

# BECOME AN ARPA-E FELLOW!

## DESCRIPTION:

The Department of Energy **Advanced Research Projects Agency – Energy (ARPA-E)** funds high-risk, high-potential transformational energy technologies. We are looking for creative, early-career scientists and engineers to help direct the future of American energy innovation.

In this prestigious, **two-year, paid federal position**, you will:

- Identify technological whitespaces and conduct independent research and analysis;
- Contribute to new program development, guide agency strategy, and lead outreach activities; and
- Engage with academia, industry, government, and start-up innovators.

## ELIGIBILITY REQUIREMENTS:

- ✓ **STEM Ph.D.** received within last 5 years OR plans to defend within 1 year
- ✓ Ability to **relocate to Washington, D.C.** for duration of the fellowship
- ✓ **Current U.S. citizenship**
