

MARTIN COUNTY ENERGY STARS

SUSTAINABLE ENERGY OPPORTUNITIES

NEED AND CHALLENGES

Martin County School District is located in Rural Appalachia. It is an economically depressed region that does not have as many resources as other parts of the country. The tax base is dwindling and workers lack the knowledge to work on complex HVAC systems.

FACILITIES TO BE ADDRESS

Eden Elementary
Inez Elementary
Martin County High
Martin County Middle
Warfield Elementary

FUTURE UPGRADES/ IMPACT

At these schools, we hope to upgrade the aging HVAC systems. We also would like to upgrade MCMS and Eden with a solar panel array. MCMS could also be upgraded to a geothermal heating and cooling. The impact would be substantial reductions in utility costs.

MEET OUR TEAM

Our Energy Star Team will be comprised of our Maintenance Director and three Repair Technicians.
