Re: ***Mexico Pacific Limited LLC, FE Docket No. 18-70-LNG*** –  
Submission of Long-Term LNG Sale Agreement

Dear Ms. Sweeney:

In accordance with DOE/FE Order No. 4248<sup>1</sup> and DOE/FE Order No. 4312, Ordering Paragraph G,<sup>2</sup> I am hereby submitting on behalf of Mexico Pacific Limited LLC (“MPL”) and Mexico Pacific LNG Exports, S. de R.L. de C.V. (“MPL Exports”), under seal, a non-redacted copy of an executed long-term liquefied natural gas (“LNG”) sale agreement associated with the export of LNG from the proposed MPL Facility to be constructed in in the State of Sonora, Mexico. In accordance with DOE/FE Order No. 4312 at Ordering Paragraph G, MPL is filing the following:

- (A) LNG Sale and Purchase Agreement dated January 31, 2022 between Mexico Pacific LNG Markets Pte Ltd. (“MPL Markets” or “Seller”) and Guangzhou Development Gas Trading Co., Ltd. (“Buyer”) (the “Contract”);

---

<sup>1</sup> *Mexico Pacific Limited LLC*, DOE/FE Order No. 4248 at 10-11 (Sept. 19, 2018).

<sup>2</sup> *Mexico Pacific Limited LLC*, DOE/FE Order No. 4312 (Dec. 14, 2018) (“DOE/FE Order No. 4312”).

(C) A summary of the major provisions of the Contract (attached as Exhibit 1 hereto).

DOE/FE Order No. 4312 authorizes MPL to export LNG as an agent for others, after such other entities register with the Office of Fossil Energy and Carbon Management (“DOE/FECM”). On April 25, 2022, MPL and MPL Exports filed with DOE/FECM the registration materials required by DOE/FE Order No. 4312 to allow MPL to act as agent for MPL Exports. On April 27, 2022, MPL filed with DOE/FECM a long-term LNG sale and purchase agreement between MPL Exports and MPL Markets (“MPL Exports SPA”). The MPL Exports SPA provides that MPL Exports will sell to MPL Markets the entirety of the LNG from the MPL Facility. The Contract submitted herein provides for the sale of LNG from MPL Markets to Buyer.

MPL recognizes that it is submitting the Contract more than thirty (30) days after January 31, 2022, the effective date of the Contract. Recent execution of several long-term sale and purchase agreements has caused MPL to re-evaluate its prior analysis of filing requirements applicable to the agreements it and its affiliates have executed, and as a consequence MPL has concluded that it should file all long-term sale and purchase agreements previously executed between MPL Exports and third parties. Since the MPL Facility has not yet taken its final investment decision, MPL believes that filing the Contract at this time will not prejudice any party. Moreover, the delay in making this filing has not deprived DOE/FECM of any information it would otherwise have obtained regarding LNG exports from MPL Facility (since no such exports have yet been made).

The non-redacted Contract contains highly sensitive and confidential commercial, financial, and proprietary information and the Contract is being delivered via courier to, and filed with, DOE/FECM under seal on a confidential basis and not for public disclosure, as authorized by Order No. 4312. MPL submits that the Contract meets the six criteria set forth in 10 C.F.R. § 1004.11(f) of DOE’s regulations for determining whether information is exempt from mandatory disclosure pursuant to the Administrative Procedure Act, 5 U.S.C. § 552(b)(4):

- (1) The Contract has been held in confidence by MPL and the respective counterparties, and the Contract contains a confidentiality provision.
- (2) The Contract contains information of a type that is customarily held in confidence by the parties, and there is a reasonable basis to keep sensitive commercial terms, including but not limited to pricing terms, confidential to avoid competitive harm.
- (3) MPL is submitting the Contract to DOE/FECM under seal, with a request to keep the Contract confidential.
- (4) The Contract is not publicly available.
- (5) Public disclosure of the Contract by DOE/FECM is likely to cause other export license holders or registrants to be reluctant to submit unredacted copies of their gas supply agreements to DOE/FECM; thus, public disclosure could impair DOE/FECM’s ability to obtain similar information from others in the future; and

(6) Disclosure of the unredacted Contract is likely to cause substantial harm to the competitive positions of MPL and the counterparty to the Contract.

For the foregoing reasons, MPL respectfully requests that the non-redacted copy of the Contract be kept confidential by DOE/FECM.

Please contact me if you have any questions.

Sincerely,
