Develop leadership skills in science and technology policy by designing and implementing national research and development (R&D) strategies and programs in the following areas:

- Photovoltaic technologies
- Concentrating solar-thermal power technologies
- Grid systems integration technologies
- Behavioral science, strategic analysis, and technical assistance
- Manufacturing and technology transfer
- Environmental justice and stakeholder engagement
- Communications and outreach

The Oak Ridge Institute for Science and Education (ORISE) Science and Technology Policy Fellowship offers candidates a chance to learn about the federal government and its role in advancing renewable energy with the Solar Energy Technologies Office (SETO) at the U.S. Department of Energy (DOE) in Washington, D.C. Participants will use their expertise to support solar energy R&D by guiding strategy, designing funding programs, and managing SETO-funded projects.

**Eligibility**

This opportunity is open to physical, natural, and social scientists, engineers, and entrepreneurs with bachelor’s, master’s, or doctoral degrees, as well as established professionals with relevant post-degree experience. Participants must be a U.S. citizen or have Permanent Resident (Green Card) status.

**Benefits**

- One-year appointment, renewable for a second year
- Competitive stipend
- Mentorship from DOE officials
- Travel/professional development allowance
- Health insurance supplement
- Relocation reimbursement

**Application Deadline**

**July 15, 2022**
