---

Good Afternoon:

I am contacting you regarding the volume amount authorized for Carib Energy (USA) LLC (Docket No. 21-99-LNG, Order No. 4772) in the authorization issued by DOE/FECM on December 20, 2021. Our database records show that Carib was authorized to export previously imported LNG by vessel to Free Trade countries and Non-Free Trade countries in a volume amount equal to 0.48 Bcf for transactions not greater than a two year period. As of July/August, Carib has exceeded the authorized amount and has reported exports totaling 0.5 Bcf. If you are continuing to export LNG, you will need to request a larger volume amount to cover the amount exceeded and any amount you estimate Carib will need to cover the time requested, as stated in your authorization (please refer to the attached authorization, Order 4772). Please contact me for further details on how to apply for an amendment to your current authorization (request for a higher volume amount), and if you have any related questions. I look forward to assisting you. Thank you and have a wonderful afternoon!

Kind regards,
