

## Carbon Capture Demonstration Projects Program Front-End Engineering Design Studies for Integrated Carbon Capture and Storage: Technical Assistance Overview

Below is a list of technical assistance programs, including those offered by U.S. Department of Energy (DOE) Office of Clean Energy Demonstration and other offices within DOE that may benefit communities and organizations associated with the Carbon Capture Demonstration Projects Program Front-End Engineering Design Studies for Integrated Carbon Capture and Storage (CCS FEED Studies). Click on technical assistance program names below to explore and request assistance.

### What is technical assistance?

Technical assistance refers to targeted programs, activities, and services provided by federal agencies that support the broader market ecosystem and improve the performance and deepen the impact of federal programs.

Federal Agency	Technical Assistance Program Name	Technical Assistance Program Description
<b>OCED-funded Technical Assistance for CCS FEED Studies</b>		
EPA & DOE	<a href="#">Environmental Justice Thriving Communities Technical Assistance Centers (TCTACs)</a>	Provides technical assistance via 17 centers across the nation to help remove barriers and improve accessibility for communities with environmental justice concerns. The TCTACs provide training and other assistance to build capacity for navigating federal application systems, writing strong proposals, and effectively managing finding and guide funding awardees on community engagement, meeting facilitation, and translation and interpretation services. <a href="https://www.epa.gov/environmentaljustice/environmental-justice-thriving-communities-technical-assistance-centers">https://www.epa.gov/environmentaljustice/environmental-justice-thriving-communities-technical-assistance-centers</a>

Federal Agency	Technical Assistance Program Name	Technical Assistance Program Description
<b>Other DOE-funded Technical Assistance relevant to CCS FEED Studies</b>		
DOE	<a href="#">Communities LEAP (Local Energy Action Program)</a>	Facilitates opportunity for low-income, energy-burdened communities that are experiencing direct environmental justice impacts or direct economic impacts to shift away from historical reliance on fossil fuels. <a href="https://www.energy.gov/communitiesLEAP/communities-leap">https://www.energy.gov/communitiesLEAP/communities-leap</a>
DOE	<a href="#">Tribal Energy Technical Assistance</a>	Provides federally recognized Indian tribes, including Alaska Native villages, tribal energy development organizations, and other organized tribal groups and communities, with technical assistance to advance tribal energy projects. <a href="https://www.energy.gov/indianenergy/technical-assistance">https://www.energy.gov/indianenergy/technical-assistance</a>

Note: This document is intended to provide a snapshot of available technical assistance resources directly relevant to the CCS FEED Studies but may not be comprehensive. If you know of another technical assistance resource explicitly relevant to the CCS FEED Studies, we would love to include it! Email us at [OCED@hq.doe.gov](mailto:OCED@hq.doe.gov).
