H.67 COVID-19 3610 - Paid Leave under Section 3610 of the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) to Maintain Employees and Subcontractors in a Ready State

- (a) The Contractor may submit for reimbursement and the Government (without requiring consideration but precluding additional fee) will treat as allowable (if otherwise allowable per federal regulations) the costs of paid leave (including sick leave) the Contractor or its subcontractors provide to keep employees in a ready state if--
 - (1) The employees: cannot perform work on a site approved by the Federal Government (including a federally-owned or leased facility or site) due to facilities closures or other restrictions; and cannot telework because their job duties cannot be performed remotely during the public health emergency declared on January 31, 2020 for COVID-19.
 - (2) The costs are incurred from January 31, 2020 through December 18, 2020.
 - (3) The costs do not reflect any amount exceeding an average of 40 hours per week for paid leave.
- (b) Where other relief provided for by the CARES Act or any other Act would benefit the contractor or the contractor's subcontractors, including, but not limited to, funds available under sections 1102 and 1106 of the CARES Act, the contractor should evaluate the applicability of such benefits in seeking reimbursement under the contract.
- (c) The Contractor must represent in any request for reimbursement--
 - (1) Either it: has not received, has not claimed, and will not claim any other reimbursement, including claims for reimbursement via letter of credit, for federal funds available under the CARES Act for the same purpose, including, but not limited to, funds available under sections 1102 and 1106 of the CARES Act; or if it has received, claimed, or will claim other reimbursement, that reimbursement has been reflected, or will be reflected when known, in requests for reimbursement but in no case reflected later than in its final proposal to determine allowable incurred costs.
 - (2) Its request reflects or will reflect as soon as known all applicable credits, including
 - (i) Tax credits, including credits allowed pursuant to division G of Public Law 116-127; and
 (ii) Applicable credits allowed under the CARES Act, including applicable credits for loan guarantees.

1. Purpose

This document serves as the Performance Evaluation and Measurement Plan (PEMP) identified in Section H.28, *Performance Evaluation and Measurement Plan*, for Contract No. DE-AC09-09SR22505 (Liquid Waste contract) between the U.S. Department of Energy (DOE) and Savannah River Remediation LLC (SRR), approved December 8, 2008. This PEMP identifies the performance incentives for work funded by the base (PBS SR-0014C) funding source for the Liquid Waste program.

The PEMP addresses the process for determining earned fee through performance evaluation and measurement, including verifying completion documentation for technical adequacy. The PEMP process ensures evaluation and measurement of performance for accomplishment of the contract Statement of Work, end states and performance requirements. Performance expectations are documented in Performance Incentive Documents (PID) consisting of explicit or implicit performance measures for each evaluation period.

Total available fee is determined according to the contract and is available for payment in accordance with contract Section B, *Supplies or Services and Prices/Cost*, and Section G, *Contract Administration Data*.

2. Key Performance Parameters

Sections of the contract specifically applicable to the PEMP and discussing key aspects of technical approach are Section C, *Statement of Work*; Section H.1, *Programmatic Risks and Uncertainties*; H.12, *Government Furnished Services and Items*; and H.14, *Project Control Systems and Reporting Requirements*.

Incentive strategy is based on:

- Removing salt cake and supernatant from liquid radioactive waste tanks to support preparations of salt batches for feed to the SWPF.
- Completing integrated liquid waste operation preparation scopes necessary to demonstrate readiness to initiate and sustain SWPF operations.
- Removing sludge waste from liquid radioactive waste tanks to support preparation of sludge batches for feed to the Defense Waste Processing Facility (DWPF).
- Operationally closing and isolating old-style liquid radioactive waste tanks and associated ancillary structures.

These tasks are identified in the contract Statement of Work. Management of landlord and custodial services for real and personal property assigned to the Liquid Waste program will also be evaluated. These tasks are identified in the contract and are implicit performance expectations.

Fee distribution amongst the PIDs is based on a combination of analyses of Budgeted Cost of Work Scheduled and scheduled activities considered by DOE management to be key to successful contract execution. Readiness of the Liquid Waste System to support the planned startup of the SWPF and DWPF processing are critical activities.

3. Integrated Project Team & Fee Board

The Assistant Manager for Waste Disposition (AMWD) will lead an Integrated Project Team (IPT) created in accordance with the requirements of DOE O 413.3B, *Program and Project Management*

for the Acquisition of Capital Assets. The IPT provides oversight of the Liquid Waste contract and monitors contract performance against performance baselines throughout contract execution, in order to satisfy the mission at Savannah River Site (SRS). The IPT is staffed and/or supported as needed by subject matter experts as well as matrix support personnel who possess specific competencies, skills, and expertise required for successful evaluation of SRR performance.

The Office of Integration and Planning leads the DOE Savannah River Operations Office (DOE-SR) Fee Board. The DOE-SR Fee Board uses a fee schedule (see Attachment A), an Award Fee Document (see Attachment B) and PIDs (see Attachment C) for each evaluation period to forecast expected fee expenditure based on scheduled completion dates.

4. The PEMP Process

Performance criteria are developed by federal staff with contractor input. Both federal and contractor parties strive to reach mutual agreement on expected business, operational and technical performance by working together to develop performance objectives, descriptions, associated measures and targets tied to DOE strategic goals associated with the contract Scope of Work. PIDs demonstrate direct flow down of DOE strategic goals and priorities into fee-bearing activities, according to Department of Energy Acquisition Regulation (DEAR) 970.1100-1, *Performance-Based Contracting*, paragraph (c). The PEMP process is illustrated in Savannah River Implementing Procedure (SRIP) 400, Chapter 412.1, *Performance Evaluation and Measurement*, and includes planning, development and preparation of PIDs, PEMP approval and implementation, evaluation period execution, performance assessment, and invoicing.

4.1. Planning

The PEMP planning process is led by the IPT to establish evaluation and measurement of contract performance (see Section 3). Planning results in identification of performance expectations and corresponding completion criteria for fee-bearing activities. Allocation of fee is based upon strategic value to the overall Liquid Waste program.

Although individual PIDs are developed for each evaluation period, the planning process also requires performance expectation and fee allocation planning for the entire contract term based upon contract scope and total available fee. Planning matures with each revision of the *Liquid Waste System Plan*. Due to the dynamic nature of the Liquid Waste program, PEMP planning is an ongoing process.

The planning process uses the following inputs, among others:

- DOE, Office of Environmental Management (EM) and site missions, strategies and execution plans
- EM Budget Planning and Funding Plans and Strategies
- Liquid Waste Program Planning Process, also referred to as the Liquid Waste System Planning Process, which results in a family of documents centered around the *Liquid Waste System Plan*
- Contract Section C, Statement of Work
- General Contract End State Requirements (included in Section C)

4.2. Risk Management

DOE uses an integrated risk management process for the Liquid Waste program life cycle baseline. This ensures the Liquid Waste program and its associated technical and programmatic risks are managed under an effective and responsive integrated process. A federal and contractor risk management board provides oversight to the implementation of risk management for the Liquid Waste program.

Liquid Waste program risks and opportunities are periodically assessed, graded, and analyzed, and handling strategies are developed and implemented to minimize risk and maximize opportunity benefit. Analyses of risk impact are used as the basis for developing cost and schedule contingencies. Monitoring strategy implementation and feedback to system planning integrates the risk management and strategic planning processes.

The Liquid Waste program risk management plan is issued after each revision of the *Liquid Waste System Plan*, providing DOE with the necessary input to develop the SRS risk summary and integrated contingency analysis. This plan provides a systematic process for managing, tracking and reporting risks and opportunities for the Liquid Waste program. Detailed plans are also developed that tailor the management, tracking and reporting of risks and opportunities for each sub-element.

4.3. Change Control

Changes to the PEMP and PIDs are subject to the change control process described in SRIP 400, Chapter 412.1, *Performance Evaluation and Measurement*. Proposed changes shall include a description, justification, impacts of non-approval, and proposed fee changes by evaluation period. Changes proposed by SRR will be submitted to the DOE Contracting Officer (CO), who forwards the request to the IPT for review. The IPT makes a recommendation to the CO to either approve the request with or without changes or disapprove the proposal. The contractor is advised that proposed changes should not be submitted in an effort to ease requirements simply due to delays or failures by the contractor to complete work within its control.

All changes require review and concurrence from the Head Contracting Activity office and are subject to the Business Clearance Review process.

4.4. Reporting

The reporting of performance against PIDs will be integrated with other reporting mechanisms and conducted in accordance with applicable portions of the contract.

COs and program officials shall consistently and accurately document real-time contractor performance and ensure performance is recorded both in detail in the contract file and in the appropriate format in the Contractor Performance Assessment Reporting System (CPARS).

4.5. Performance Assessment and Fee Determination

If DOE terminates the contract before the evaluation period ends, DOE will adopt a fair and equitable approach to a negotiated fee settlement in accordance with Contract Clause I.109 FAR 52.249-6 Termination (Cost-Reimbursement) (May 2004).

The government will determine earned fee through evaluation and measurement of contractor performance against the performance requirements specified in PIDs (see Attachment C) within 90 days of the end of the period of performance being evaluated. The contractor is entitled to earn interest on the unpaid portion of fee starting on the day after the Fee Determining Official (FDO) decision was due in accordance with the Prompt Payment Rules. Interest will be calculated using the U.S Treasury site at: : <u>https://fiscal.treasury.gov/prompt-payment/monthly-interest.html</u>.

The government will assess contractor work products against the completion criteria and acceptance criteria specified in the PID's to include reviews of supporting documentation and walk down of physical work in the field. Government assessments are due to the Fee board by the 30th day after the end of the performance period being evaluated. The Fee board shall convene and provide recommendations to the FDO by the 60th day after the end of the performance period being evaluated.

For the subjective-measured evaluation of contractor performance, Contractor self-assessments are used to supplement federal assessments and reporting of contractor technical performance (quality of product/service), cost control, adherence to schedule, and management and address both the strengths and weaknesses of performance during the evaluation period.

Individual federal assessments are captured monthly and are used to improve performance through enhanced communication between federal and contractor organizations. Both federal and contractor management provide input on a monthly basis, recorded in the Monthly Contractor Performance Feedback Report and discussed face to face between the DOE-SR and Contractor management. Below are the five topical areas that receive monthly evaluation from each contractor and federal organization.

- Quality/Safety
- Schedule
- Cost Control
- Management
- Efficiency and effectiveness of contract execution

This structured process and implementing methodology is critical to the evaluation of work that is considered implicit, or "Subjective." This system provides for clear performance measures that are defined and consistent with standards of reporting contractor performance (FAR 42.16, FAR 16.3, FAR 9.1, and DEAR 909.1), The Federal Acquisition Streamlining Act of 1994, and the federal acquisition guide, chapter 42.16. Subjective incentives use adjectival measures related to quality of service or product. The success of a contractor against Subjective measures is determined by the government. The government considers the related conditions under which the work was performed as well as the Contractor's specific performance as measured against the government's objective.

The FDO has sole authority to determine earned fee. The amount of fee awarded for an incentive is based on completing expected performance as scheduled and providing timely and accurate documentation. For all Performance Based Incentives (PBI), the contractor is expected to perform the work in a quality manner, within the overall cost of the Contract Performance Baseline, such that potential rework and waste are minimized. Expected performance completed after the scheduled completion date, but still within the evaluation period, may be eligible for reduced fee based on a unilateral decision by the government. This decision to reduce fee takes into consideration timeliness of performance, quality of the product, resultant documentation of completion, or other factors deemed appropriate by the FDO. Funding associated with any unearned fee will be made available for the performance of contract scope. Note: In accordance with Section H.28 (g) of the contract, "any unearned fee from the award fee made available for

each evaluation period, PBI, or other incentive shall not be eligible to be earned under future periods, PBIs, or incentives."

Fee may be reduced per contract Section B.5, *DEAR 970.5215-3*, *Conditional Payment of Fee, Profit, and Other Incentives – Facility Management Contracts (ALTERNATE II) (JAN 2004) (DEVIATION)*.

Upon receipt of direction from the FDO, the CO will provide consent to the contractor to submit a fee invoice per Section G.7 (b) of the contract.

Per contract Section H.28, SRR may submit an overall self-evaluation of performance for each evaluation period within 15 days after the end of the performance period being evaluated. The self-evaluation will be given such consideration as the FDO shall find appropriate.

4.6. Invoicing and Fee Payment

Fee will be paid as prescribed in Section B.2. (h) of the contract. Earned fee will be invoiced consistent with Section G of the contract. The invoice will include the PID validation/assessment requests submitted for the evaluation period.

5. Federal Oversight of Contractor Performance

Procedures for oversight of contractor performance are described in Savannah River Manual (SRM) 226.1.1, *Integrated Performance Assurance Manual*. The contractor oversight system is founded on an integrated safety management system which emulates DOE P 450.4, *Safety Management System Policy*. SRM 226.1.1 describes processes that comprise the contractor oversight system that DOE uses to: (1) clearly communicate requirements and expectations to contractors; (2) assess the quality, effectiveness, and efficiency of contractor assurance systems and resulting work products in complying with contract requirements; (3) effect continuous improvement in contractors' operations; and (4) enhance the effectiveness of DOE oversight of contractor performance.

In accordance with DOE O 226.1B, SRR also uses independent and self-assessments to determine effectiveness of their assessment of the implementation of contractor assurance systems for environment, safety, and health; safeguards and security; emergency management; cyber security; and business practices systems and their sub-elements. Results from both independent and self-assessments, in addition to external assessments provide insight into areas where improvements in contractor oversight can be made. The end result is a management system that regularly assesses performance, assures comprehensive corrective action, and provides continuous improvement by identifying, correcting and preventing problems that hinder the achievement of site missions.

Attachment A: Fee Schedule

Attachment A: Fee Schedule cont	ť
---------------------------------	---

Contract Term	Evaluation Period	Start	Finish	Evaluation Period Fee Allocation	Up to 5%	Provisional Fee per Month*
Contract Modification for Period Oct 2020 -Sep 2021	14	10/1/2020	9/30/2021	\$ 44,029,453 (Note 14)	\$	2,201,472.65 (Note 15)
			Total	\$ 400,514,121.29		

* With the exception of Evaluation Periods 13 & 14, the provisional fee is based upon 5% of the Fee Allocation for a comparable annual amount and not to exceed 60% of total available fee on an annual basis.

Note 1: The Capital Asset Project (CAP) PEMP Addendum No. 1 includes a PID for duration of the Saltstone Disposal Unit (SDU) 6 Project that extends beyond the current Base and Option 1 Periods (until 11/30/2018) and has Activity Based Milestones totaling \$5.0M.

Note 2: Evaluation Period 6 is a nine-month period. Therefore, for this period the Provisional Fee is calculated as follows: Provisional Fee per Month = $($22,140,000 \times 0.60)/(9) = $1,476,000$ per month

Note 3: Evaluation Period 7 is a three-month period. Therefore, for this period the Provisional Fee is calculated as follows: Provisional Fee per Month = $(\$6,527,000 \times 0.60)/(3) = \$1,305,400$ per month

Note 4: Evaluation Period 9 is a nine-month period. Therefore, for this period the Provisional Fee is calculated as follows: Provisional Fee per Month = $((\$15,072,958.93 \times 0.60))/(9) = \$1,004,863 93$ per month

Note 5: Option 1 Fee Allocation of \$49,699,958.93 aligns with Total Available Award Fee as reflected in Mod 431.

Note 6: Contract Extension Fee Allocation for Evaluation Period 10 of \$12,441,127 aligns with Total Available Award Fee as reflected in Mod 440.

Note 7: Evaluation Period 10 is a six-month period. The contractor may request monthly provisional fee payments up to \$1,244,112.70 per month, calculated as follows: Provisional Fee per Month = $((\$12,441,127 \ge 0.60))/(6) = \$1,244,112.70$ per month

Note 8: Fee Allocation for Evaluation Period 11 of \$13,178,678 aligns with Total Available Award Fee as reflected in Contract Mod for Period covering January 1, 2018 through May 31, 2018.

Note 9: Evaluation Period 11 is a five-month period. The contractor may request monthly provisional fee payments up to \$1,581,441.36 per month, calculated as follows: Provisional Fee per Month = $((\$13, 178, 678 \ge 0.60))/(5) = \$1, 581, 441.36$ per month

Note 10: Fee Allocation for Evaluation Period 12 of \$30,257,137 aligns with Total Available Award Fee as reflected in Contract Mod for Period covering June 1, 2018 through March 31, 2019.

Note 11: Evaluation Period 12 is a ten-month period. The contractor may request monthly provisional fee payments up to \$1,815,428.22 per month, calculated as follows: Provisional Fee per Month = $((\$30,257,137 \times 0.60))/(10) = \$1,\$15,428 22$ per month

Attachment A: Fee Schedule cont'

Note 12: Fee Allocation for Evaluation Period 13 of \$65,055,712 aligns with Total Available Award Fee as reflected in Contract Mod 546 for Period covering April 1, 2019 through September 30, 2020 plus an additional \$28,903 of Fee for Contract Mod 551 (Support of the Defense Waste Processing Facility (DWPF) Recycle Wastewater Environmental Assessment) less \$293 of Fee for Contract Mod 583 (Net decrease due to definitization of scope associated with DWPF Recycle Offsite Disposition - Phase I, SDU7, and Tank 3) for a total fee value of \$65.084.322.

Note 13: Evaluation Period 13 is an eighteen-month period. Based upon the fee allocation reflected in Contract Mods 546, 551 and 583 (Note 12 above) and in accordance with Mod 538, which modified Contract Clause Section B.2(h), the Contractor may request monthly provisional fee payments of up to 5% of the total fee otherwise available for the evaluation period (not to exceed 90% of the total available fee for the evaluation period), namely, \$3,254,216.10 per month, calculated as follows: Provisional Fee per Month = $((\$65,084,322 \times 0.90))/(18) = \$3,254,216.10$ per month

Note 14: Fee Allocation for Evaluation Period 14 of \$44,029,453 aligns with Total Available Award Fee as reflected in Contract Mod 613 for Period covering October 1, 2020 through September 30, 2021.

Note 15: Evaluation Period 14 is a twelve-month period. The contractor may request monthly provisional fee payments up to \$2,201,472.65 per month, calculated as follows:

Provisional Fee per Month = $((\$44,029,453 \times 0.60))/(12) = \$2,201,472.65$ per month

Performance Requirement:

Contract Sections – All

Provide quality-driven program management as outlined in the contract, optimize Liquid Waste system performance, and perform approved scope at or below cost.

Contract Output: SRR2021MGMT-01

The Contractor shall provide safe, timely, and cost-effective management and execution of the Liquid Waste program.

Performance areas evaluated cover all aspects of successful contract execution, with special emphasis on the safe, timely, and cost-effective management and execution of Contract Section C, *Scope of Work*, optimizing Liquid Waste system performance, (e.g., support to the timely execution of the SWPF Project throughout startup and sustained radioactive operations, accelerating tank closures and maximizing waste throughput at the DWPF while ensuring sufficient tank space for continued long term operations). Contractor shall be evaluated on efficiency and effectiveness of contract execution; anticipation, identification, and avoidance of problems that could adversely impact contract execution; cost control measures; innovation and timeliness in resolution of issues impacting contract execution; responsiveness to DOE customer needs; and effective contractor human resources management. Customer service is an implicit performance expectation.

Special focus areas of this performance period will be 1) the effectiveness of the contractor's cost controls, 2) the effectiveness of the contractor's maintenance program, 3) effectiveness of the contractor's emergency preparedness program, 4) effectiveness of contractor's human resources

management, and 5) progress towards readiness to implement the nitric-glycolic acid flowsheet in all Liquid Waste facilities. Also, the Contractor shall continue to manage the DOE-approved Contractor Assurance System (CAS) as defined by DOE Order 226.1B, Implementation of Department of Energy Oversight Policy, which demonstrates program effectiveness of the CAS that includes: (1) A method for validating the effectiveness of assurance system processes; (2) Rigorous, risk-informed, and credible self-assessment and feedback and improvement activities; (3) A structured issues management system that is formally described and documented; (4) Timely and appropriate communication (5) Continuous feedback and improvement, including worker feedback mechanisms; and (6) Metrics and targets to assess the effectiveness of performance.

Performance will be evaluated on the effectiveness of the CAS. The analysis will consider the contractor's ability to self-identify emerging and legacy issues rather than having significant issues identified by DOE-SR or by external organizations as well as the Contractor's implementation of timely and effective corrective actions. DOE-SR will rely on objective and subjective evaluations of the Contractor's performance which include, but are not limited to the following:

- Requirements flow down and procedure adequacy Programs are established to ensure applicable requirements are accurately reflected in procedures and work processes;
- Assessment Program Rigorous, risk-informed, and credible self and Quality Assurance (QA) assessments and feedback activities are conducted to identify issues and improvement opportunities. This includes Parent Company/Corporate Board involvement;
- Performance Measures Metrics are effectively used to provide an accurate picture of current performance against goals;
- Trend Program Deficiencies and metrics are analyzed to support identification of performance trends. Reports are provided to management with sufficient technical basis to allow informed decisions that support correction of negative performance/compliance trends before they become significant issues;
- Cause Analysis and Corrective Action Performance gaps are identified and analyzed commensurate with their significance. Corrective actions are timely prioritized by importance, and appropriately targeted;
- Lessons Learned Lessons Learned experiences and good practices are incorporated into the overall work process and used to inform the organizations of adverse work practices or experiences; and
- Employee Engagement Programs are established to promote feedback and improvement and ownership at the worker level.

SRR should continue to monitor Disciplined Operations Performance using Key Performance Indicators and other tracking tools. As one of the key actions, SRR should maintain the Enhanced

Continuing Training program plan that includes classroom, scenario and simulator-based training with an emphasis on Conduct of Operations (ConOps)/TSR execution.

SRR should demonstrate effective subcontract management, including award of subcontracts as scheduled, inclusion of all requirements, subcontractor audits, and subcontract administration. Contractor will monitor subcontractor performance to ensure compliance with all requirements including small business subcontracting plans, Buy American Act, and applicable labor statutes. Contract should also demonstrate effective use of domestic suppliers of personal protective equipment (PPE) and receipt of PPE in a timely manner.

The contractor's performance will be evaluated routinely throughout the period to provide feedback in cross-cutting areas, such as safety, efficient use of trained and qualified human capital, quality, continuous improvement, cost effectiveness, timeliness of deliverables, compliance with contract, etc. The Contractor will work collaboratively with the Savannah River (SR) Management and Operating contractor, the SWPF Project contractor, and other site contractors as specified in Section J, Appendix N of the contract.

Government Furnished Services and Items (GFS/I):

The target dates and completion dates for the following milestones are based on availability of the funds to execute Contract Mod 602. Further, the target dates and completion dates are based on SRS Site Infrastructure Services provided per SRR-approved schedules (e.g., steam, site access, etc.). Any change in the schedule for funds availability or SRS Site Services, including interruption caused by Continuing Resolution or other action, may result in renegotiation/revision to impacted milestones. In addition, the target dates and completion dates for the milestones are based on timely performance of scope by Savannah River National Laboratory (SRNL) related to the milestones.

Number	Exact date, periodicity, frequency, quantity	Fee	Completion Criteria	
SRR2021MGMT- 01.01	9/30/2021	\$ 2,729.673K (60%)	Performance will be evaluated for the period October 1, 2020 – September 30, 2021. Performance area evaluated cover all aspects of quality, safety, technical scope and issue management.	
SRR2021MGMT- 01.02	9/30/2021	\$ 1,819.780K (40%)	Performance will be evaluated for the period October 1, 2020 – September 30, 2021. Performance area evaluated cover all aspects of cost control, schedule, regulatory compliance, management, small business subcontracting, efficiency and effectiveness of contract execution.	
Acceptance Criter	·ia:			
SRR2021MGMT- 01.01	Contractor will be subjectively measured on its performance during the period in the following areas:			
	 Quality: Contractor will have programs in place that effectively support quality work programs, processes and products including an effective contractor assurance program. Safety: Contractor will have programs and processes in place that support a strong Nuclear Safety Culture. Technical Scope: Contractor will ensure that knowledgeable and capable staff – both full-time employees and subcontractors – are in place to effectively execute contract scope and address emergent technical issues as they arise. Issue Management: Contractor will address emergent issues in a timely manner and will have institutional programs and processes in place to support issue tracking, management and timely resolution. 			
SRR2021MGMT- 01.02	Contractor will be subjectively measured on its performance during the period in the following areas:			
	• Cost Control: Contractor will demonstrate effective programs and processes to monitor contract costs, including, but not limited to, actual costs incurred to complete selected scope is equal to or less than the			

	forecast cost, plus an appropriate risk contingency based on the scope and complexity of the work to be performed.
•	Schedule: Contractor will demonstrate that it maintains schedules that
	satisfy the performance requirements for the subject scope and are reflective of actual schedule performance, problem identification and corrective action plans.
•	Regulatory Compliance: The contractor will support DOE interface with key regulators and produce effective regulatory work products; further, the contractor will ensure compliance with pertinent regulatory requirements.
•	Management: Contractor will maintain a management team tailored to the needs associated with the Liquid Waste mission execution that identify and communicate issues and develop effective solutions, and that works collaboratively with DOE-SR and other SRS tenants; responsiveness to DOE customer needs is an implicit performance expectation.
•	Small Business Subcontracting: Contractor has a mature Small Business Subcontracting program consistent with DOE requirements and maintains and communicates associated programmatic metrics
•	Efficiency and Effectiveness of Contract Execution: Contractor demonstrates overall integration of operations and business programs focused on execution of the Liquid Waste mission completion objectives, and on anticipation, identification, and avoidance of problems that could adversely impact contract execution

Award-Fee Adjectival Rating	Award-Fee Pool Available To Be Earned	Description
Excellent	91%-100%	Contractor has exceeded almost all of the significant award- fee criteria and has met overall cost, schedule and technical performance requirements of the contract in the aggregate as defined and measured against the criteria in the award-fee plan for the award-fee evaluation period.
Very Good	76%-90%	Contractor has exceeded many of the significant award-fee criteria and has met overall cost, schedule and technical performance requirements of the contract in the aggregate as defined and measured against the criteria in the award-fee plan for the award-fee evaluation period.

Good	51%-75%	Contractor has exceeded some of the significant award-fee criteria and has met overall cost, schedule and technical performance requirements of the contract in the aggregate as defined and measured against the criteria in the award-fee plan for the award-fee evaluation period.
Satisfactory	No Greater Than 50%	Contractor has met overall cost, schedule and technical performance requirements of the contract in the aggregate as defined and measured against the criteria in the award-fee plan for the award-fee evaluation period.
Unsatisfactory	0%	Contractor has failed to meet overall cost, schedule and technical performance requirements of the contract in the aggregate as defined and measured against the criteria in the award-fee plan for the award-fee evaluation period.

PBI Number:	SRR2021PREP
Activity Name:	AMWD, Sludge and Salt Batch Preparation/Processing/Support, Tank 48 Treatment
WBS Number:	01.90.02, 01.90.20
Performance Period:	October 1, 2020 – September 30, 2021
Allocated Fee:	\$6,000,000
Revision Number:	0

Senior Level Manager Name:

Jim Folk, AMWD

Senior Level Supervisor/Division Manager Name:

Sonitza Blanco, Director, WDPD

Performance Requirement:

Contract Section C – *Statement of Work*

Contract Output: SRR2021PREP-01

The preparation of sludge and salt waste batches for processing at waste treatment facilities is critical to support efficient and effective waste treatment facilities' operations, remove waste from the Tank Farms, facilitate tank closures and to support SWPF Operations as planned.

GFS/I:

The target dates and completion dates for the following milestones are based on availability of the funds to execute Contract Mod 602. Further, the target dates and completion dates are based on SRS Site Infrastructure Services provided per SRR-approved schedules (e.g., steam, site access, etc.). Any change in the schedule for funds availability or SRS Site Services, including interruption caused by Continuing Resolution or other action may result in renegotiation/revision to impacted milestones. In addition, the target dates and completion dates for the milestones are based on timely performance of scope by SRNL related to the milestones.

SRR2021PREP- 01.01	 a) Complete the compilation and qualification of SWPF Salt Batch 3. (Fee: \$1,000K) b) Complete the compilation and qualification of SWPF Salt Batch 4. (Fee: \$1,000K) c) Complete the compilation and qualification of SWPF Salt Batch 5. (Fee: \$1,500K) d) Perform salt dissolution as necessary for batch preparation, ensure sufficient salt solution is available, and transfer procedures are validated for compilation of SWPF Salt Batch 6. (Fee: \$1,500K) e) Operate the 242-16H (a.k.a. 2H) and the 242-25H (a.k.a. 3H) Evaporator Systems and create up to 1,000K gallons of space gain by evaporation or beneficial reuse @ \$1/gallon. (Fee: \$1,000K) f) Perform the following scope to improve the reliability of the Tank Farms infrastructure and to support optimal throughputs at Liquid Waste Operational Facilities. Fee for any/all f) items paid only if delays in SWPF Operations preclude fulfillment of items c) and/or d) as determined by DOE. SWPF initiation of "One-Year Operation" is assumed to be December 1, 2020. (Maximum fee for items 1 – 14 not to exceed \$3,000K): 			
	Systems and cr	reate up to 600K a gallons of space	and the 242-25H (a.k.a. 3H) Evaporator additional gallons of space gain above the gain by evaporation or beneficial reuse	

_

2. Perform Tank 37 saltcake dissolution to remove at least 30 inches of
saltcake @ \$15K per inch (Fee: \$450K)
3. Initiate Salt dissolution activities with the addition of 30K gallons of liquid
into Tank 27 (Fee: \$150K), complete fabrication of two CSMP assemblies,
and perform B2 Riser D&R activities on Tank 27 (Fee: \$75K) (Total Fee:
\$225K)
4. Complete installation of Salt Dissolution modifications and initiate Salt
Dissolution activities with the addition of 30K gallons of liquid into Tank 44 (Fee: \$250K)
5. Initiate implementation of the approved Tank 31 designs as demonstrated
by completion of Heating & Ventilation (H&V) Stack Modifications and D&R of C2 Riser (Fee: \$250K)
6. Complete specific aspects of the East Hill Utilities Upgrades (Fee: \$700K)
7. Complete fabrication, testing, shipping and receipt of the 3H Evaporator
spare vessel (Fee: \$75K)
8. Install a Submersible Transfer Pump (STP) in Tank 23 (Fee: \$250K)
9. Complete F-Tank Farm (FTF) East Pump House (EPH) surge tank and
chromate pump replacement (Fee: \$250K)
10. Upgrade or replace at least 4 of the following Safety Class/Safety
Significant (SS/SC) waste tank purge and/or annulus ventilation
components: reheater, duct, fan motor, fan, demister, exhaust stack
extensions and/or continuous stack monitor (Fee: \$200K)
11. Fabricate 4 purge ventilation system demister spares (Fee: \$200K)
12. Complete Tank 28 Waste Removal Design Work (Fee: \$125K)
13. Complete Tank 47 Ventilation Stack Extension Design (Fee: \$50K)
14. Procure 4 spare Commercial Submersible Mixing Pumps (CSMP) and 3
spare CSMP masts (Fee: \$375K)
Verification by review of, as applicable for the task, photographic evidence of
completion, completed Operations Acceptance Checklists, Asset Suite listing of
work packages (tasks) set to "finished" or "complete", completed specifications,
completed contract award documents, completed procedures, SRR approved
technical reports, and/or screen shot of designs approved, issued and available in
Engineering, Plant and Facilities Management (EPFM).
Maximum Available Fee is \$6,000K

Senior Level Supervisor/Division Manager Name:

Sonitza Blanco, Director, WDPD

Performance Requirement:

Contract Section H.50, 4, *Produce DWPF Canisters*

Contract Output: SRR2021TREAT-01

The treatment of high activity sludge and salt waste feed at DWPF and low activity salt waste at the Saltstone Production Facility (SPF) and the disposal of treated salt waste in the Saltstone Disposal Facility (SDF) contributes to risk reduction tank closure efforts. Ensuring the availability of key spare equipment (i.e., melters) is a contract requirement and helps to prevent an extended DWPF or SPF outage due to lack of spare equipment.

GFS/I:

The target dates and completion dates for the following milestones are based on availability of the funds to execute Contract Mod 602. Further, the target dates and completion dates are based on SRS Site Infrastructure Services provided per SRR-approved schedules (e.g., steam, site access, etc.). Any change in the schedule for funds availability or SRS Site Services, including interruption caused by Continuing Resolution or other action may result in renegotiation/revision to impacted milestones. In addition, the target dates and completion dates for the milestones are based on timely performance of scope by SRNL related to the milestones.

H.67 COVID-19 3610 - Paid Leave under Section 3610 of the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) to Maintain Employees and Subcontractors in a Ready State

- (a) The Contractor may submit for reimbursement and the Government (without requiring consideration but precluding additional fee) will treat as allowable (if otherwise allowable per federal regulations) the costs of paid leave (including sick leave) the Contractor or its subcontractors provide to keep employees in a ready state if--
 - (1) The employees: cannot perform work on a site approved by the Federal Government (including a federally-owned or leased facility or site) due to facilities closures or other restrictions; and cannot telework because their job duties cannot be performed remotely during the public health emergency declared on January 31, 2020 for COVID–19.
 - (2) The costs are incurred from January 31, 2020 through December 28, 2020.
 - (3) The costs do not reflect any amount exceeding an average of 40 hours per week for paid leave.
- (b) Where other relief provided for by the CARES Act or any other Act would benefit the contractor or the contractor's subcontractors, including, but not limited to, funds available under sections 1102 and 1106 of the CARES Act, the contractor should evaluate the applicability of such benefits in seeking reimbursement under the contract.
- (c) The Contractor must represent in any request for reimbursement--
 - (1) Either it: has not received, has not claimed, and will not claim any other reimbursement, including claims for reimbursement via letter of credit, for federal funds available under the CARES Act for the same purpose, including, but not limited to, funds available under sections 1102 and 1106 of the CARES Act; or if it has received, claimed, or will claim other reimbursement, that reimbursement has been reflected, or will be reflected when known, in requests for reimbursement but in no case reflected later than in its final proposal to determine allowable incurred costs.
 - (2) Its request reflects or will reflect as soon as known all applicable credits, including
 - (i) Tax credits, including credits allowed pursuant to division G of Public Law 116-127; and(ii) Applicable credits allowed under the CARES Act, including applicable credits for loan guarantees.

H.67 COVID-19 3610 - Paid Leave under Section 3610 of the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) to Maintain Employees and Subcontractors in a Ready State

- (a) The Contractor may submit for reimbursement and the Government (without requiring consideration but precluding additional fee) will treat as allowable (if otherwise allowable per federal regulations) the costs of paid leave (including sick leave) the Contractor or its subcontractors provide to keep employees in a ready state if--
 - (1) The employees: cannot perform work on a site approved by the Federal Government (including a federally-owned or leased facility or site) due to facilities closures or other restrictions; and cannot telework because their job duties cannot be performed remotely during the public health emergency declared on January 31, 2020 for COVID-19.
 - (2) The costs are incurred from January 31, 2020 through March 31, 2021.
 - (3) The costs do not reflect any amount exceeding an average of 40 hours per week for paid leave.
- (b) Where other relief provided for by the CARES Act or any other Act would benefit the contractor or the contractor's subcontractors, including, but not limited to, funds available under sections 1102 and 1106 of the CARES Act, the contractor should evaluate the applicability of such benefits in seeking reimbursement under the contract.
- (c) The Contractor must represent in any request for reimbursement--
 - (1) Either it: has not received, has not claimed, and will not claim any other reimbursement, including claims for reimbursement via letter of credit, for federal funds available under the CARES Act for the same purpose, including, but not limited to, funds available under sections 1102 and 1106 of the CARES Act; or if it has received, claimed, or will claim other reimbursement, that reimbursement has been reflected, or will be reflected when known, in requests for reimbursement but in no case reflected later than in its final proposal to determine allowable incurred costs.
 - (2) Its request reflects or will reflect as soon as known all applicable credits, including
 - (i) Tax credits, including credits allowed pursuant to division G of Public Law 116-127; and(ii) Applicable credits allowed under the CARES Act, including applicable credits for loan guarantees.
