**Re: Application of Matador Power Marketing, Inc. for Authorization to Transmit
Electric Energy to Mexico**

Dear Sir or Madam:

Pursuant to 10 C.F.R. § 205.300, et seq. of the regulations of the Department of Energy, enclosed for filing on behalf of Matador Power Marketing, Inc. is an original copy of an Application for Renewal of Authority to Transmit Electric Energy to Mexico. Additionally, please find enclosed proof of payment for the cost of the application in the amount of \$500 paid on February 17, 2023 via Pay.gov.

Should you have any questions or concerns regarding this matter, please do not hesitate to contact the undersigned.

Respectfully submitted,

Ruta Kalvaitis Skučas, Esq.

Docket No. EA-____

**APPLICATION OF MATADOR POWER MARKETING, INC.
FOR AUTHORITY TO TRANSMIT ELECTRIC ENERGY TO MEXICO**

Pursuant to Section 202(e) of the Federal Power Act (“FPA”), 16 U.S.C. § 824a(e) and 10 C.F.R. § 205.300, *et seq.*, Matador Power Marketing, Inc. (“Matador Power” or “Applicant”) hereby submits this application for blanket authorization to export electricity from the United States to Mexico (“Application”). Matador Power requests that this application be made effective no later than June 28, 2023, which is the day after the expiration date of Matador Power’s current authorization to export electricity to Mexico. Matador Power respectfully requests authorization for authority to transmit electric energy from the United States to Mexico for a period of five (5) years.

II. DESCRIPTION OF APPLICANT

Matador Power is a Canadian company incorporated in Toronto, Ontario, Canada. Matador Power is owned by Razvan Ungurelu. Matador Power operates as a power marketer across North America. Matador Power does not have any affiliates or upstream owners that possess any ownership interest or involvement in any other company that is a traditional utility or that owns, operates, or controls any electric generation, transmission or distribution facilities. The company's owner Mr. Ungurelu does not have any direct involvement with the energy industry other than through the ownership of Matador Power. The U.S. Federal Energy Regulatory Commission ("FERC") authorized Matador Power to engage in the wholesale sales of electric power and capacity at market-based rates.¹ A copy of this order is attached as Exhibit G. The DOE has also previously granted Matador Power authorization for electricity exports to Mexico for a five (5) year term, effective June 28, 2018.²

III. JURISDICTION

Matador Power believes that the U.S. Department of Energy ("DOE") is the only governmental agency that has jurisdiction over this application.

IV. DESCRIPTION OF TRANSMISSION FACILITIES

Matador Power intends to export electricity over existing international transmission facilities between Mexico and the United States, as identified in Exhibit C. Accordingly, Matador Power requests authority to export electricity to Mexico over any international transmission facility authorized by Presidential Permit that is appropriate for open access by third parties in

¹ See *Matador Power Marketing, Inc.*, Docket No. ER18-938-000 (April 24, 2018) (delegated letter order).

² *Matador Power Marketing, Inc.*, Order No. EA-452 (June 28, 2018).

accordance with the assessment made by DOE of the transmission limits for operation in the export mode.

V. TECHNICAL DISCUSSION OF PROPOSAL

Section 202(e) of the Federal Power Act (“FPA”) and DOE’s regulations provide that exports should be allowed unless the proposed export would impair the sufficiency of electric power supply within the United States or would tend to impede the coordinated use of the United States power supply network.³ Matador Power seeks blanket authority to transmit electric power to Mexico as a power marketer. Matador Power has no electric power supply system on which the proposed exports could have a reliability, fuel use system or stability impact. Matador Power also has no obligation to serve native load usually associated with a franchised service area, and, thus, the exports proposed by Matador Power will not impair its ability to meet current and prospective power supply obligations.

Matador Power will purchase power to be exported from a variety of sources such as power marketers, independent power producers, or U.S. electric utilities and federal power marketing entities as those terms are defined in Sections 3(22) and 3(19) of the FPA. By definition, such power is surplus to the system of the generator and, therefore, the electric power that Matador Power will export on either a firm or interruptible basis will not impair the sufficiency of the electric power supply within the U.S.⁴

Matador Power will make all necessary commercial arrangements and will obtain any and all other regulatory approvals required in order to schedule and deliver power exports. All of the electricity exported by Matador Power will be transmitted pursuant to arrangements with utilities

³ 16 U.S.C. § 824a(e).

⁴ See *Enron Power Marketing, Inc.*, Order EA-102 (1996).

that own and operate existing transmission facilities and will be consistent with the export limitations and other terms and conditions contained in the existing Presidential Permits and electricity export authorizations associated with these transmission facilities. Matador Power will schedule its transactions with the appropriate balancing authority areas in compliance with the reliability criteria standards and guidelines established by the North American Reliability Corporation (“NERC”) and its member Regional Entities in effect at the time of the export.

In previous orders granting export authorization to electric power marketers, DOE declined to rigidly apply the information filing requirements contained in its regulations and instead used a flexible approach which takes into consideration the unique nature of power marketers, the requirements of FERC Order No. 888 and previously authorized export limit of cross-border facilities.⁵ These same considerations demonstrate that the exports proposed by Matador Power will not impair or tend to impede the sufficiency of electric supplies in the U.S. or the regional coordination of electric utility planning or operations.

VI. COMPLIANCE WITH CONDITIONS AND PROCEDURES

Matador Power proposes to abide by the general conditions consistent with DOE’s previous grants of authorizations to power marketers as set forth in its previous orders, as described herein. From time to time, Matador Power will enter into agreements with third parties which involve the export of electric power from the United States into Mexico. Exports made by Matador Power will not exceed the export limits for the facilities, or otherwise cause a violation of the terms and conditions set forth in the export authorizations for each. With regard to specific transactions,

⁵ See e.g. *NorAm Energy Services, Inc.*, Order No. EA-105-CN (Aug. 16, 1996); *MidCon Power Services Corp.*, Order No. EA-114 (July 15, 1996); *USGen Power Services*, No. EA-112 (June 27, 1996); *CNG Power Services Corp.*, Order No. EA-110 (June 20, 1996); *North American Energy Conservation, Inc.*, Order No. EA-103 (May 30, 1996).

Matador Power will provide written evidence to DOE that it has secured sufficient transmission service for the delivery of power to the border. When scheduling the delivery of power, Matador Power will comply with the applicable NERC reliability standards. For each calendar year, Matador Power will provide DOE with reports indicating the gross amount of electricity delivered to Mexico, consideration received during each month, and the maximum hourly rate of transmission, as well as any additional annual reports.

VII. VERIFICATION, REQUIRED COPIES, AND FEE

Verification executed by authorized representatives of Matador Power in accordance with 10 C.F.R. § 205.302(h) is enclosed with the Application. In accordance with the requirements of 10 C.F.R. § 205.307, and DOE's directions, copies of the Application are being provided to the Department. In accordance with the requirements of 10 C.F.R. § 205.309, a copy of this application will be provided to the Secretary of the Federal Energy Regulatory Commission. Payment in the amount of \$500.00 has been submitted through Pay.gov on February 17, 2023.

VIII. REQUIRED EXHIBITS

The following information is provided pursuant to the required exhibits as set forth in DOE regulations 10 C.F.R. § 205.303:

Exhibit A	Transmission Agreements	Not Applicable
Exhibit B	Opinion of Counsel	Attached
Exhibit C	Transmission Facilities	List of international transmission facilities submitted in lieu of a map
Exhibit D	Designation of Agent	Attached
Exhibit E	Statement of Corporate Relationship	Not Applicable

Exhibit F	Operating Procedures	Not Applicable
Exhibit G	FERC Market Based Rate Authority	Attached – FERC order granting Matador Power Market-Based Rate Authorization under Docket No. ER18-938-000

X. CONCLUSION

WHEREFORE, Matador Power respectfully requests that DOE grant this application for blanket authorization to export power from the United States to Mexico, for a period of five (5) years, with such authorization to be effective no later than June 28, 2023.

Respectfully submitted,

Washington, DC 20585

Re: Application of Matador Power Marketing, Inc. for Authorization to Export Electricity to Mexico

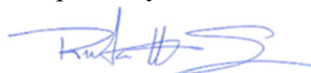

Dear Mr. Lawrence:

Pursuant to 10 C.F.R. § 205.303(b), I hereby provide a legal opinion regarding the corporate powers of Matador Power Marketing, Inc. to export electricity to Mexico. I have examined the Certificate of Incorporation of Matador Power Marketing, Inc. (“Matador Power” or “Applicant”), as well as relevant amendments thereto. Based on my review of those documents and representations provided to me by authorized representatives of Matador Power, it is my opinion that:

1. The import and export of electricity contemplated by this Application is within the corporate powers of the Applicant; and
2. To the best of my knowledge and belief, the Applicant has directed its officers and agents to take all necessary steps to comply with all applicable state and federal laws in connection with the actions to be taken under the Application.

I am opining here only as to the federal laws of the United States, and laws of relevant states within the United States. I express no opinion as to the laws of any other jurisdiction. I am not assuming any obligation to review or update this opinion should the law or existing facts or circumstances change. This opinion is provided by me as counsel to Matador Power solely to you for your exclusive use and is not to be made available or relied upon by any other person or entity without my prior written authorization.

Respectfully submitted,

Ruta Kalvaitis Skučas
Counsel for Matador Power Marketing, Inc.

**IRREVOCABLE LIMITED
POWER OF ATTORNEY**

This IRREVOCABLE LIMITED POWER OF ATTORNEY is made on __, 2023 by Matador Power Marketing, Inc. (the "Principal"), a corporation organized and existing under the Canadian Business Corporations Act, with its headquarters at 50 Carroll Street Toronto, ON M4M 3G3 Canada.

1. Appointment. The Principal hereby appoints Ruta Kalvaitis Skučas of K&L Gates LLP, as the Principal's true and lawful agent for the limited purpose set forth below.
2. Scope of Authority. Pursuant to 10 C.F.R. § 205.303(d), Attorney Skučas shall have the limited power and authority to serve as the agent for the Principal regarding all matters related to the Principal's authorization to export electricity to Mexico as issued by the U.S. Department of Energy ("DOE"). This appointment will remain in effect for the duration of the authorization, a five-year period, and will terminate simultaneously with the expiration of the authorization granted by DOE.
3. Irrevocability. This Power of Attorney is irrevocable by the Principal.

IN WITNESS HEREOF, the Principal has caused this Power of Attorney to be duly executed on this 17 day of ✓, 2023.

Matador Power Marketing, Inc.
Docket No. ER18-938-000

April 24, 2018

Pierce Atwood LLP
1875 K Street NW, Suite 700
Washington, D.C. 20006

Attention: Ruta Kalvaitis Skučas, Esq.

Reference: Market-Based Rate Authorization

Dear Ms. Skučas:

On February 28, 2018, as amended on March 20, 2018, you filed on behalf of Matador Power Marketing, Inc. (Matador) an application for market-based rate authority with an accompanying tariff. The proposed market-based rate tariff provides for the sale of energy, capacity, and ancillary services at market-based rates.¹ You request on behalf of Matador waivers commonly granted to similar market-based rate applicants. Matador's market-based rate tariff is accepted for filing, effective April 1, 2018 as requested.² Based on your representations, Matador meets the criteria for a Category 1

¹ Matador requests authorization to sell ancillary services in all of the regional transmission organization or independent system operator markets for which the Commission has approved sales of specific ancillary services. Matador also requests authorization to engage in the sale of certain ancillary services as a third-party provider in other markets.

² Matador Power Marketing, Inc., FERC FPA Electric Tariff, FERC Electric Tariff; [Rate Schedule FERC No. 1,0.0.0](#). The next time Matador makes a market-based rate filing with the Commission, it must include a revised tariff in compliance with Order Nos. 697 and 697-A to include appropriate citations. *See Market-Based Rates for Wholesale Sales of Electric Energy, Capacity and Ancillary Services by Public Utilities*, Order No. 697, FERC Stats. & Regs. ¶ 31,252, at P 916 (2007), *order on reh'g*, Order No. 697-A, FERC Stats. & Regs. ¶ 31,268, at P 384. *See also Niagara Mohawk Power*

seller in all regions and is so designated.³

Your filings were noticed on March 1, 2018 and March 22, 2018, with comments, protests or interventions due on or before April 10, 2018. None was filed.

Market-Based Rate Authorization

The Commission allows power sales at market-based rates if the seller and its affiliates do not have, or have adequately mitigated, horizontal and vertical market power.⁴

You represent that Matador is owned by two individuals and is a power marketer. Based on your representations, Matador satisfies the Commission's requirements for market-based rate authority regarding horizontal market power.⁵

With respect to vertical market power, you represent that Matador and its affiliates either do not own, operate, or control any transmission facilities; or own, operate, or control transmission facilities that: (a) have a Commission-approved Open Access Transmission Tariff (OATT) on file; (b) are under the operational control of a regional transmission organization or an independent system operator; (c) have received waiver of the OATT requirement under 18 C.F.R. § 35.28(d)(1); or (d) satisfy the requirements for a blanket waiver under 18 C.F.R. § 35.28(d)(2).⁶ Further, you affirmatively state that

Corporation, 121 FERC ¶ 61,275 (2007) at P 8.

³ See *Refinements to Policies and Procedures for Market-Based Rates for Wholesale Sales of Electric Energy, Capacity and Ancillary Services by Public Utilities*, Order No. 816, FERC Stats. & Regs. ¶ 31,374, at P 320 (2015). Order No. 697, FERC Stats. & Regs. ¶ 31,252 at PP 848-850.

⁴ Order No. 697, FERC Stats. & Regs. ¶ 31,252 at PP 62, 399, 408, 440.

⁵ We note that Matador is not being granted authority to make third-party sales of operating reserves to a public utility that is purchasing ancillary services to satisfy its own open access transmission tariff requirements to offer ancillary services to its own customers. If Matador seeks such authority, it must make the required showing and receive Commission authorization prior to making such sales. See *Third-Party Provision of Ancillary Services; Accounting and Financial Reporting for New Electric Storage Technologies*, Order No. 784, FERC Stats. & Regs. ¶ 31,349, at PP 200-202 (2013), *order on clarification*, Order No. 784-A, 146 FERC ¶ 61,114 (2014).

⁶ See *Open Access and Priority Rights on Interconnection Customer's Interconnection Facilities*, Order No. 807, FERC Stats. & Regs. ¶ 31,367, *order on reh'g*,

Matador and its affiliates have not erected barriers to entry and will not erect barriers to entry into the relevant market. Based on your representations, Matador satisfies the Commission's requirements for market-based rate authority regarding vertical market power.

Waivers, Authorizations, and Reporting Requirements

Matador's request for waiver of Subparts B and C of Part 35 of the Commission's regulations requiring the filing of cost-of-service information, except for sections 35.12(a), 35.13(b), 35.15 and 35.16 is granted. Matador's request for waiver of Part 41 and Part 141 of the Commission's regulations concerning accounting and reporting requirements is granted with the exception of 18 C.F.R. §§ 141.14 and 141.15.⁷ Matador's request for waiver of Part 101 of the Commission's regulations is hereby granted, with the exception that waiver of the provisions of Part 101 that apply to hydropower licensees is not granted with respect to licensed hydropower projects.⁸ Notwithstanding the waiver of the accounting and reporting requirements here, Matador is expected to keep its accounting records in accordance with generally accepted accounting principles.

Matador requests blanket authorization under Part 34 of the Commission's regulations for all future issuances of securities and assumptions of liability. A separate notice was published in the Federal Register establishing a period during which protests could be filed. None was filed. Matador is authorized to issue securities and assume obligations or liabilities as guarantor, indorser, surety, or otherwise in respect of any security of another person; provided that such issue or assumption is for some lawful object within the corporate purposes of Matador, compatible with the public interest, and

Order No. 807-A, 153 FERC ¶ 61,047 (2015).

⁷ See Order No. 697, FERC Stats. & Regs. ¶ 31,252 at PP 984-985.

⁸ Hydropower licensees are required to comply with the requirements of the Uniform System of Accounts pursuant to 18 CFR Part 101 to the extent necessary to carry out their responsibilities under Part I of the Federal Power Act (FPA). We further note that a licensee's status as a market-based rate seller under Part II of the FPA does not exempt it from its accounting responsibilities as a licensee under Part I of the FPA. See Order No. 816, FERC Stats. & Regs. ¶ 31,374 at PP 345-350; *Seneca Gen., LLC*, 145 FERC ¶ 61,096, at P 23, n.20 (2013) (citing *Trafalgar Power, Inc.*, 87 FERC ¶ 61,207, at 61,798 (1999) (noting that "all licensees are required to comply with the requirements of the Uniform System of Accounts to the extent necessary to carry out their responsibilities under [s]ections 4(b), 10(d) and 14 of the FPA"))).

reasonably necessary or appropriate for such purposes.⁹

Matador must file Electric Quarterly Reports (EQR) with the Commission, consistent with Order Nos. 2001¹⁰ and 768.¹¹ Matador must file EQRs electronically with the Commission consistent with the procedures set forth in Order No. 770.¹² Matador further must timely report to the Commission any change in status that would reflect a departure from the characteristics the Commission relied upon in granting market-based rate authority.¹³

This action does not constitute approval of any service, rate, charge, classification, or any rule, regulation, or practice affecting such rate or service provided for in the filed documents; nor shall such action be deemed as recognition of any claimed contractual right or obligation affecting or relating to such service or rate; and such acceptance is without prejudice to any findings or orders which have been or may hereafter be made by the Commission in any proceeding now pending or hereafter instituted by or against any of the applicant(s).

This action is taken pursuant to the authority delegated to the Director, Division of Electric Power Regulation - West, under 18 C.F.R. § 375.307. This order constitutes
