### Details

I, (b) (6) responded to parking lot E-8 on a report of a drone sighting. I met with reporting party (b) (6) at E-8 parking lot where he was waiting. RP stated he was facing south bound when he noticed what appeared to be a drone hovering 40 feet above building 583 and appeared to be recording. RP described the drone as four rotor propeller drone, approximately two feet in diameter with flashing blue and red lights and the body was dark in color.

RP stated, that he noticed the drone at approximately 2355 hours and called National Ignition Facility (NIF) control room to notify them about the situation. At approximately 0001 hours Central alarm station was notified about the situation. At approximately 2357 hours the drone started to move west bound towards West Gate Drive. (Note: All time and distance are approximate). NIF was in a classified mode at the time

### Protective force actions:

All patrols were in a heightened state of alert. A grid search was conducted given the direction of
