**Re: Mexico Pacific Limited LLC, FE Docket No. 18-70-LNG
Semi-Annual Report – October 2021**

Dear Ms. Moore:

Pursuant to Ordering Paragraph J of DOE/FE Order No. 4248,¹ I submit on behalf of Mexico Pacific Limited LLC (“MPL”) its seventh semi-annual report describing the progress MPL has made in the development and commercialization of the proposed LNG production and storage facility (the “MPL Facility”). The MPL Facility remains under development and does not yet have an expected operational date. MPL has not yet executed any long-term contracts associated with the export of U.S.-sourced natural gas as LNG or any long-term supply contracts. MPL will report on the execution of any such contracts immediately following their execution, as required by Order No. 4248. On September 30, 2021, MPL completed a transaction resulting in a change in control of MPL. MPL will formally notify DOE/FE of this change in control and will seek an appropriate amendment to its non-FTA authorization to export natural gas within the timelines required under DOE/FE’s Change in Control Procedures.

If you have any questions regarding this submission, please contact me at (713) 425-6500.

Sincerely,

A handwritten signature in black ink, appearing to read "Douglas Shanda", written in a cursive style.
