Re: *Jordan Cove Energy Project, L.P.*, DOE/FE Docket Nos. 12-32-LNG, 11-127-LNG
Semi-Annual Report

Dear Ms. Wood:

Pursuant to Ordering Paragraph M of DOE/FE Order Nos. 3413 and 3413-A, and Ordering Paragraph I of DOE/FE Order No. 3041, *Jordan Cove Energy Project L.P.* (“JCEP”) hereby submits its semi-annual report describing the progress of the proposed liquefaction facility (“Project”).¹ On January 19, 2021, the Federal Energy Regulatory Commission issued an order denying the petition for declaratory order of JCEP and Pacific Connector Gas Pipeline, LP, determining that Oregon had not waived its Clean Water Act Section 401 certification authority.² Subsequently, on February 8, 2021, the Department of Commerce sustained Oregon’s objection under the Coastal Zone Management Act.³ JCEP has decided to pause the development of the Project while it assesses the impact of these permitting decisions.

Please contact me if you have any questions.

Respectfully submitted,

/s/ John S. Decker

John S. Decker

Attorney for Jordan Cove Energy Project L.P.
