SUPPLEMENTARY INFORMATION:

Summary of Change in Control

In the Statement, FLNG states that, on November 14, 2021, JERA entered into a Securities Purchase Agreement whereby JERA Americas Inc. (JERA) agreed to acquire a 25.7% equity interest in FLNG through a wholly-owned subsidiary created for the purposes of this transaction (Transaction). FLNG states that JERA is wholly-owned by JERA Co., Inc., which in turn is an equal joint venture of TEPCO Fuel & Power, Incorporated (TEPCO) and Chubu Electric Power Company (Chubu). FLNG states that the Government of Japan indirectly owns a 27.37% interest in TEPCO.¹

FLNG further states that, following consummation of the Transaction, (i) JERA will own 25.7% of FLNG's equity interest, (ii) Freeport LNG Investment, LLLP will retain its 63.5% indirect ownership interest in FLNG, and (iii) Osaka Gas will retain its 10.8% indirect ownership interest in FLNG. Freeport LNG–GP, LLC will continue to be the sole general partner of FLNG, with no change in ownership.

¹ In the Statement, FLNG states that the Transaction received approval from the Committee on Foreign Investment in the United States (CFIUS) on January 12, 2022. Although DOE expresses no opinion on CFIUS review, additional information may be obtained at: <https://home.treasury.gov/policy-issues/international/the-committee-on-foreign-investment-in-the-united-states-cfius>.

In its email supplement submitted on January 27, 2022, FLNG notified DOE that the Transaction closed on January 24, 2022.

Additional details can be found in the Statement and supplements, posted on the DOE website at: https://www.energy.gov/sites/default/files/2022-04/DOE%20CIC%20Statement%20-%20Freeport_Jera.pdf; <https://www.energy.gov/sites/default/files/2022-04/Email%20Correspondence%20with%20FLEX.pdf>; https://www.energy.gov/sites/default/files/2022-03/DOE%20CIC%20Supplement%20to%20Jan%202013%202022%20Statement%20-%20Freeport_Jera.pdf.

DOE Evaluation

DOE will review the Statement, as supplemented, in accordance with its Procedures for Changes in Control Affecting Applications and Authorizations to Import or Export Natural Gas (CIC Procedures).² Consistent with the CIC Procedures, this notice addresses FLNG's various authorizations to export liquefied natural gas (LNG) to non-free trade agreement (non-FTA) countries, as identified in the Statement, as supplemented.³ If no interested person protests the change in control and DOE takes no action on its own motion, the change in control will be deemed granted 30 days after publication in the **Federal Register**. If one or more protests are submitted, DOE will review any motions to intervene, protests, and answers, and will issue a determination as to whether the change in control has been demonstrated to render the underlying authorizations inconsistent with the public interest.

Public Comment Procedures

Interested persons will be provided 15 days from the date of publication of this notice in the **Federal Register** to move to intervene, protest, and answer FLNG's Statement, as supplemented.⁴ Protests, motions to intervene, notices of intervention, and written comments are invited in response to this notice only as to the change in control described in the Statement (as supplemented). All protests, comments, motions to intervene, or notices of intervention

² 79 FR 65541 (Nov. 5, 2014).

³ FLNG's Statement also applies to its existing authorizations to export LNG to FTA countries, and its pending application to export LNG to non-FTA countries, both as identified in the Statement, as supplemented. DOE will respond to those portions of the Statement separately pursuant to the CIC Procedures, 79 FR 65542.

⁴ Intervention, if granted, would constitute intervention only in the change in control portion of these proceedings, as described herein.

AGENCY: Office of Fossil Energy and Carbon Management, Department of Energy.

ACTION: Notice of application.

SUMMARY: The Office of Fossil Energy and Carbon Management (FECM) (formerly the Office of Fossil Energy) of the Department of Energy (DOE) gives notice (Notice) of receipt of an application (Application), filed on March 22, 2022, by Cove Point LNG, LP (Cove Point). Cove Point requests blanket authorization to export liquefied natural gas (LNG) previously imported into the United States by vessel from foreign sources in a volume equivalent

to 70 billion cubic feet (Bcf) of natural gas on a cumulative basis over a two-year period. Cove Point filed the Application under the Natural Gas Act (NGA).

DATES: Protests, motions to intervene or notices of intervention, as applicable, requests for additional procedures, and written comments are to be filed electronically as detailed in the Public Comment Procedures section no later than 4:30 p.m., Eastern time, June 13, 2022.

Cassandra Bernstein, U.S. Department of Energy (GC–76), Office of the Assistant General Counsel for Energy Delivery and Resilience, Forrestal Building, Room 6D–033, 1000 Independence Avenue SW, Washington, DC 20585, (202) 586–9793, cassandra.bernstein@hq.doe.gov.

SUPPLEMENTARY INFORMATION: Cove Point requests a short-term blanket authorization to export LNG that has been previously imported into the United States from foreign sources for a two-year period. Cove Point states that it will export the LNG from the Cove Point LNG Terminal located in Calvert County, Maryland, to any country with

the capacity to import LNG via ocean-going carrier and with which trade is not prohibited by U.S. law or policy. This includes both countries with which the United States has entered into a free trade agreement (FTA) requiring national treatment for trade in natural gas (FTA countries) and all other countries (non-FTA countries). This Notice applies only to the portion of the Application requesting authority to export the previously imported LNG to non-FTA countries pursuant to section 3(a) of the NGA.¹ DOE will review Cove Point's request to export the LNG to FTA countries separately pursuant to NGA section 3(c).²

Cove Point asks that the requested authorization commence upon issuance.³ Additionally, Cove Point requests this authorization on its own behalf and as agent for other parties that hold title to the LNG at the time of export. Additional details can be found in Cove Point's Application, posted on the DOE website at: <https://www.energy.gov/fecm/articles/cove-point-lng-lp-fe-dkt-no-22-22-lng>.

DOE Evaluation

In reviewing Cove Point's Application, DOE will consider any issues required by law or policy. DOE will consider domestic need for the gas, as well as any other issues determined to be appropriate, including whether the arrangement is consistent with DOE's policy of promoting competition in the marketplace by allowing commercial parties to freely negotiate their own trade arrangements. Parties that may oppose this application should comment in their responses on these issues.

The National Environmental Policy Act (NEPA), 42 U.S.C. 4321 *et seq.*, requires DOE to give appropriate consideration to the environmental effects of its proposed decisions. No final decision will be issued in this proceeding until DOE has met its NEPA responsibilities.

Public Comment Procedures

In response to this Notice, any person may file a protest, comments, or a motion to intervene or notice of intervention, as applicable. Interested parties will be provided 30 days from the date of publication of this Notice in which to submit comments, protests, motions to intervene, or notices of intervention.
