**Subject:** [EXTERNAL] Correction Needed to Venture Global Calcasieu Pass' Application for Limited Amendment to Existing Authorizations to Export LNG to FTA and Non-FTA Nations (FE Docket Nos. 13-69-LNG, 14-88-LNG, and 15-25-LNG)  
**Date:** Friday, December 10, 2021 10:13:00 AM

---

Good morning,

On December 3, 2021, Venture Global Calcasieu Pass (“Calcasieu Pass”) submitted for filing its Application for Limited Amendment to its Existing Long-Term, Multi-Contract Authorizations to Export Liquefied Natural Gas to Free Trade and Non-Free Trade Agreement Nations (“Amendment”) in FE Docket Nos. 13-69-LNG, 14-88-LNG, and 15-25-LNG.

Subsequent to the submission of the December 3, 2021 Amendment, Calcasieu Pass realized that a correction is needed in footnote 7 of the Amendment. Specifically, the reference to 40.666 Bcf/yr in the last sentence of footnote 7 should be replaced with 20.666 Bcf/yr, consistent with the increase in authorized export volumes requested in the Amendment. Similarly, the reference to 173.466 Bcf/yr in the first sentence of footnote 7 should be replaced with 153.466 Bcf/yr.

Calcasieu Pass regrets any confusion caused by this error and respectfully requests that these corrections be incorporated into the Amendment.

Thank you for your assistance, and feel free to contact me if you have any questions.

Best regards,  
Carlos

**Subject:** Venture Global Calcasieu Pass' Application for Limited Amendment to Existing Authorizations to Export LNG to FTA and Non-FTA Nations (FE Docket Nos. 13-69-LNG, 14-88-LNG, and 15-25-LNG)

Good morning,

Please find attached the filing of Venture Global Calcasieu Pass’ (“Calcasieu Pass”) Application for Limited Amendment to its Existing Long-Term, Multi-Contract Authorizations to Export Liquefied Natural Gas to Free Trade and Non-Free Trade Agreement Nations (“Amendment”) in FE Docket Nos. 13-69-LNG, 14-88-LNG, and 15-25-LNG.

As explained in the attached Amendment, Calcasieu Pass requests that its authorized volumes for exports to both FTA and non-FTA nations be increased from 620 Bcf per year to 640.666 Bcf per year to reflect a refined analysis of the peak liquefaction capacity of the already authorized facilities under optimal circumstances.

Thanks for your assistance with the filing, and feel free to contact me if you have any questions.

Best regards,

**Carlos E. Clemente**
