Office of Science Mission Statement

Our mission is to deliver scientific discoveries and major scientific tools to transform our understanding of nature and advance the energy, economic, and national security of the United States.

PROGRAM OFFICES

Accelerator R&D Production
Supporting new technologies for use in Office of Science’s scientific facilities and in commercial products.

Advanced Scientific Computing Research
Delivering world-leading computational and networking capabilities to extend the frontiers of science and technology.

Basic Energy Sciences
Understanding, predicting, and ultimately controlling matter and energy at the electronic, atomic, and molecular levels.

Biological and Environmental Research
Understanding complex biological, earth, and environmental systems.

Fusion Energy Science
Building the scientific foundations for a fusion energy source.

High Energy Physics
Understanding how the universe works at its most fundamental level.

Nuclear Physics
Discovering, exploring, and understanding all forms of nuclear matter.

Isotope R&D Production
Supporting national preparedness for isotope production and distribution.

Science Laboratories Infrastructure Program
Supporting scientific and technological innovation by providing enabling infrastructure.

Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR)
Providing support for research and development that has potential for commercialization.

Workforce Development for Teachers and Scientists
Supporting the preparation of a highly skilled future workforce in science and technology.

$8.1 Billion
(Fiscal Year 2023 Enacted)

Research: $3,312,207
Facility: $2,947,128
Projects: $1,344,943
Other: $495,722

Sign up to receive information from the Office of Science, including funding opportunities.
Hosts Nearly 37,000 Users of 28 Office of Science Scientific Facilities

Supports Nearly 32,000 Researchers at More Than 300 Research Institutions and 17 DOE Laboratories

Stewards 10 of the 17 Department of Energy National Laboratories

MAY 2023
