Washington, DC 20585

WEATHERIZATION PROGRAM NOTICE 22-2
ISSUED DATE: MARCH 23, 2022

SUBJECT: PROGRAM YEAR 2022 GRANTEE ALLOCATIONS

INTENDED AUDIENCE: Weatherization Grantee Managers, Weatherization Subgrantee Managers

PURPOSE: To provide Grantee allocations for the preparation and submission of applications for funding of the Weatherization Assistance Program (WAP) for Program Year (PY) 2022.

SCOPE: The provisions of this guidance apply to all Grantees applying for financial assistance under the Department of Energy (DOE) WAP.

LEGAL AUTHORITY: Title IV, Energy Conservation and Production Act, as amended, authorizes DOE to administer the WAP (42 U.S.C. § 6861 *et seq.*). All grant awards made under this program shall comply with applicable law and regulations including the WAP Regulations contained in 10 CFR Part 440.

PROCEDURES: On March 15, 2022, the President signed into law: H.R. 2471, the Consolidated Appropriations Act, 2022, which provides fiscal year (FY) 2022 full-year appropriations through September 30, 2022. Under this Act the WAP was appropriated \$313,000,000, to include \$18,780,000 to be made available to current WAP grant recipients via the Weatherization Enhancement & Innovation Program (E&I) for innovation; \$1,000,000 to develop and implement strategies to treat harmful substances, including vermiculite; and \$3,000,000 was authorized for Community Scale Pilot Project (CSPP) Grants. DOE will send out instructions on CSPP funding opportunity under a separate memo.

Additionally, at this appropriation level, the Energy Independence and Security Act of 2007 (EISA) authorizes the Secretary of Energy to make funding available for Sustainable Energy Resources for Consumers (SERC) Grants. Therefore, DOE will reduce the amount being distributed to the Grantees by \$6,260,000 for Fiscal Year (FY) 2022. DOE will send out instructions on SERC funding opportunity under a separate memo. Once the Secretary determines how much, if any, will be distributed under SERC, any remaining funds not used for SERC will be distributed through formula. Total funds being made available to Grantees for distribution through the formula in FY 2022 is \$283,040,000.

Remaining actions include \$6,000,000 to be used for Headquarters T&TA and an additional \$15,000,000 authorized for Weatherization Readiness Funds (WRF). WRF are designated for use by Grantees in addressing structural and health and safety issues. This funding is anticipated to reduce the frequency of deferred homes that require other services, outside the scope of weatherization, before the weatherization measures can be installed. These WRF funds are allocated to Grantees using the T&TA distribution model. Additional requirements, including details surrounding budgeting, reporting, and tracking will be distributed to Grantees and Subgrantees through an additional guidance document.

The final Grantee allocations included in this Notice are to be used in conjunction with WPN 22-1 entitled Program Year 2022 Weatherization Grant Application, with its two attachments: 1) Administrative and Legal Requirements Document; and 2) Application Instructions, in developing the annual Grant application for PY 2022.
