

# Welcome!

Amy Kidd, Acting State Energy Program Manager  
September 2022

# SEP Mission & Overview

- The State Energy Program (SEP) provides funding and technical assistance to the 50 states, 5 territories, and the District of Columbia to:
  - Enhance energy security
  - Advance state-led energy initiatives
  - Increase energy affordability

SEP is cost-effective

\$4.50 saved per \$1 invested

SEP creates jobs

1 job created per \$12,500 invested

**SEP Appropriations by Fiscal Year (FY17-FY22)**

**Distribution of SEP Formula Funding for FY22**

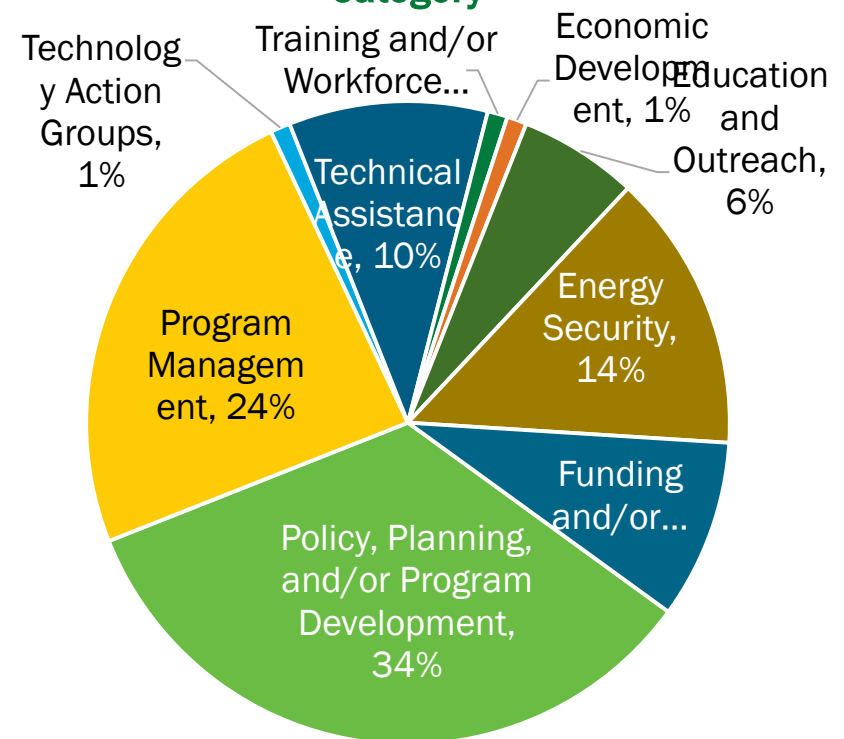

# SEP Success Metrics & Activity Categories

## National SEP Success Metrics\* between FY 2017 and FY2021

- Buildings retrofitted: 24,833
- Square footage of buildings retrofitted: 126,741,088 sq. ft.
- Renewable energy systems installed: 54,908
- Installed renewable energy system capacity: 2,164,190 kW
- Workshops and trainings held: 8,684
- Number of people trained and educated: 1,497,317

\*Metrics are for data reported by States as of 06/29/2022 in the Performance & Accountability for Grants in Energy (PAGE) Online System.

## PY22 Planned Formula Spending by Activity Category\*\*

\*\*Chart is based on data reported by States as of 06/29/2022 in the Performance & Accountability for Grants in Energy (PAGE) Online System.

# SEP Provisions – Infrastructure Investment and Jobs Act

## Sec. 40108. State Energy Security Plans

- No dedicated funding
- New requirement and associated guidance for SEOs to submit a State Energy Security Plan to receive federal funding
- Requirement sunsets 10/31/25

## Sec. 40109. State Energy Program

- \$500M for FY22 – FY26
- Adds new requirements for State Energy Conservation Plans:
  - Transmission and distribution planning
  - Promote DR technology
  - Advance alternative fuels and transportation electrification

## Sec. 40502. Energy Efficiency Revolving Loan Fund Capitalization Grant Program

- \$250M, available until expended
- Provides capitalization grants to states to establish a revolving loan fund
- States can use these funds for loans and grants for energy efficiency audits, upgrades, and retrofits for residential and commercial buildings
- DOE released RFI on best practices for designing revolving loan fund programs

## Sec. 40503. Energy Auditor Training Grant Program

- \$40M for FY22 – FY26
- Establishes a competitive grant program for eligible States to train individuals to conduct energy audits or surveys of commercial and residential buildings
- Funding will help states create high-quality clean energy jobs

**Director, Office of State and  
Community Energy Programs**

# SCEP Mission and Priorities

---

The Office of State and Community Energy Programs (SCEP) was established in January 2022 and is responsible for managing a portfolio of nearly \$6 billion in funding from the Bipartisan Infrastructure Law and annual appropriations. Through the disbursement of formula grants, DOE will extend the core capabilities of state energy offices and expand the weatherization provider network to assist low-income families with home energy retrofits. Competitive awards and technical assistance will further the innovation by states and local governments seeking to implement high-impact and self-sustaining clean energy projects.

## SCEP Program Priorities

**Deploy clean  
energy  
technologies**

**Catalyze local  
economic  
development**

**Create jobs**

**Avoid pollution  
through place-based  
strategies**

**Reduce  
energy costs**
