**Re: Mexico Pacific Limited LLC, FE Docket No. 18-70-LNG
April 2022 Semi-Annual Report**

Dear Ms. Moore:

Pursuant to Ordering Paragraph J of DOE/FE Order No. 4248¹, and Ordering Paragraph N of DOE/FE Order No. 4312² I submit on behalf of Mexico Pacific Limited LLC ("MPL") its eighth semi-annual report describing the progress MPL has made in the development and commercialization of its proposed LNG production and storage facility to be located in the State of Sonora, Mexico (the "MPL Facility").

The MPL Facility remains under development and does not yet have an expected operational date. MPL has executed a long-term contract providing for the export of U.S. sourced natural gas. MPL will file a copy of such contract with request for confidential treatment and a summary of the contract's essential terms under separate cover.

On September 30, 2021, MPL completed a transaction resulting in a change in control of MPL. MPL formally notified DOE/FE of this change in control by notice filed on October 27, 2021. DOE/FE gave notice of this submission on December 20, 2021 (86 Fed. Reg. 71,887). The Docket Index for this proceeding indicates that no motions to intervene, notices of intervention, protests or comments were received by the date specified in the Federal Register Notice. Accordingly, the change in control is deemed to have been authorized as of January 4, 2022.

On January 24, 2022, MPL filed an application to extend the term of its Free Trade Agreement and non-Free Trade Agreement export authorization through December 31, 2050. That application was noticed on February 28, 2022 (87 Fed. Reg. 11,059); that notice provided that motions to intervene, notices of intervention, protests or comments on this filing would be due by March 15, 2022. To MPL's knowledge, no such pleadings were filed by the March 15, 2022, due date.

If you have any questions regarding this submission, please contact me at (713) 589-7470.

Sincerely,

Douglas Shanda
President & Chief Executive Officer, Mexico Pacific Limited LLC
