NEPA REVIEW SCREENING FORM (NRSF) 3 Categorically Excluded Actions

Document ID #:

DOE/CX-00205,R1

I. Project Title:

MSA/HMIS Annual Categorical Exclusion (CX) B2.3, Personnel Safety and Health Equipment for CY 2021

II. Describe the proposed action, including location, time period over which proposed action will occur, project dimension (e.g., acres displaced/disturbed, excavation length/depth), and area/location/number of buildings. Attach narratives, maps and drawings of proposed action. Describe existing environmental conditions and potential for environmental impacts from the proposed action. If the proposed action is not a project, describe the action or plan.

Mission Support Alliance (MSA)/Hanford Mission Integration Solutions (HMIS) and their subcontractors perform installation of, or improvements to, equipment for personnel safety and health (including, but not limited to, eye washes, safety showers, radiation monitoring devices, fume hoods, and associated collection and exhaust systems), provided that the covered actions would not have the potential to cause a significant increase in emissions.

Actions performed under this Annual CX include those listed in the MSA Mission Support Contract (DE-ACO6-09RL14728) and HMIS Hanford Mission Essential Services Contract (No. 89303320DEM000031) with the Department of Energy (DOE), Richland Operations Office (RL), Section C, "Performance Work Statement." In addition, Section J.3, "Hanford Site Services and Interface Requirements Matrix" and implementing protocols, policies, and procedures apply. The buildings, structures, infrastructures, and equipment covered by this Annual CX include those listed in Sections J.12, "Hanford Structure Responsibility Assignment Matrix" (see Section J.13 in the MSA contract) and J.13, "Hanford Waste Site Responsibility Assignment Matrix" (see Section J.14 in the MSA contract) where MSA/HMIS is the assigned contractor or provides services to other Hanford Site contractors. The MSA contract will transition to the HMIS contract on January 24, 2021.

This Annual CX covers recurring actions that meet the requirements [see 10 CFR 1021.410, "Application of Categorical Exclusions (classes of actions that normally do not require EAs or EISs")] and conditions that are "integral elements" for applying CXs [see 10 CFR 1021, Subpart D, "B. Conditions that are Integral Elements of the Classes of Actions in Appendix B"]. To meet the requirements, actions would not individually or cumulatively have significant effects on the human environment; would fit CX definitions, including any caveats for use of the CX; would not have "extraordinary circumstances" that may affect the significance of environmental effects of the proposal; and would not be divided into smaller actions (segmentation) to meet CX definitions. Section V of this NEPA Review Screening Form provides a summary of integral elements [see 10 CFR 1021, Subpart D, Appendix B for a complete listing]. CXs include foreseeable activities necessary for implementing actions, such as award of grants and contracts, site preparation, purchase and installation of equipment, and associated transportation activities [10 CFR 1021.410(d)].

The MSA/HMIS Environmental Compliance Officers and NEPA Subject Matter Expert would ensure that applicable requirements and conditions are met prior to applying this Annual CX to actions. This includes compliance with the National Historic Preservation Act, Endangered Species Act, Clean Air Act, Clean Water Act, and other applicable laws and regulations; as well as conformance with applicable NEPA Environmental Assessments (EAs) or Environmental Impact Statements (EISs), such as the "Hanford Site Comprehensive Land Use Plan Environmental Impact Statement" (DOE/EIS-0222-F) and "Record of Decision" (ROD), which provides land use maps, designations, policies, and procedures.

This Annual CX is approved pursuant to 10 CFR 1021.410(f) in which proposed recurring actions undertaken during a specified time period, such as routine maintenance for a year, may be addressed in a single CX determination after considering the potential aggregated impacts to ensure no extraordinary circumstances exist. Any changes to this Annual CX require approval by the DOE NEPA Compliance Officer.

L	NEPA	Compilance	officer.			

III. Existing Evaluations (Provide with NRSF to DOE NCO):

IV. List Applicable CX(s) from Appendix B to Subpart D of 10 CFR 1021:

B2.3, Personnel Safety and Health Equipment

V. Integral Bernents and Extraordinary Circum stances (See 10 CFR 1021, Subpart D. B. Conditions that are integral Elements of the Class of Actions in Appendix B; and 10 CFR 1021.410(b)(2) under Application of Categorical Exclusions) Are there extraordinary circumstances that may affect the significance of the environmental effects of the proposed action? If yes, describe them. Solution on connected to other actions with potentially significant impacts, or that could result in cumulatively significant impacts? If yes, describe them. Would the proposed action threaten a violation of applicable statutory, regulatory, or permit requirements related to the environment, safety, health, or similar requirements of DOE or Executive Orders? Would the proposed action require siting, construction, or major expansion of w aste storage, disposal, recovery, or treatment facilities? Would the proposed action disturb hazardous substances, pollutants, contaminants, or natural gas products already in the environment such that there might be uncontrolled or unpermitted releases? Would the proposed action have the potential to cause significant impacts on environmentally sensitive resources? See examples in Appendix B(4) to Subpart D of 10 CFR 1021. Would the proposed action involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeks, or invasive species, such that the action is not contained or confined in a manner designed, operated, and conducted in accordance with applicable requirements to prevent unauthorized release into the environment? In 'No' to all questions above, complete Section VI, and provide NRSF and any attachments to DOE NCO for review. In 'Yes' to any of the questions above, confact DOE NCO for additional NEPA review.
