

**Nebraska** can ensure more energy efficient and resilient homes and businesses by adopting the latest building energy codes, which lower utility bills, improve resilience to natural disasters, improve construction quality, create local jobs and support workforce training for Nebraskans.

**Energy Savings**

**Emission Savings**

**Energy Cost Savings**

*Nebraska can expect to see the following impacts by adopting and implementing:*

<b>Latest Model Energy Codes</b>	<b>0.05 Quads</b> in energy savings	<b>8 MMT</b> of CO <sub>2</sub> emission reduction	<b>\$1 billion</b> in energy cost savings
<b>Zero Energy Codes</b>	<b>0.56 Quads</b> in energy savings	<b>88 MMT</b> of CO <sub>2</sub> emission reduction	<b>\$2 billion</b> in energy cost savings

Additional resources are available such as tax credits, Home Electrification Rebates, Home Efficiency Rebates, implementation support, and other cross-cutting assistance to help Nebraskans offset their costs. Learn more at [energy.gov/save](https://energy.gov/save)

Savings estimates cumulative over 30 years. For additional information on Nebraska codes, visit <https://www.energycodes.gov/status/states/nebraska>
