

# Doing Business with NREL 4<sup>th</sup> Annual Service-Disabled Veteran-Owned Small Business Opportunity Day– Nov. 9, 2022

NREL Construction Contracting Manager  
Kortni Nevins, CPCM

# NREL Science Drives Innovation

## Renewable Power

- Solar
- Wind
- Water
- Geothermal

## Sustainable Transportation

- Bioenergy
- Vehicle Technologies
- Hydrogen

## Energy Efficiency

- Buildings
- Advanced Manufacturing
- Government Energy Management

## Energy Systems Integration

- Grid Integration
- Hybrid Systems
- Security and Resilience

# NREL Goals

An aerial photograph of the National Renewable Energy Laboratory (NREL) campus. In the foreground on the right, a large white wind turbine is partially visible. The campus consists of several large, modern buildings with flat roofs, surrounded by green fields. A tall, thin tower stands in the middle ground. In the background, there are rugged mountains under a blue sky with scattered white clouds.

- Main campus – Golden, CO
- Camp George West - Golden, CO
- Flatirons campus - Boulder, CO
- CCHRC – Fairbanks, AK

## Procurement

NREL offers numerous procurement opportunities to help commercialize renewable energy technologies and supply the laboratory with essential products and services.

NREL acquires a variety of products and services, all of which helps federally funded research and technologies reach the marketplace. The following types of goods or services are typically procured:

- Laboratory supplies/office supplies
- Scientific equipment and periodicals
- Computers/information technology
- Research and development services
- Technical support
- Construction
- Facilities management.

# Remember to:

- Visit NREL's website to look for current opportunities
- Register your business on NREL's Small Business Vendor Database
- Register on SAM.gov
- Check SAM.gov for current RFPs and sources sought notices
- Register with the Small Business Administration
