

**UNITED STATES OF AMERICA
DEPARTMENT OF ENERGY
OFFICE OF FOSSIL ENERGY**

IN THE MATTER OF)	
)	
New Fortress Energy Louisiana)	FE Docket No. 22-39-LNG
FLNG LLC)	

**MOTION FOR LEAVE TO ANSWER AND ANSWER, AND IN THE ALTERNATIVE,
MOTION FOR LEAVE TO INTERVENE AND PROTEST OUT OF TIME, OF
SIERRA CLUB, CENTER FOR BIOLOGICAL DIVERSITY,
HEALTHY GULF, AND LOUISIANA BUCKET BRIGADE**

Pursuant to Sections 590.303 and 590.310 of the regulations of the United States Department of Energy (“DOE”), Sierra Club, Center for Biological Diversity, Healthy Gulf, and Louisiana Bucket Brigade (“Proposed Intervenors”) hereby move for leave to answer and answer the Answer in Opposition to Motion to Intervene and Protests of New Fortress Energy Louisiana FLNG LLC (“NFE Louisiana”) filed on July 26, 2022. Proposed Intervenors move for leave to filed a limited respond to the answer filed by NFE Louisiana asserting untimely intervention by Proposed Intervenors.

For the reasons detailed below, Proposed Intervenors request that the Department reject NFE Louisiana’s claim that the Proposed Intervenors’ intervention was untimely and should be rejected. In the alternative, if the Department does deem our intervention to have been filed out-of-time, we request leave to intervene and protest out-of-time, and such leave should be granted in light of our efforts to intervene on time and the de minimis nature of the delay.

I. STATEMENT OF ISSUES

1. Whether Proposed Intervenors’ Motion to Intervene and Protest was untimely
2. Whether Proposed Intervenors’ Motion to Intervene and Protest, if untimely, should be accepted out-of-time anyway.

II. BACKGROUND

On March 30, 2022, NFE Louisiana filed an application with DOE's Office of Fossil Energy and Carbon Management ("DOE/FECM") requesting authorization to engage in long-term, multi-contract exports of domestically-produced liquefied natural gas ("LNG") from its proposed deepwater port export terminal project located off the southeast coast of Grand Isle, Louisiana ("Project"), for a term extending through December 31, 2050 ("Application"), for authorization to export LNG to both free trade agreement and non-free trade agreement nations. A similar application was submitted concurrently to the Department of Transportation's Maritime Administration ("MARAD") and U.S. Coast Guard ("USCG") for authorization to own, construct, operate and eventually decommission an offshore natural gas export deepwater port to be located in Federal waters off the southeast coast of Grand Isle, Louisiana.

On May 12, 2022, DOE/FECM published notice of NFE Louisiana's Application in the Federal Register, setting a July 11, 2022 deadline for filing protests, motions to intervene, notices of intervention, as applicable, and written comments.¹ In response, Proposed Intervenorors submitted a Motion to Intervene and Protest with attachments in opposition to this project on July 11, 2022. This filing was submitted by email timestamped 4:25 PM EST, but DOE/FECM stamped it as received at 4:33 PM EST. On July 26, 2022, NFE Louisiana submitted an Answer in Opposition to Motion to Intervene and Protests, in which NFE asserted that Proposed Intervenorors' Protest and Motion to Intervene was untimely and should be rejected in whole.

¹ *New Fortress Energy Louisiana FLNG LLC, Application for Long-Term Authorization to Export Liquefied Natural Gas to Non-Free Trade Agreement Nations*, 87 Fed. Reg. 29,151 (May 12, 2022).

III. DISCUSSION

a. The Department Should Reject the NFE Louisiana Claim that Proposed Intervenor's Submission Was Untimely

DOE's regulations provide that "[m]otions to intervene may be filed at any time following the filing of an application, but no later than the date fixed for filing such motions or notices in the applicable FE notice or order, unless a later date is permitted by the Assistant Secretary for good cause shown and after considering the impact of granting the late motion of the proceeding."²

Proposed Intervenor's Motion to Intervene and Protest were submitted by Sierra Club to DOE prior to the deadline for submission. While Proposed Intervenor's submission is time-stamped as being received "[b]y the Docket Room at 4:33 pm, Jul 11, 2022," Sierra Club's records demonstrate that the submission was filed prior to that time.³ The Motion to Intervene and Protest, was submitted by Sierra Club prior to 4:30 PM EST, the deadline for submissions in the docket for this project. Counsel for New Fortress was copied on the e-mail submission of the Motion to Intervene and Protest.

We acknowledge that some of the emails containing attachments (encompassing 13 of the 27 submitted) to the motion to intervene and protest were timestamped after 4:30 PM EST. These attachments are submitted to DOE largely as a courtesy, for ease of reference. At most, New Fortress offers an argument for rejecting these attachments, but not the underlying motion, which can stand without the attachments. However, even these attachments should be accepted in light of the de minimis delay.

b. If the Department Deems the Submission Untimely, Proposed Intervenor Should Still be Granted Intervenor Status

If the Department determines that Proposed Intervenor's Motion to Intervene was untimely, good cause exists for granting intervention out of time. "When a document is required to be filed with [DOE] within a prescribed time, an extension of time to file may be granted for

² 10 C.F.R. § 590.303(d).

³ The timestamped email submissions by Sierra Club are attached as Exhibit A.

good cause shown.” 10 C.F.R. § 590.105(b). While DOE regulations do not outline the factors relied on when establishing good cause, the Federal Energy Regulatory Commission (“FERC”) — whose prior decisions NFE Louisiana agrees DOE should analogize to here—provides regulations that outline the factors relied on by the Commission when accepting late submissions intervention. 18 C.F.R. § 385.214(d). Each of the factors identified by Rule 14, 18 C.F.R. § 385.214(d), supports Proposed Intervenor’s intervention out of time.

Most importantly, treating a protest and motion to intervene filed no more than three minutes after the deadline as timely will not, in any way, disrupt the proceeding or prejudice or burden any existing party.⁴ In considering disruption or prejudice, DOE must look to potential disruption or prejudice resulting specifically from the *timing* of intervention, rather than the impact of having movants involved in the proceeding at all. We reiterate that both DOE and NFE Louisiana actually received the Motion to Intervene and Protest on July 11, 2022. A delay of three minutes is *de minimis* and does not add any additional burden to DOE nor NFE Louisiana in responding to the assertions.

Federal courts applying related rules regarding intervention have explained that:

For the purpose of determining whether an application for intervention is timely, the relevant issue is not how much prejudice would result from allowing intervention, but rather how much prejudice would result from the would-be intervenor’s failure to request intervention as soon as he knew or should have known of his interest in the case.⁵

Here, should movants be granted intervention at this time, the impact on the proceedings and other parties will be no different than if movants intervention had been logged by the Department of Energy three minutes earlier.

In light of the complete absence of prejudice to the harm or to the proceeding, DOE should not separately require a showing of good cause. But insofar as a showing of good cause is required, movants have good cause here, as they plainly attempted to file on time, and in fact

⁴ Rule 214(d)(1)(ii), (iv).

⁵ *Stallworth v. Monsanto Co.*, 558 F.2d 257, 267 (5th Cir. 1977), *see also AmerisourceBergen Corp. v. Dialysist West, Inc.*, 465 F.3d 946, 953 (9th Cir. 2006) (in determining whether to allow amendment of a complaint under Fed. R. Civ. P. 15, looking to prejudice specifically attributable to the delay in seeking amendment and excluding costs that would have been imposed had the amendment been filed earlier).

submitted the actual motion, protest, and majority of the attachments on time. This good faith effort at timely filing demonstrates good cause, especially good cause sufficient to overcome the complete lack of prejudice.

Finally, the Proposed Intervenor's interests are not adequately represented by the other Intervenor in this proceeding. Proposed Intervenor's protest includes significant differences from other intervenors in this docket.

For these reasons, the Department should accept Proposed Intervenor's motion to intervene and protest, either by deeming these to be timely filed or by granting proposed intervenors' request to file out of time.

Respectfully submitted August 10, 2022

Good Afternoon,

Please accept this filing on behalf of the Sierra Club, Center for Biological Diversity, Healthy Gulf, and Louisiana Bucket Brigade's Protest and Motion to Intervene in the New Fortress FLNG docket (Docket No. 22-39-LNG).

This is the first of several emails, with a total of 27 numbered attachments in addition to the PDF Protest and Motion to Intervene.

Thank you,

--

This is the seventh and final email in Sierra Club et al.'s submission in Docket No. 22-39-LNG.

If you have any issues opening these attachments, please let me know and I will resolve as soon as possible.

Best,

--
