentally sensitive resources, including, but not limited to those listed in paragraph B(6) of 10 CFR Part 1021, Subpart D, Appendix B; (5) involve potentially carcinogenic organisms, synthetic biology, governmentally designated noxious weeds, or invasive species; or (6) involve significant unresolved conflicts concerning alternative uses of available resources.
